CIDER PRESSES

THE ORIGINAL MT. GILEAD HY-
DRAULIC PRESS produces more cider
from less apples than any other and is a
BIG MONEY MAKER
uses 10 to 40 barrels daily, hand
power. Presses for all pur-
poses, also cider evaporators,
apple-butter cookers, vine-
gar generators, etc. Cata-
logue free. We are manufac-
turers, not jobbers.
HYDRAULIC PRESS MFG. CO.
1001 and 1003 Manufacturers of cider
presses in the world.
10 Lincoln Avenue, Mount Gilead, Ohio

When Writing Mention This Paper.

**How the Frost Fence "Gives" and
"Takes," Like a Spring**

ANY "coilless" Fence is liable to snap in
certain weather conditions.

But the Frost is a coil Fence. In Winter,
when steel Wire contracts, Frost coils "give"
their surplus, instead of snapping like "coil-
less" Fence.

And in Summer, when the Wire expands,
that surplus returns to the Frost coils, instead
of sagging and causing the Fence to lose its
shape.

And no matter how often contraction or
expansion is caused, the Frost Fence always
acts the same, like a Spring.

Merely Excuses

Lots of other Wire Fences have a Tension,
Curve or Kink, as an excuse for "Give" and
"Take." But the number of these "gives"
and "takes" is limited. They cannot keep it
up. It isn't in the Wire or the method to do
so.

Both the Frost Field-Erected and the Frost
Woven Fence have extra provisions for
"Give" and "Take." But no others have it.
You simply cannot find another Fence which
will retain its shape like the Frost.

Please remember that when buying Fence!

Make Our Own Wire

We are the only Fence Makers in Canada
who Make and Galvanize Wire exclusively
for Fence purposes.

Wire, to give satisfactory service in Can-
ada, should be made especially to fight off the
peculiar Canadian climate, which simply
knocks the very life out of most Fences. But
all Wire is not made with Canadian condi-
tions in view.

For that reason we decided to Make and
Galvanize our own Wire. So we built a
Mill for Wire-making, and another for Gal-
vanizing, and installed the most modern
Machinery in use.

Then we obtained the services of one of
the most Expert Wire-Makers in America.
A man with 25 years of Wire-Making experi-
ence back of him.

The new Frost Wire is Annealed so sci-
entifically that it possesses the proper temper
for Canadian conditions.

Every inch is of uniform temper, and
stronger than any other No. 9 Wire. It
will not snap, regardless of the peculiar
Canadian weather variations.

About 75 per cent.
of Wire Fences rust
12 or 15 years sooner
than they should.
This is because they
are Galvanized too
thinly.

When Frost Wire
goes through its
Double Galvanizing
process, the Galvan-
izing not only
"coats" it but goes
deep into it, becom-
ing a part of the
Wire itself.

Frost Galvanizing is doubly thick, yet it
will not scale.

This gives the Frost Fence a life of about
16 to 15 years longer than most Fences. No
peculiar climate can rust the new Frost
Fence.

**"TRUE" COMBINATION
WAGON BOX
AND RACK**

Just what every farmer needs. With the
"TRUE" on his wagon he has a first-class
wagon-box; Hay, Stock, Corn, Wood or Poultry
Rack. Instantly adjusted for any load you want
to carry—the only tools you need are your hands.

No matter in what position you put the wings, it is im-
possible for them to get out of that posi-
tion, but it would take you but an instant
to change them.

We guarantee this article to be made of
nothing but the best of material—Yellow
Pine, Hardwood and Malleable Iron—and
to carry two tons in any position. Made in
14 and 16-ft. lengths and 38, 40 and 42-inch widths.

If you need anything in the line of Planters, Seed-
ers, Garden Drills and Cultivators, Sprayers, etc., write
for our catalogue. We have dealers in your town.

**Well DRILLING &
PROSPECTING MACHINES**
Fastest drillers known. Great money earners!
LOOMIS MACHINE CO., TIFFIN, OHIO.

**Preston Steel Shingles are
safe-locked on all four sides**

TOP LOCK

You can only get the safe-lock
construction in PRESTON Safe-
Lock Shingles.

Look at picture of our side lock.
See how the sides of the shingles hook over each other. This
is on the principle of the sailor's grip. It is utterly impossible
for shingles locked in this way to pull apart. The heavier the
strain the firmer the grip.

The top of a shingle is where the greatest strain falls.
Now look at our top lock. It is twice as strong as our
wonderfully secure side lock. Notice that it consists of
three thicknesses of sheet steel. The top of our shingle
is unaffected by strains due to settling of building or
shrinking of sheeting.

PRESTON Safe-Lock Shingles are proof against rain,
snow, wind, frost and lightning. The only way to get
PRESTON Safe-Lock Shingles off the roof is to remove
the nails one by one and unlock each shingle separately.
When you put PRESTON Shingles on your roof they are
on to stay.

PRESTON Safe-Lock Shingles are the only shingles
made and galvanized according to British Government
Specifications. Shingles galvanized according to these
specifications are good for twice the service of shingles

**PRESTON
SAFE-LOCK
SHINGLES**

galvanized in the ordinary way. They are
also the only shingles with a Free Lightning
Guarantee.

Send today for our free booklet "Truth
About Roofing." We did intend to charge
something for this booklet. But we will send
it free as a reward to all who cut out, fill
in and mail the coupon to us. Do it right
now.
