## KENDALL HALL'S NEW

BIKE A REMINDER

Recalls the Days When the Hall Boys Were St. John's Speedy Riders.

Kendall Hall, manager of the T. H. Hall business on King street, is the possessor of a Reading-Standard gasoline bike, which cuts a lively clip, and marks an advance in motor wheels in modern construction. Mr. Hall in giving the machine a try-out a few evenings ago covered the distance between the city and Loch Lomond—a matter of twelve miles—in a trifle better than fifty minutes. The bike was only purchased and had a continued head wind to contend with.

Mr. Hall is a son of a family that has been conspicuous in bicycling affairs for nearly twenty years; in fact ever since the wheeling race set in here in earnest. The first bicycles brought to St. John found their way to the Hall family, and the late T. H. Hall imported the old but reliable Rudge wheels for sale purposes from England, doing a lively trade in them.

Further than this the Hall boys were prominent in bike racing circles, the redoubtable Tom being the crack wheelman hereabouts for a number of years. His daring exploits aboard an old-fashioned high wheel on the B. & A. track are still fresh memories to lovers of sport, and when the diminutive "Safety" pattern was introduced it appeared ludicrous to see Mr. Hall perched high in the air while his competitors went just as fast squatted low on the new style wheels.

Almost all the male members of the Hall family were mentioned; Frank and Walter. These young men are now successfully engaged in mercantile pursuits in the United States; and Charles, who was also an enthusiastic wheelman, is living in Fredericton. Kendall, himself, of this city, started out in racing but met with a serious accident which prevented a continuance of it.

## AN ODD ASSORTMENT

AT POLICE COURT

**A Young Fellow Who Took His First Drink of Liquor—Several Sheffield Street Reprobates.**

There was a large assortment of prisoners on the police court bench this morning. There were a dozen, of both sexes and of different shades of complexion.

The magistrate after looking the bunch over said if there was only some person present with a kodak to take a snapshot it certainly would turn out to be a beautiful picture. Among the number were some able bodied men, a youth who took his first drink of liquor, an Indian and three women.

The first called on was the Indian, James Christmas, charged with being drunk. The magistrate asked him if he was celebrating Christmas and for a reply got "um." When asked where he got the liquor the Indian said that he got a piece of paper from a doctor and with it procured the liquor at a drug store in Sussex. The magistrate said the matter should be investigated and as Christmas had just enough money to take him to his home in Norton he was allowed to go with a warning.

Charles Hayes, charged with being drunk on Sheffield street informed the court that he worked on a tug boat. The magistrate told the prisoner that the court was not running a tug and fined him \$5 or 30 days.

Cornelius Garnett, a youth, was charged with being drunk on Brunswick street. He explained that he was taking a drunken man home and took a drink from a bottle. It was the first he ever had and it went to his head. He said he had drunk a glass of root beer in a beer shop before. The magistrate remarked that those who drank ale and whiskey were forced to quit drinking at 10 o'clock and go home, while the poor thirsty temperance people who drink root beer don't get home until the early morning. Garnett was remanded.

Robert Dixon, an old offender was allowed to go a week ago under a suspension of sentence of two months jail. He was back again this morning and was given two months more.

Henry Rogers jumped into court with a badly damaged foot. He claimed to have been injured while at work in a mill. He pleaded guilty to drunkenness, although he said his actions had been more due to the medicine he took than the liquor. He was fined \$5.

Four other drunks without any excuses were fined the usual amount.

Della Kennedy (colored) Grace Beecham and Clara McGuigan both white, were charged with fighting on Sheffield street. It appears that there has been bad feeling between the Beecham woman and the colored girl and when they got into a clash last night the McGuigan woman joined in the row. The Kennedy girl was allowed to go providing she leaves Sheffield street, gets into a decent family or returns to her brother in Willow Grove.

The McGuigan woman was fined \$20 and told to get off Sheffield street within a week or be arrested again. Grace Beecham was also fined \$20. Both fines were paid.

Louis Komienky for allowing paper and pieces of cotton to blow about Main street, was fined \$2. Referring to the case, the magistrate read the law to the police and said the merchants should be requested not to allow stuff to blow about the streets. On Sunday last King, Charlotte and Waterloo streets were very dirty on account of paper being thrown on them Saturday night.

**FRYERS—ALLANACH.**

MONCTON, June 18.—A quiet wedding took place at noon today at the home of Mr. and Mrs. J. Allanach, when their youngest daughter, Laura J., was united in marriage to P. H. Fryers, of the city market, by Rev. Jas. Strathairn. Only near relatives of the parties were present. The newly married couple left on the Boston train for a short trip to P. E. I. The numerous presents received are evidence of the high esteem in which both are held.

The wedding ceremony was performed by the Rev. Mr. Allanach, a prominent member and Past Grand Chancellor of the Maritime Provinces, also a Morris chair from friends in the city market. The bride wore white despite over white silk.

## HAD HER HAND BADLY

CRUSHED IN A MANGLE

FREDERICTON, June 18.—Mrs. Mary Hartney, one of the employees of the Globe laundry met with a serious and painful accident this morning while at work. Her right hand caught in one of the mangles and before being rescued the limb was badly lacerated and burnt. She was immediately taken to Dr. Weaver, who lives opposite. The accident was a most painful one and it is yet too early to state what the result will be. The doctor has hopes that he will be able to save the hand.

## FORKS IN ENGLAND

The enormous efforts so much in favor in later Tudor times are responsible for the introduction of forks in England. The difficulty of reaching one's mouth when so adorned must have impressed itself very forcibly on every one, and so the invention of some means of prolonging the reach became an imperative necessity, and thus, as demand usually creates supply, forks came into existence.—Captain G. A. Hope in Grand Magazine.

## A NEW AXE FACTORY

ON COURTEYDAY BAY

Mr. H. B. Peck and John Emmerson have disposed of a portion of the property which was acquired by them in Mount Courtney, formerly Crouchville, to a company who have now under construction a building to be used as a foundry. A never failing water supply and other favorable conditions, make the site an ideal one for manufacturing purposes. The new company is composed of a number of local men of practical experience. The land secured includes several lots at what is known as the old pottery corner. It is understood that when complete, the factory will, in addition to the ordinary work, take up the manufacture of edged tools.

In the St. John Amateur League this evening the Clippers will meet the Portland Y. M. A. team. Both teams will present their strongest line-ups, and a good game is expected. Case will do the pitching for the Clippers and Bovaard or Murphy for the Portlanders.
