PLEASANT EVENT

Last evening the members of the
private fire department of the Wm.
Gray & Sons Co., assembled at the
home of Mr. Rase, Patterson avenue,
to bid farewell to him as he leaves
Monday for Winnipeg, Man. After
a pleasant evening spent in games
and other amusements Mr. Rase was
presented with a handsome pipe and
the following address:

Dear Sir,—We, the members of the
private fire department of the Wm.
Gray & Sons Co., Limited, take this
opportunity of expressing our sincere
regret in losing you from our midst
both socially as well as a member
of the fire department of the above
firm of which you have been chief
for some time, in fact ever since its
organization. It is a pleasure to
state that we have not had a fire
of any serious nature since its
organization. We cannot attribute the
good luck may we call it—to any
other cause than to your persistent
efforts in placing safe guards
against fire or causing same to be
done.

We also feel safe in speaking on
behalf of the company that you will
be greatly missed by them as they
have done a great deal of building
under your supervision since you
have been with them, which we can
safely say, as the factory is nearly
double the size now that it was when
you came here.

Please accept this pipe, not for its
intrinsic value, but as a slight token
of our respect.

When you are sitting in that
western chair and enjoying a nice
cool and refreshing smoke, may your
memory travel back to those you
have left behind.

Signed on behalf of the members
of the fire company,
W. CLEMENTS,
Chief.

SAD DEMISE

Much sorrow has been occasioned
by the untimely death of Charlotte
Louise Horton, wife of Fred. N. Hor-
ton, of the John Morrow Machine
Screw Co., of Ingersoll, which took
place at the residence, Maplehurst,
Ingersoll, on Saturday morning,
March 25th, in her 24th year.

Mrs. Horton possessed a personality
which made friends for her in every
direction, as was evidenced by the
many loving and kindly expressions
of sympathy given to sorrowing
friends, none of which were greater
than the tribute accorded her by the
workmen of the factory, many
of whom will long remember her
kindly word of encouragement and
cheer given at various times. Her
loss will also be greatly felt in the
various associations of the King
street Methodist church, where her
assistance was eagerly sought.

Deceased was the fourth daughter
of the late Thomas Allen Fisher, of
Ashburn, and sister of F. E. Fisher,
of this city. She is survived by her
husband and an infant son.

WERE DISMISSED

At a special meeting of the Car-
penters' union of Windsor, last night,
Thomas Thorne, R. Remington, William
Barton, David Hamley, John Caswell,
Frank Rolf and R. Watson, the car-
penters who returned to work after
the union had declared a strike at
the plant of John Piggett & Sons,
Windsor, were suspended from the
union and a fine was imposed on each
man for disobeying the order of the
union.

The Spring Months

are a severe strain, even upon the most robust constitutions.
People seem to have gotten into the habit of dosing them-
selves with tonics, instead of going to the root of the matter
and relieving the conditions which cause the trouble.

Abbey's Effervescent Salt

brings immediate relief from that feeling of lassitude. It gives
healthy action to the bowels without astringent after-effects, and
vitalizes the system. A teaspoonful in a glass of water every
morning makes you feel like a new person.
Sold by all druggists. 25c and 60c a bottle.

BISSELL'S STEEL LAND ROLLER

Has a List of Real
Good Improvements.

It runs on ROLLER BEARINGS—
no cutting, no grinding, no squeaking,
has closed heads in all drums, and is
built of extra stiff steel throughout.

Adapted for use in all Provinces. Enquire of Chatham Agency for full par-
ticulars. THE GOOD POINTS CAN'T ALL BE TOLD HERE.

FRANCE SITTING TIGHT

Delcasse's Answer to Kaiser's
Defiant Words at Morocco.

France Will Not Modify Her Policy—
Foreign Minister Brings Up Que-
stion in Senate and Justifies Course
Taken and to Be Assumed—Em-
peror of Germany Guarantees So-
vereignty of Morocco.

Paris, April 1.—Foreign Minister
Delcasse made a significant speech in
the Senate yesterday. "France's po-
litical policy," Minister Delcasse said,
"continues to be the same conditions as
it was before. The Sultan's weakness
and the anarchy resulting therefrom
were prejudicial to everybody, and
especially to France, in Algeria. We
do not seek to remedy for the intolerable
situation without allowing our action
to awaken the suspicions of other na-
tions. France does not pretend to base
her interests on disregard for the in-
terests of others."

France Has Special Standing.
"The fact arose negotiations resulting
in agreements proclaiming that France
possesses a special standing in Mor-
occo. This Anglo-French treaty recog-
nizes that it is France's task to assist
in opening Morocco to civilization, and
also that from the economic point of
view all nations have an equal footing
there. The Franco-Spanish agreement
confirms these views. The terms of the
Anglo-French treaty were immediately
communicated to the Sultan, of this fact
the issue of Moroccan loan by France
is proof. If France sought a pretext
for intervention one existed in the dis-
turbed state of the Algerian frontier.
However, from friendship for Morocco
and a clear conception of her own in-
terests, France merely pointed out the
necessity for establishing order."

Will Not Modify Order.
"That position we still hold. The re-
sistance of parties interested in main-
taining the present anarchical condition
of affairs leaves no room for illusion,
but that will not modify our policy.
Morocco is aware both of our good will
and our strength, and also that we do
not seek to expand a naturally thought-
out program of Moroccan policy. It,
therefore, appears that France will
succeed in assuring its future in the
western Mediterranean without offend-
ing any right or clashing with any in-
terest."

MOROCCO'S SOVEREIGNTY.

Kaiser Says, in Speech at Tangier, It
Will Be Maintained.
Tangier, Morocco, April 1.—The
Hamburg correspondent here yesterday
on board, arrived here yesterday morn-
ing from Lisbon. His Majesty was
welcomed on landing by the repre-
sentative of the Sultan, the diplomatic
corps and a large crowd of people.
The usual salutes were exchanged. A
town presented a most picturesque
spectacle.

The Germans delivered to His Ma-
jesty an address of welcome, to which
he replied:
"I am happy to recognize in you de-
voted pioneers of German industry and
commerce, who are helping me in the
task of always upholding in a free
country the interests of the mother-
land. The sovereignty and integrity
of Morocco will be maintained."

Kaiser Meant Business.
London, April 1.—The Times' Tangier
correspondent says: "It is impossible
to deny that the Emperor's visit, which
the world watched to consider as that
of an Imperial tourist, has been an
immense political demonstration. No-
where has the Emperor been so gar-
landed with flowers and basked un-
til the very houses were scarcely dis-
tinguishable could doubt that such ex-
penditure, meant more than the most
courteous welcome to an Emperor de-
sirous of seeing the commodities of
Tangier."

"It was able to watch the Emperor
during his interviews, and noticed
the forcible manner in which he spoke,
and especially to the Sultan's uncle,
and the brief two hours he spent there
may prove to have marked an epoch
in the history of Morocco. He re-
ported to have spent the most empha-
tically to German subjects at the lec-
ture, but no official account of his re-
marks is obtainable."

OTTAWA'S REVENGE.

Will Serve Notice of Expropriation on
Consumers' Electric Co.

Ottawa, April 1.—The City Council
last night, at a special meeting, unan-
imously decided to serve notice of ex-
propriation on the Consumers' Electric
Co., a privilege enjoyed under the
charter.

This move is the city's answer to the
action of the House of Commons in
passing the Ottawa Bill, place Montreal,
empowering it to try out competing
companies.

The Council takes the position that
this will result in a monopoly and
largely increased prices to the consum-
ers. To offset this, the city will go
into the lighting business.

Anthony Decker Dead.
Toronto, April 1.—Anthony Decker,
one-time counterfeiter, is dead
from an overdose of paracetic, which
he took yesterday afternoon. Decker
died as he was being carried into the
Emergency. His wife and daughter
live at 371 City Hall place, Montreal.
It is supposed he received some help
from them at times. He was 61 years
of age. Decker had a checkered
career, and was one of the most expert
engravers in America.

"Manitou" Has Accident.

Falmouth, Eng., April 1.—The At-
lantic Transport Line steamer Mani-
tou, which sailed from London March
1 for New York, put back here yester-
day with her thrust shaft fractured.
The accident to the Manitou oc-
curred when the vessel was 1,200 miles
out. Her captain deemed it advisable
to return as the steamer had experi-
enced terrible weather.

Minister Hangs Himself.

Buffalo, April 1.—Rev. Rogers D.
Condon, aged 71, a Methodist minister,
a patient at the Buffalo State Hospital,
committed suicide by hanging himself
in his room at the institution early
yesterday.

GETTING BUSY

F. H. Bowyer, the Energetic Member
for East Kent is Already Interest-
ing Himself on Behalf of his Har-
wich Constituents.

In 1899 and 1900 a large number of
the farmers around Guilds had their
apple trees destroyed by the San Jose
scale insects. The farmers have
never yet received any compensation
for the destruction of their trees.
The matter had been brought to the
late government, but no attempt was
made to indemnify the men for their
loss until last year, when \$5,000 was
appropriated for this purpose. Hav-
ing gone this far, the late govern-
ment made no effort to see that
those who suffered should receive

MILLINERY

The Firm of Thibodeau and Company
had a Successful Opening—A
Worthy Establishment.

In the many millinery openings
which have come and gone this spring
there are none which were more suc-
cessful from points of attendance
and sales than that of the Thibodeau
Company, which was held last Wed-
nesday. Although the millinery
opening of this firm was held some-
what later than the others it was,
nevertheless, very popular, and the
large show room was unable to ac-
commodate at once, the vast crowds
that sought admittance.

The show room presented a very
beautiful appearance with its array

FAMOUS PEOPLE

QUEEN ALEXANDRA

The Sweetness and Charity of England's Queen

Queen Alexandra, whom Dean Stanley termed "the angel in the palace,"
has for over forty years endeared herself to the hearts of the British people
since 1863, when a girl of nineteen in her quaint, little, old-fashioned poplin
frocks and shawl she landed at Gravesend as the bride of the Prince of Wales.

Her early life was passed in extreme plainness and simplicity, because
of the smallness of the family income. When she was born, her father, then
Prince Christian, had no hope of ever being King of Denmark, for his rela-
tive Prince Christian, had no hope of ever being King of Denmark, for his rela-
tive Prince Christian, had no hope of ever being King of Denmark, for his rela-

When Alexandra was seventeen, the Prince of Wales, while speaking to
one of his friends, jestingly asked to see the portrait of his sweetheart. In-
advertently the wrong picture was handed to the Prince, and instead of the
face of his friend's fiancée, he saw the likeness of "the most beautiful woman
in Europe." The future king of England promptly fell in love with the por-
trait which led to his marriage two years later.

The simplicity of her early years has ever clung to the Queen; though
in the court she has not been of it, and for society she has cared little. Her
home circle has been her throne, where she has reigned with sweetness and
love. Her kindness, gentleness, tact and generosity have been always at the
call of need, and since she went to England has been instrumental in raising
or causing to be raised over \$250,000,000 for charity.

In one of King Christian's weekly letters to her, he wrote that an elderly
lady-in-waiting to the late Queen of Denmark was dying, and that her one
wish was to speak again to her dear "Princess Alex." At that time it was
impossible for Alexandra to leave England, but a long tender message of
love and hope spoken by her into a phonograph, was sent by special courier
to Copenhagen. Its arrival a short time before the aged lady's death made
her last hours serenely happy.

At Sandringham she led the life of a country lady, finding her pleasure
in her children, the house, the grounds, her pets, and in ministering acts of
mercy. Serene, gracious and beautiful, her life has been quiet, though with
a thread of sorrow running through days of seemingly golden happiness.

Selected according to Act of the Parliament of Canada, in 1899, by W. C. Black, at the Department of Agriculture.

compensation. F. H. Bowyer, the en-
ergetic member for East Kent, has
taken the matter in hand and these
interested may now rest assured that
their just claim will be attended to.
Yesterday he brought the matter up
in the legislature and in answer to
Mr. Bowyer, Hon. Mr. Montet said
that \$5,000 had been appropriated
last year towards compensating far-
mers and fruit growers for the de-
struction of their trees and orchards
by the San Jose scale inspectors some
years ago.

Mr. Bowyer will not be satisfied
until he has seen to it that all
new claims are paid.

which are extensive and well worthy
of a visit.

This firm has recently been placed
under its present new management
and should do an extensive business.
A visit to their store will never be
regretted by any person who de-
sires to purchase stylish goods.

Housekeepers

have been vexed when
using cream of tartar
and soda to find their
work uneven. If some-
times good, at others
the biscuit and cake
will be heavy or sour or
full of lumps of soda
that set the teeth on
edge. Flour, eggs and
butter wasted. This is
because the cream of
tartar is adulterated or
cannot be used in the
proper proportions.

Mineral Baths

Chatham, Dec. 28, 1901.

TO CHATHAM MINERAL WATER CO.

For some years I was so badly used up with rheumatism in my
hip and leg that I could not walk without suffering severe pain and
finally got so bad that I was confined to my bed. I tried almost every
kind of patent medicines besides consulting physicians, but obtained
no relief. At last I was persuaded to try the mineral water and used it
in liberal quantities. From the first I felt a decided change for the
better, and now I can say I have entirely recovered. I cannot recom-
mend the mineral water too highly and am pleased to such a magni-
ficent establishment erected for the treatment of cases like mine.
