

## Get My New Portable GRANARY

**SEE** how handy my new granary is. You place four or five of them around your quarter section. This saves time in harvest hauling to stacks."

"Then my granaries come in to hold your grain from each stack. My granary keeps grain clean, dry and unheated. No musty grain, no losses from rats or vermin. When ready haul direct to the elevator from the granaries."

"I make several sizes of this handy granary. You can get 150, 200, 300, 400, 500, 600 and 1000, full measure guaranteed Imperial Bushel sizes (not small U.S. bushels) and you set up any Pedlar Granary in half a day. Remember you can move it easily any time. My Granary saves big money by cutting down teaming and keeping the grain right."

"See how the man at the left can shovel grain in from the threshing machine, if it has no leg-spout to deliver grain direct through the manhole on the roof. The other man is bagging grain. Granaries are had with door-section or plain, as desired. My new Granary is just right for saving cost. It pays for itself in a year. It comes in sections—low freight cost. A boy can set up. Write for my descriptive booklet." 700
