

The quantity of water discharged every day into the sea by all the rivers of the world has been estimated to be about thirty-six cubic miles.

The serpent moves by elevating the scales on its abdomen, and using them to push the body forward. The windings are always horizontal. Those artists who represent the simiosities as vertical have never observed the animal in motion. It is impossible for it to move in that way.

No Room For Dyspepsia.

Dodd's Dyspepsia Tablets Prevent Its Existence.

Humanity has been afflicted with Dyspepsia, Indigestion and other stomach diseases, since the world began. But until lately, there were no Dodd's Dyspepsia Tablets to cure these complaints.

In years gone by, people had to suffer from Dyspepsia, etc. To-day there is no more need to do so than there is for a millionaire to starve with hunger. Dodd's Dyspepsia Tablets cure Dyspepsia as easily, and almost as quickly as the millionaire's dollars buy his food.

There is nothing boastful in this assertion. Dodd's Dyspepsia Tablets cannot help curing these diseases. They cannot possibly have any other effect, once they are taken into the stomach.

The ingredients of Dodd's Dyspepsia Tablets form the same digestive agent that a healthy, vigorous stomach supplies. Dodd's Dyspepsia Tablets digest the food, in short.

If all the food you eat is thoroughly digested, you cannot possibly be afflicted by Dyspepsia, Indigestion, nor any other stomach disorder. That is plain. Dodd's Dyspepsia Tablets prevent any chance of these diseases returning after the Tablets have once cured them.

The smaller tablets that go with each box of Dodd's Dyspepsia Tablets are the most perfect agent known, for regulating the bowels.

Dodd's Dyspepsia Tablets—each box containing a full double treatment, can be procured at all drug stores, or will be sent to any address, on receipt of the price, 50 cents a box, by the Dodd's Medicine Company, Limited, Toronto, Ont.

Tea, according to Chinese writers, was discovered in the eighth century. The Dutch introduced it into Europe in 1591.

The largest gold coin in the world is the British five-sovereign piece. The smallest is coined in Persia, and is worth a little under two shillings.

A man may be as brilliant, as clever, as strong, and as broad, as you please; and with all this, if he is not good, he may be a paltry fellow; and even the sublime which he seems to reach in his most splendid achievements is only a brilliant sort of badness.—Blackie.
