OUTSPOKEN IN GERMANY.

Following is an excerpt from

one of several pamphlets cir-

culated in the German capital

during the recent strike:—

"All over the world we are

despised and hated. On our fore-

heads rests the curse of Cain

men shun us in the street and

our language as forbidden. We

William, we have you to thank

that the achievements of a cen-

tury of national effort have lost.

We will no longer follow you."

The significant thing about

declarations is their plain-spok-

eness. Germany is getting on,

though the men who spoke

so plainly are brow-beaten into

submission once more.

CALL FOR REVOLT FAILS TO

AROUSE QUEBEC CITIZENS.

Quebec, April 22—The mili-

tary authorities were on the a-

lert here tonight owing to rum-

ors current today that a revolu-

tionary meeting would be held

on Boulevard Langelier, the

scene of conflict between the

soldiers and the rioters on Easter

Monday night.

Hand bills and posters were

freely circulated in St. Roch's

and lower town today calling on

the citizens to revolt and invit-

ing them to a meeting at Boul-

evard Langelier tonight.

The four thousand troops

stationed here were in barracks

tonight ready for any emerg-

ency. A good detachment of

police were on hand early and

kept the people stepping lively

in the vicinity of Boulevard

Langelier.

The posters and hand bills

which were circulated earlier in

the day were written in lead

pencil and although the feeling

here is rather keen over the new

military service regulations,

there seemed to be little enthu-

iasm over the call for a revolu-

tion.

In the United States the win-

ter wheat crop will be 560,000,-

000 bushels, or more than 142,

000,000 bushels increase over

last year. If the Spring wheat

crop with yield in the same pro-

portion there will be 850,000,

000 bushels as a total yield.

This yield will be lots of wheat

for the United States and the

Allies as well.

Officials of the Ford Motor

Company Detroit, confirmed a

report that more than 200 men

have been affected daily by a

mysterious epidemic resembling

grippe which has been prevalent

in the plant. It was estimated
