## CHURCH NOTES

### FOR BUSY MEN

#### ROMAN CATHOLIC

##### A NEW PAPER.

The diocese of Prince Albert is shortly to have a Catholic paper of its own. It will be named the Chronicle and will be published twice weekly at Duck Lake, Sask. The first edition, which will be printed entirely in English with the edition at the latter end of each week will be in French.

Rev. Father Deane will do the editing. They will attend to the managing end of the business. We sincerely wish it success.—Central Catholic Winnipeg.

##### CELESTIAL SPEAKING.

An original specimen of a Western human being asks us in all seriousness, "What is the difference between the Catholic Church and the Protestant Church? Are they not all Christian Churches? Will the answer be not very difficult. The Catholic Church is only one church, and the Protestant churches include a couple of scores. The Catholic Church was founded upon earth. The other churches were founded by different men at different times and by some women in recent times, on the blasphemous assumption that the church Christ founded and permitted to govern with divine light had gone astray. Again, what is the Catholic Church?"

## WOMAN'S SUFFRAGE WILL RECEIVE NEW IMPULSES

Men Who Know Practical Politics Enlist in Mr. O. H. P. Belmont's Crusade—May Form New Political Party.

NEW YORK, Aug. 14.—Men who have been active in practical politics will be prominent figures in the crusade which Mrs. O. H. P. Belmont has arranged in connection with her campaign on behalf of woman suffrage, which she will open at Marble House, the residence at Newport, R. I., to the public for the first time since that splendidly artistic structure was erected a score of years ago.

When Dr. Anna Howard Shaw, president of the National Woman Suffrage Association, lectured in Marble House at four o'clock on the afternoon of August 14 she will be introduced by Patricia Boyle, Mayor of Newport. On August 23, when Professor Charles Zuehlke, of the University of Ontario, delivers the second lecture, he will be presented by Aram J. Pothier, Governor of Rhode Island. The Mayor is a democrat and the Governor a republican. The non-partisan principle of the effort to obtain "votes for women" will not be infringed upon.

On each occasion Mrs. Belmont will make brief, introductory addresses, and during the fall and winter she will take an active part in the speaking campaign that has been projected throughout the city, State and nation.

Wide interest has been aroused by Mrs. Belmont's decision to present the architectural beauties and priceless art treasures of Marble House to public inspection. On each lecture day, during the hour preceding the formal programme, subscribers to the lectures will have opportunity of viewing the lower floor apartments of the house.

Mrs. Belmont contemplates also encouraging American art by giving to the women a chance for study and inspiration. Applications for tickets from many quarters are being received by J. A. MacMahon, at Marble House, to whom all subscriptions should be addressed. The proceeds of the charge of \$5 a ticket for each lecture will go into the fund for the extension of the suffrage crusade.

"We are going to see victory crown this campaign," says Mrs. Belmont yesterday before she departed from Manhattan for her Newport home. "There is no selfishness in woman's demand for the right of suffrage. Our motto is: 'Votes for our country, not for individual glorification.' The campaign is to succeed along practical lines and with that potent motive force

priesthood was a young Zulu, the son of a prominent chief, who is still a pagan. He made a brilliant course in theology, and speaks fluently besides his own language, French, Italian and English, the latter with a pronounced Southern drawl. He will work among his own people in Southern Africa. It is the fourth of his tribe to be ordained to the holy priesthood in the past eleven years. Ordained with him were three Chinamen, who also speak English.

#### A LARGE PARISH

A parish of over 15,000 square miles without a single Catholic Church, has fallen to the lot of a young priest now stationed at Cody, Wyoming. He is forced to say Mass in all kinds of places—in private houses, watch-houses and camps. He has one full set of vestments and an extra one, which he carries on his journeys from place to place.

#### THE ANGLICAN

##### WHAT MIGHT HAVE BEEN.

The Episcopal church in the United States, passed a canon opening their doors to members of other members of other Communion. Referring to this Bishop Morrison, of Iowa, makes the following remarks: "Inasmuch as it was understood that Christians include the ministers of other Christian churches, and that on special occasions they might be asked to make addresses, and probably would be asked, I wish we might have been courteous enough to give the ministers of other churches their acknowledged and proper title. They claim to be ministers of Christ, and we know do not claim to be priests. But they are devoted servants, they are ministers of Christ; they are our brethren and we have no will to forbid them the work of preaching the Gospel, and we have no will to forbid them the Head of the Church acknowledge them by the gifts of grace. I see no difficulty in conferring this and acting accordingly."

#### ANGLO-CATHOLICS IN WALES.

The four Nonconformist churches in Wales have 688,888 communicants, the Anglicans have 149,951. In the Sunday schools the former have 125,525 attendants, the latter have 182,243.

#### BISHOP LEA.

The newly appointed Bishop of Kinshasa, Africa, is the Rev. Arthur Leeson, of Ontario, who is at present on one time rector of St. George's church, New Glasgow, N. S. Accompanied by his wife he will return at once from Japan, where his consecration will take place, which they will return to Japan via Canada.

#### THE PRESBYTERIAN

Another Union. The Northern and Southern Presbyterian Churches of Brazil have united in one General Assembly, and there is a movement on foot to unite the theologists with this body forming the

Christian Church of Brazil, which now numbers 25,000 or 30,000 communicants.

#### EVANGELIST McNEILL.

The Scotch revivalist thinks that much of the preaching of today is "too dainty, too fine, too altogether nice to awaken men to the fact that they are sinners and need to seek salvation."

#### HAVE YOU MET HIM.

"It is poor journalism," says an exchange, "in order to secure circulation in Boonton to announce that Rev. E. Lequent Boo has added three members to his church, the note containing this information having been probably written by Mr. Boo himself."

#### THE METHODISTS

SOME LARGE DONATIONS. Mrs. Norman W. Harris, of Chicago, has donated \$100,000 to the Pension Fund of the Deaconesses of the Methodist Episcopal church, and \$50,000 to the Home and Foreign Missionary Societies.

#### HOME RULE.

Irish Methodists are "agitators" for Home Rule. The Irish Conference, in certain cases, shall be subject to the approval of the English Conference.

#### THE BAPTISTS.

THE HON. JOHN DRYDEN. In the death of this gentleman the Baptist Church has lost one of its most influential members. The Presbyterian speaks of him in his capacity of the Minister of Agriculture, for the province of Ontario, as one who viewed on that subject were appreciated more than those of any other man on either side of the international line. He had a good degree of natural ability and sterling intellectual integrity and was seldom in error. He was chairman of the Board of Governors of McMaster University, and President of the convention of Ontario and Quebec. He leaves a widow, one son and two daughters, the wife of the Rev. Mr. McMaster of this city being one.

#### WHAT NEW YORK OWES TO ACADIA.

The Maritime Baptist while gratefully recognizing Acadia's indebtedness to New York, thinks the latter has made more than square in the able man she sent to fill the pulpit of the great city, among whom are Rev. Dr. Macdonald, A. C. H. Morse, H. M. McMillan, J. A. Maner and Charles Aubrey Eaton.

#### CONGREGATIONALIST

CHURCH METHODS UNDER FIRE. Speaking in the Emanuel Congregational church, Montreal, the other evening, the Rev. Dr. Hooke, of London, England, thus expressed himself: "In their efforts to save men, churches have forgotten to look up to the Master, they are so obsessed by organizations and committees that they have forgotten Him, without Whom

the most elaborate machinery is of no value. Dr. Hooke, who is secretary of the Colonial Missionary Society, is on his way to Winnipeg to attend the meeting of the British Association.

#### PURIFY IN PARLIAMENT.

George Nicholls, an English M. P., says that he is absolutely free from bribery or corruption within these walls, and what is better there is no temptation offered. "I have neither come across nor heard of a single case of an attempt of either a single case of an attempt of either a single case of an attempt to purchase a member's support for a motion or a measure."

#### THE METHODISTS

writes (and speaks) as the "Royal Institution in 1864 (Mr. Buckle). "Here was a man so conscious of his strength that he knew whenever he pleased he could command personal distinction, but he cared more for his subject than for himself."

#### BRIDGE COLLAPSED, KILLING ONE AND INJURING SEVERAL

G. T. P. Trestle Near McIlvay Jct. the Scene of the Tragedy—Was One of the Largest in New Brunswick—Workmen Had Narrow Escape From Death.

FREDRICKTON, Aug. 16.—The span of one of the largest trestles on the New Brunswick section of the Grand Trunk Pacific collapsed on Saturday afternoon with the result that one workman was killed and several others injured. The accident occurred at 2:30 o'clock at the trestle over Mullins Brook four miles west of McIlvay Junction where the G. T. P. crosses the Canadian Eastern division of the Intercolonial.

The dead and injured are: John McMillan, of Cape Breton, instantly killed; John Patterson, engineer, badly bruised. Four workmen injured but not seriously.

The trestle over Mullins Brook comes on a curve and is 1,400 feet long, being about 50 feet high. The fill will contain upwards of 40,000 cubic yards of rock and the cars, filled with rock, were taken out on the trestle by a small locomotive and the rocks then dumped over the trestle. The workmen making this fill had been in progress for some time without accident. Suddenly on Saturday afternoon six or twelve foot spans of the wooden trestle were hurled to the bottom of the gully, a distance of about 50 feet. Six men were down with the cars, the big timbers cracking like pieces of kindling wood.

When the crash happened John Patterson, the engineer in charge of the locomotive, struck his post, not having time enough to jump and with four feet of his body protruding, he was struck with some painful bruises and other injuries, which, however, are not serious.

John McMillan, whose home was at Station Cape Breton, was not so lucky as his fellow workmen, and one of the cars crashed down upon him with fatal results. When the workmen rushed to the assistance of the injured, they found McMillan was dead. Having apparently been instantly killed, the injured were given every possible attention. Physicians and a coroner were summoned. Dr. Wainwright, of St. John's, was called to attend to the injured. The bodies were taken to the hospital at St. John's. The amount that will go to St. John's for the bodies of the two men who were killed is several hundred dollars.

The trestle over the Mullins Brook is a Canadian Grapnel and several other religious and educational institutions. The amount that will go to St. John's for the bodies of the two men who were killed is several hundred dollars.

#### AIRSHIPS TAKE PART IN ARMY MANOEUVERS

Their Adaptability to War Purposes to be Tested by German in Autumn.

BERLIN, Aug. 14.—It is now certain that military airships will take part in the Kaiser's maneuvers to be held in Wurtemberg during the coming autumn. Special transportable balloon sheds have been constructed to house the aerial monsters, and sixty men with five officers are practicing daily on the Tempelhof field in erecting and taking the sheds in place.

A hall in Wurtemberg has already been selected as a station for Gross II, one of the army airships.

The latest acquisition to the fleet of army airships is the new vessel constructed by Count Zeppelin, which was named after the inventor of the military airship. It is an integral part of the German army.

The airship is still at Friedrichshafen and the count has announced his intention of taking it for a trial run to the aerial station at Stuttgart.

The proposed course that the airship will fly is via Ulm, Stuttgart, Heilbronn, Heidelberg, in which latter town it is expected to arrive at midday tomorrow. From Heidelberg the Zeppelin II will probably follow the course of the Neckar river, then proceed via Darmstadt to the destination.

The airship is still at Friedrichshafen and the count has announced his intention of taking it for a trial run to the aerial station at Stuttgart.

#### BEQUEST FOR SISTERS OF CHARITY

BOSTON, Aug. 14.—The filing of the first and final account of Margaret M. Whelan, executrix of the estate left by the late Mrs. Whelan, has disclosed that practically all of the substantial monies will be placed in the hands of the Sisters of Charity of St. Anne's Hospital and several other religious and educational institutions. The amount that will go to St. John's for the bodies of the two men who were killed is several hundred dollars.

#### AGRICULTURE

#### ART OF CANNING

#### VEGETABLES IN

#### THE HOME

#### Complete Success Only Comes Through Absolute Sterilization.

#### GERMS WHICH CAUSE DECAY.

#### (BY J. F. BREEZEALE.)

#### (Continued from last week.)

Having made all preparations for the canning, the next step is to fill the jars with the clean jars ready to receive the vegetables. The jars should be filled with the vegetables, and the tops ready to hermetically seal them. The greater part of the work is done. For the cooking is essential to the success of the canning. However, are not to be treated alike, and this week we give some separate instructions and recipes of each vegetable which if carefully followed will ensure success:

#### STRING BEANS.

Select young and tender beans, string them and break them into short lengths. Pack firmly in the jar, cover with cold water, and add a teaspoon salt to each quart. Put on the top and top and boil for one hour on each of three successive days as directed under "Corn." The jars should be placed in the bottom of the jar, give a delightful flavor to this vegetable.

#### EGG PLANT.

Prepare the egg plant, cut in thin slices and drop in boiling water for five or twenty minutes. Drain off the water and place the slices in the jar, cover with water, and add a teaspoon salt to each quart. Put on the top and top and boil for one hour on each of three successive days as directed under "Corn." The jars should be placed in the bottom of the jar, give a delightful flavor to this vegetable.

#### CUT THE VEGETABLE INTO SMALL BLOCKS

pack in the jars and cover with water. Add a teaspoonful of salt to each quart. The jars should be placed in the bottom of the jar, give a delightful flavor to this vegetable.

#### ENGLISH PEAS.

When prepared and canned in the "proper way," peas are easily kept and never lose the delicate flavor that they possess when fresh. Shell the young peas, pack in jars, and sterilize as directed under "Corn." The jars should be placed in the bottom of the jar, give a delightful flavor to this vegetable.

#### ASPARAGUS.

This vegetable usually keeps very well, but if the supply for the winter is to be large, it is necessary to use care in its preparation. Prepare it as you would for the table, pack in jars, and sterilize.

#### CARROTS AND PARSNIPS.

These, if gathered during the early summer and canned, make most excellent food for the winter. Prepare them as you would for the table, pack in jars, and sterilize.

#### TOMATOES.

Every housewife knows how to can tomatoes. They are very easily kept, even in the common screw top jar. However, if you wish to keep them for a long time, it is necessary to use care in their preparation. Prepare them as you would for the table, pack in jars, and sterilize.

#### KOHL RAB.

This vegetable resembles the turnip in its habit of growth, although in flavor it more nearly approaches the cauliflower. Prepare it as you would for the table, pack in jars, and sterilize.

#### LIMA BEANS.

Lima beans lose their flavor very quickly after being shelled; therefore it is necessary to can them as soon as possible after shelling. Prepare them as you would for the table, pack in jars, and sterilize.

#### PUMPKIN OR WINTER SQUASH.

If provided with a warm, dry cellar, you may keep certain varieties of these vegetables all winter. Some of the best varieties, however, do not keep well, and it is better to can them when they are in season. Prepare them as you would for the table, pack in jars, and sterilize.

#### MONTECATINI.

These are very easily kept, even in the common screw top jar. However, if you wish to keep them for a long time, it is necessary to use care in their preparation. Prepare them as you would for the table, pack in jars, and sterilize.

## The Poudes Woman in all England

She prefers to motor about the country home where 500 servants are employed.

The Duke and Duchess spend a great deal of time upon their vast Scotch estates. All the members of the family are devoted to hunting in various forms, and the Duke is a great sportsman. The Duchess is a great sportswoman. The Duke and Duchess spend a great deal of time upon their vast Scotch estates. All the members of the family are devoted to hunting in various forms, and the Duke is a great sportsman. The Duchess is a great sportswoman.

It is still a strikingly handsome woman. Her jewels are of most fabulous value; in her round crown of brilliant diamonds she wears the largest diamond in the world, said to be worth \$50,000.

One of the pleasing romances of the past was that culminating in the marriage of the Duke and Duchess of Portland. She was standing in a Scotch railway station when the duke first saw her, and like the prince in the fairy tale, promptly fell in love and determined that she should wear the Portland coronet.

It was not the first love affair of the Duke, but it proved the most successful. A young man he was a friend of the then Prince of Wales, and was on cordial terms with all the members of the Royal Family. It is said that he carried in the hand of one of the great princesses and that his suit was
