### REFERENDUM NULL AND VOID

Resolutions Against Order-In-Council and Present System of Movie Censorship Are Passed.

An exhaustive report on the referendum vote for each electoral district was presented by J.E. Bill at the session of the Citizens' Liberty League convention, held in Toronto. The report showed that according to the official returns published by Arthur H. Sydere, clerk of the Crown-in-Chancery, in this week's Ontario Gazette, the returns of seventy-three out of one hundred and seven districts do not check on the four questions submitted. Mr. Bill contended that there had been a breach of the Referendum Act, and that the Government in

power should declare the election on the Temperance Referendum Act null and void.

Terminate Order-In-Council. One resolution, proposed by A.F. Healy, and adopted read: "That the order-in-council purporting to have the effect of law under and by virtue of the Wa Measures Act be terminated forthwith, and notification be given the people accordingly, as the subterfuge of prolonging same is causing great dissatisfaction and unrest amongst our people, and the Government's action is subversive of all British democratic principles."

Another, moved by C. O'Donnell, demanded abolition of provincial censorship of moving pictures, and the creation of a National Board of Censors.

### TO-DAY'S EVENTS.

Twenty-five years ago died Sir John Thompson, Canadian statesman and premier. The thirtieth anniversary of the death of the English poet, Robert Browning, will be observed to-day by Browning societies in many parts of the world. General Pershing and his staff are scheduled to pay a visit of inspection to-day to Camp McClellan, at Annapolis, Md. The International Editorial Association, a fraternal organization of newspaper men formed in Chicago last May, is to open its first convention in Kansas City to-day.

Navigation is expected to close at Port Colborne on December 15. Sarnia will build a portable school at a cost of \$6,000 to relieve overcrowding.
