## the question

Who do you think would be a better president—Mondale or Reagan?

Julianne Dixon, Psychology I
"I think Mondale, because Reagan is giving more money towards military hardware, thus he's more militant. He should stick with acting."

Fred Edwards, Computer Science

"Reagan, because of his economic programs. Mondale wants to cut the deficits and the country is just coming out of a recession.

Lee Haynes, Psychology II
"Reagan would be a better president but I don't like his defence policy. Economically, however, I think he is better for the country than Mondale is."

Ed Dobos, Economics III
"Reagan, because he has put
confidence back in America and
he's united with the people
behind the national identity."

Alan Thomas, MBS II
"I would say that Reagan is a
better choice because I think he
has a better grasp of the economic situation than Mondale."

Patrick Wong, BAS III
"Ronald Reagan, because he's strong and he represents the people of America."
