### Nerve Disorders of Women

Accompanied by Neuralgia, Irritability Sleeplessness and Depressed Spirits.

Dr. Chase's Nerve Food.

The feminine organism requires an

enormous quantity of blood not only to sustain the network of nerves which are found in the womanly system, but also to make good the periodical loss which so weakens the Consequently it happens that just as soon as the blood gets weak and

watery or is deficient in quantity

the nervous system suffers, and in woman the effects are most severely felt in the form of irregularities and weaknesses of the feminine system. At the beginning of womanhood, at child birth, during the nursing periods and at the change of life, calls are made for an extra supply of blood, and as a result nervous disorders are exceedingly common at these times, and the health and happiness of the remainder of life may depend on the care of the system. Because Dr. Chase's Nerve Food actually forms new blood and creates new nerve force, it is the most effective preparation ever used by women to build up the system and

restore vigor and strength to the body, Mrs. N. B. Ebere, Fourth street, Chatham, Ont., and whose husband is employed with the Wm. Gray & Sons Co., carriage manufacturers, states,-"My nervous system was all out of order, I did not rest or sleep well and suffered a great deal with nervous headache. Since using Dr. Chase's Nerve Food my nerves have been strengthened, the headaches have disappeared, I am refreshed by sleep, something that was quite im-possible before I used this treat-ment. I can, with all confidence, rething that was quite imcommend Dr. Chase's Nerve Food as

a splendid restorative." Dr. Chase's Nerve Food, 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.
