

WHY THE BISSELL IS BEST

Because the "Bissell" is built for business it lasts for years and gives satisfactory service all the time. It is made strong and durable to stand any strain. Built of iron with solid pressed steel heads well riveted; axle of 3 in. solid steel, frame of hardwood reinforced with double transverse and steel angles make it rigid and strong. Bearings are fitted with large anti-friction rollers which reduce friction to the minimum. The lightest and most efficient roller ever built. Nothing else on wheels of about 15. Free look at it and you will see why the "Bissell" is the best.

STEEL LAND ROLLER

T. E. BISSELL CO. Ltd., Dept. 8, ELDON, ONT.

The SUCCESS MANURE SPREADER

**OLDEST
NICEST WORKING
BEST WORK
LIGHTEST DRAFT
MOST DURABLE**

The "Success" has the largest rear axle and strongest drive-chain of any spreader made. It is the only machine with Beeler freeing device and many other points covered by strong patents. Our catalogue tells all about it and gives much valuable information for farmers. Write for it.

PARIS, ONTARIO.

THE EVAPORATOR CHAMPION

The "Champion" Evaporator has proved its superiority over all others, as demonstrated at the big Exhibitions of Ottawa and Sherbrooke this year, when no less than 21 of the 22 prizes awarded were won by users of the "Champion" Evaporator.
