Light Four Model 90

## The Thrift Car

A farmer 30 miles from town with an Overland is closer than one 5 miles away who depends entirely upon horses.

Often a repair is suddenly needed when harvesting—with an Overland it is no trick to go to town, get the repair and return to work without losing precious time.

Sixty percent of all the Overland cars sold are bought by farmers. Why?

Because this thrift car combines in a maximum degree *all* of the five essentials necessary for complete satisfaction.
