

War to Peace

Building a NEW Canada

CANADA's farmers can look with pride on their share in the nation's war effort.

But there is still important work for every farmer to do. Canada must be brought forward to a peace basis with all speed. Here are ways in which the farmer can help:

Canada's first need to-day is to create more wealth. The farmer should therefore, in the nation's interests no less than in his own, continue to bend every effort to increase production.

To-day the farmer will quickly secure the help he needs for getting out bigger crops. The Public Employment Offices now being established in cities of 10,000 population, will put him in touch with just the help he needs.

Every farmer can try to give employment to a returned man, or perhaps, in addition, give him practical training and knowledge of farming, so that he will be able to take advantage of the Government's Land Settlement and Loan provisions.

To-day is the time when every farmer can do great public service by creating work—clearing land, building new barns and outhouses, and doing what is necessary for greater production.

The Farmers' Clubs should make a point of giving a royal welcome to every soldier returning to their community.

Farmers' Co-operative Organizations, too, should do their utmost to employ returned soldiers—especially those who have had experience in handling commodities in the Army Service Corps.

A new Canada is being built up—a Canada that must be still bigger in spirit, still more enterprising. This thriving, prosperous Canada can only arise through the vigorous help and intelligent co-operation of every citizen.
