### HELD SECTION SEVEN DAYS.

Canadian Brigade Put Up Heroic Defente at St. Eloi.

OTTAWA, May 1.—The heroic defence of the St. Eloi positions by one of the Canadian infantry brigades is recorded in the weekly communique of the Canadian general representative at the front. The splendid part played by a Nova Scotia battalion, and many individual instances of galants and conspicuous service are lant and conspicuous service are given in the despatch, which follows: Canadian General Headquarers, May 1.—During the week the main efforts of the enemy on the Canadian front were once again centred on our front were once again centred on our St. Eloi positions. For seven days one of our brigades held this section. It was an eventful experience for the men concerned. On the second night four separate bombing attacks were made by the Germans on advanced posts of a Nova Scotia battalion. In each instance the enemy was repulsed by detachments under Lieuts W A Cameron and L. S. Johnston.

posts of a rova section station. The each instance the enemy was repulsed by detachments under Lieuts. W. A. Cameron and L. S. Johnston.

On the same night another of our posts, under the command of Lieut. G. C. Farrish, was heavily bombarded with grenades. After daylight a German bombing party advanced against this position under cover of intense artillery fire. When well clear of its trenches it was greeted with rapid machine gun and rifle fire and retired hurriedly, leaving a number of dead or wounded on the field. On the next three nights further bombing attacks were delivered by the enemy and beaten off. A party of Germans succeeded in getting into one of the disused trenches on the front of a New Brünswick battalion. A patrol consisting of Lieut. Mowatt and Ptes. Bamsey, Kennedy, and Chatterton, stumbled on the enemy. Private Bamsey, who was leading as guide, was suddenly hit on the head and fell. Almost at the same instant the explosion of a bomb wounded Lieut. Mowatt in both feet, while another bomb hit Private Kennedy in the chest, but fortunately failed to explode. Private Chatterton, who alone of the patrol was unwounded, returned to our lines for help. Sergt. Henderson started out at once with reinforcements, when the enemy retired and our wounded were brought in.

#### REBELLION IS BROKEN.

Authorities Say Work Remains to Be Done in Rural Ireland.

LONDON, May 1.—An official statement issued Sunday night by the Official Press Bureau regarding the situation in Ireland says:

"The general officer commanding-in-chief, the Irish command, has rein-chief, the Irish command, has reported the situation in Dublin much more satisfactory. Throughout the country there was still much more to be done, which would take time, but he hoped that the back of the rebellion had been broken.

lion had been broken.

"Last night messengers were sent out from the rebel leaders in Dublin to the rebel lodies in Galway, Clares Wexford, Louth, and Dublin Counties, ordering them to surrender, and priests and the Royal Irish Constabulary are doing their utmost to disseminate this information.

"As regards the aituation in Dublin, rebels from the areas of Sackville street, the post-office, and the Four Courts are surrendering freely. More incendiary fires took place in Sackville street Saturday night, but the fire brigade is now able to resume work.

"It is further reported that up to the present 707 prisoners have been taken. Included among these is the Countess Markievics.

"The rebels at Enniscorthy are reported to be still in possession of this place, and a mixed column of cavalry, infantry, and artillery, including 4.7 guns, has been sent from Wexford with a view to engaging the rebels. The latest information from Enniscorthy shows that the rebel leader at this place does not believe the rebel leaders' message from Dublin, and has proceeded to that city in a motor car under escort to verify the information. In the meantime a truce

exists.

"A deputation for a similar purpose from the rebels at Ashbourne (County Meath) has also been sent to Dublin. At Galway the rebels are

### TURKS REPULSED.

Advance Guard Defeated by Russian at Diarbekr.

LONDON, May 1.—The Russians, in their advance southwards from Bitlis, after dislodging the Turks from a mountain range, have got close to Diarbekh, but they will probably have to fight another engage-ment with the Turks before they are

The Russian official report, received here from Petrograd Sunday, says that the Russians repulsed near Diarbekh an attack by Turkish ad-

It is believed that the grand duke has full knowledge of the Turkish dispositions, and has made the proper moves to check them. The de-cision will not be known, perhaps, for several days.

Censorship is Task of Vast Magnitude Serious interruption to business and diffculty to citizens chargeable to delay in mails through censor regulations was brought attention of parliament by Mr. F. B.

Premier Borden made a brief statement. The censorship of letters to and from the United States had been inaugurated as the result of secret documents received from the Imperial Government. Sir Wilfrid Laurier had been acquainted with the correspond ence and in view of its character the Canadian government could not reasonably resuse to comply with the suggestion made.

Hon. Mr. Casgrain had made every effort to have censorship carried out in the most effective way. It had proved a task of great magnitude. At the exchange centres of Toronto and Monteral it had been necessary to censor 250,000 letters per day. All letters were censored at exchange centres. None of it was done in small postoffices throughout the country the nethod adopted being similar to that in vogue in Britain. All Ontario mail was censored in Toronto.

As a result of the enormous amoun of mail to been thus handled across and delays had occured, mistakes had sometimes occurred, violation of the most explicit orders. At the same time, the Premier stated that every effort was made to cause the least delay and inconvenience possible.

The Seal's Sense of Smell.

The sense of smell possessed by the seals is very strong and will invariably wake them out of a sound sleep even if you come upon them ever so quietly to the windward, and you will alarm them in this way much more thoroughly, though you be a half mile distant than if you came up carelessly from the leeward and even walked in among them, they seeming to feel that you are not different from one of their own species until they smell you. The chief attraction in these animals is their large, handsome eyes, which indicate great intelligence. They are a deep bluish black, with a soft, glistening appearance, and the pupil, like the cat's, is capable of great dilation and
