The Very Latest, the Strongest and Most Durable, Practically an INDESTRUCTIBLE CUTTER
ALWAYS LEADING

BROCKVILLE CUTTERS have always been recognized as the most stylish, comfortable and serviceable winter vehicles used in North America. When an improvement of any sort can be affected, it always comes out first on the "BROCKVILLE" line. STEEL FORE DOORS were first used on BROCKVILLE CUTTERS and nothing in its construction ever added so much to the comfort and appearance of the cutter. This Fore-door device is patented and is an exclusive Brockville feature. While leading in every new departure, its substitution of FINE PRESSED STEEL for WOOD bodies makes an entirely new and daring record in carriage building, and the BROCKVILLE CUTTER for 1913 will have

FRESSED STEEL PANEL BODIES, SIDE PANELS, BACKS AND DASHES ALL OF PRESSED STEEL

Cutter Troubles Cured!

Cutters are used in a season often of excessive moisture from melting snow which very quickly finds its way into the wood panels. They have to meet the roughest usage to which a carriage of any kind is subjected and the panels open up very often before being used one season. STEEL PANELS put an end to this, and the sorry spectacle of checked, warped and split panels—mouldings broken or knocked off and having to be tacked on again. THE MOULDING OF THE STEEL PANEL IS A RAISED PART OF THE PANEL ITSELF. There are no defective joints to open up. Corners are covered with angle steel specially rolled for this purpose.

No. 205.—Cutter Frame with Steel-Clad Panel.

Note the neat corner iron-moulding that is put on over the joints.

A Lasting Finish

A better finish is obtained on the steel body than on the wood. The steel panels are treated with a special process which makes the paint adhere tenaciously to the body. Steel does not absorb nor is it affected by the atmosphere. The finish thus obtained is the highest possible in

Beauty and Permanence

The Best Guarantee

that any purchaser can get regarding the quality these cutters possess and the service they will give is the fact that they are sold by The John Deere Plow Co. Ltd., because every Deere Line is a leader. See your nearest John Deere dealer for the very best the world offers in
