Good Hand Whitener

Cucumber paste is the best handmade whitener known. To make it you take enough cucumber to half fill a pint bowl. Into this you put enough oil to moisten it slightly, and add a little oil of jasmine. A hand specialist adds also a little lime juice. To whiten the hands of her patients she proves herself with a pair of gloves three sizes too large. She splits them down the back and with a dull knife spreads the paste on the inside of the gloves. She then puts them on her patients' hands, sewing up the outside with big stitches. In two hours she rubs the hands with sweet almond oil made into a paste with sheeps' fat, which is left on all the afternoon. In the evening there are something to compare with.

A Caravan From China Comes

A caravan from China comes:
For miles it sweetens all the air
With fragrant silks and dreaming
guns.
Atar and ayrb—
A caravan from China comes.
O merchant tell me that you bring
With music sweet of camel bells:
How long have you been travelling
With those sweet smells?
Oh merchant, tell me what you bring.

A lovely lady is my freight,
A lock escaped of her long hair—
That is this perfume delicate
That fills the air—
A lovely lady is my freight.

Her face is from another land,
I think she is no mortal maid,
Her beauty like some ghostly hand,
Makes me afraid;
Her face is from another land.

The little moon my cargo is
About her neck the Pleiades
Clasp hands and sing, Hafiz, 'tis
this
Perfumes the breeze—
The little moon my cargo is.

Are You Subject to Colds?

Then don't load your stomach
with cough syrups. Send healing
meditation through the nostrils—send
it into the passages that are subject
to colds and catarrh. Easy to do
this with Catarrhozone, which cures
a cold in ten minutes. Even to the
lungs goes the healing vapor of Ca-
tarrhozone—all through the bronchial
tubes, nostrils and air passages—
everywhere a trace of disease re-
mains will Catarrhozone follow.
You'll not have colds, nor will you
suffer from sniffles, bronchitis, or
throat trouble if Catarrhozone is
used. Get it today. 25c. and one
dollar at all dealers.

Not long since, in a village in the
north of Scotland, the parish minister
meeting a farm servant who is a
member of his flock, the following
conversation ensued:

Parish Minister—Well, John, and
how are things doing with you?
I hope you are keeping well.
Parish Servant—Hech, sir, it's
hard work I ha' to dae; nae rest
from morn tae night; work an' work
an' no a minute's peace for me.

Parish Minister—Well, John we
must all do our share in the work
of this world. Remember, it is only
the preparation for a better world,
where there will be no more work to
be done.

Farm Servant—Weel, sir, that may
be for the like's o' you' but I'm no
sae sure that there will be naething
for me to dae in the world. It will
be the same thing there, and I'll be
told' John; clean the sun; John, hang
out the moon; John, light the stars,
and so on. I've nae doubt they'll
find something for me to do, unlucky
man that I am.

Are You Sleepless Nervous?

Two horrors crowded into one life
the product of a poor digestion and a
poisoned system. There is just one
cure for this terrible condition—plen-
ty of food—but mind you, food properly
digested; that's the difficulty, to
improve the digestive power of the
stomach. Get rich nutritious blood,
strengthen the system and drive out
poisons—then comes vitality, endur-
ance, power. Ferrozone does all
this and more, it makes sick people
well, weak people strong, changes
nervous and insaniamia into robust
health. Take Ferrozone and health
is yours. 50c. at all dealers.

Saved by the King

There happened an affair in Eng-
land which might have been fatal to
Holbein if the king had been pro-
tected him. On the report of his
character a nobleman of the first
quality wanted one day to see him
when he was drawing a figure after
the life. Holbein in answer begged
his honor of his visit to another day,
which the nobleman took for an af-
front.

He broke open the door and very
rately went upstairs. Holbein, hear-
ing the noise, left his chamber and,
meeting the lord at the door, fell into
a violent passion and pushed him
backward from the top of the stairs to
the bottom.

Considering, however, immediately
what he had done, he escaped from
the tumult he had raised and made
the best of his way to the king. The
nobleman, much hurt, though not so
much as he pretended, was there soon
after him, and upon opening his griev-
ance the king ordered Holbein to ask
pardon for his offense. But this only
irritated the nobleman the more, who
would not be satisfied with less than
his life, upon which the king sternly
replied:

"My lord, you have not to do with
Holbein, but with me. Whatever
punishment you may contrive by way
of revenge against him shall assured-
ly be inflicted upon yourself. Re-
member, pray, my lord, that I can
whenever I please make seven lords
of seven plowmen, but I cannot make
one Holbein ever of seven lords."
Life of Holbein."

It is a Crime.

We should have had no trust ques-
tion in America if the laws first aimed
at those combinations had been taken
seriously and duly enforced. They
put into the form of statutes safe-
guards for public and private rates
that the common law had always re-
cognized. A law ignored is usually
worse than no law at all, and the rule
was proved in this case. Finding
that there was no disposition any-
where to put these newly expressed
regulations into effect, unscrupulous
men in various lines ventured upon
forbidden ground, were not disturbed
were not even exposed, and at length
were followed more and more boldly
by others. Every one of them was
and is a conscious wrongdoer. To
kill competition, to oppress consum-
ers, to conspire against the persons
and the estates of others, is not
legitimate business; it is crime.

To Have Off A Cold.

Cough mixtures 'dope' a cold—but
don't cure. Above all else keep the
bowels regular and stimulate the cli-
minating organs. More valuable
than any cough syrup are Dr. Hamil-
ton's Pills. They clear the system
of every trace of cold—the dull head-
ache, aching limbs, and cough dis-
appears. Take the Pills before re-
tiring, they work while you sleep, and
by morning your cold is broken and
passes quickly away. All dealers sell
Dr. Hamilton's Pills in 25c. boxes.

Width of a River

It is necessary to make use only of the
eyes and the brim of a hat to measure
the width of any ordinary stream or even
of a good size river, and here is the way
to do it:

Select a part of the river bank where
the grounds run back level behind you
and, standing at the water's edge, fix
your eyes on the opposite bank. Now
move your hat down over your brow un-
til the edge of the brim is exactly on the
line with the water line on the other side.
This will give you a visual angle that
may be used on the level surface, and if,
as has been suggested, the ground on
your side of the river be flat you may
"lay off" a corresponding distance on it.
To do this you have only to hold your
head perfectly steady, after getting the
angle with your hat brim, supporting
your chin with your hand if necessary
and turn slowly around until your back
is toward the river. Now, take careful
note of where your hat brim cuts the
level surface of the ground as you look
over the latter, and from where you stand
to that point will be the width of the
river, a distance that may readily be
measured by stepping.

If you are careful in all these details
you can come within a few feet of the
river's width.

FAMOUS DOCTOR'S PRESCRIPTION.

To Spend a Million and a Half
on Hotels Alone.

Think of it! The Canadian Pacific
Railway will during the year 1910 spend
close to a million and a half dollars in
simply making additions and extensions
to the different hotels it now has stretch-
ed out like a chain across the continent.
Even buildings that were erected a few
years ago are proving altogether too
small for the demand for space that is
made on them during certain months of
the year, and as the great secret of the
hotel business seems to be in handling
the maximum number of people when
the rush is on, new wings and additional
floors have been suggested by the com-
pany's architect. It is only a few years
ago since the C. P. R. established a new
summer resort at St. Andrews by the Sea
and notwithstanding the fact that the
company has the large Algonquin Hotel
and several cottages, it will erect an ad-
ditional building during the next few
months that will practically double the
capacity of the hotel.

Then at the Chateau Frontenac at
Quebec, it was only last year that the
company completed the erection of a
new wing that supplied some two hun-
dred additional rooms, but for a number
of weeks last summer guests had to be
turned away almost daily. A new St.
Lewis street addition is now planned.

At Montreal it is the intention of
doubling the capacity of the Place Viger
Hotel, notwithstanding the fact that it
is situated a considerable distance from
the English section of the city, and
what has been said of these may also be
applied to almost every hotel and chalet
situated through the Rocky Moun-
tains. The most important change in
this section will be made at the
big hotel the company now has at
Banff, while farther west important
changes will also be carried out in
connection with the hotels at the
terminal points on the Pacific coast.

All of which is a reminder of the
confidence that the big men at the
head of the C. P. R. have that this
country is going to go ahead at a
very fast rate, and that just as it
makes arrangements to handle a large
crop that may be produced in the
Northwest, so it must give equal at-
tention to maintaining Canada's repu-
tation by being able to accommodate
the large amount of tourist traffic
that is coming to this country from
every part of the world.

Stool of Repentance

The following is one of many games
to aid in putting a party of young
folks:—
The players sit in a circle, in the center
of which a stool is placed. One of the
company goes out of the room, and the
rest say all sorts of things about him.
For instance, one will say "he is hand-
some, another that he is clever or stupid
or vain." The "culprit" is then called
back into the room and seats himself on
the stool, which is called "the stool of
repentance," and one of the players be-
gins to tell him the different charges
which have been made against him.
"Some one said you were vain. Can you
guess who it was? If the culprit guesses
correctly he takes his seat in the circle,
and the person who made the accusation
becomes the "culprit" in his stead. If,
however, the "culprit" is unable to guess
correctly he must go out of the room
again while fresh charges are made
against him.
