

SANITAS TOASTED CORN FLAKES

agree perfectly with the most delicate stomach. Tell your grocer to send you a box to-day and try it for yourself.

DISTRICT

S. S. NO. 9, CHATHAM

The following report of S. S. No. 9, Chatham Township, is based on the results of examinations, departmental and promotional, held June 26, 27 and 28:

Entrance Class—A. Neaves, R. McKim, M. Harvey, E. Irwin, G. Wickens, H. Wilson.
Jr. IV—C. Frye, M. Wells, I. Shaw, D. Hall, A. Wells.
Sr. III to Jr. IV—I. Conliffe, I. Hood, M. Glassford, V. George, B. Vance.
Jr. III to Sr. III—B. Burns, L. Burns, L. Wilcox, R. Reid, L. Wilcox, J. Glasgow, E. Sutor, J. Hall, C. Sudds, L. Wilson, M. Wilcox.
Carrie L. Burns, Teacher.

HIGHGATE.

Threshing is the order of the day among the farmers now. Mr. J. Frank Stone, Mrs. A. J. Stone and Mrs. Leslie McLaren attended the funeral of the late Douglas Ruthven at Dutton last Tuesday.

Quite a number from here went to Detroit on Saturday, taking advantage of the excursion rates on the P. M. Railroad.

In the absence of the pastor, Rev. Mr. Long, Mr. Wm. Ryebriff took the morning service at the Methodist church, and Rev. C. Oreston in the evening.

Our Public school opened for the Fall term this morning.

Four out of six who wrote on the junior teachers' examination from this school were successful. Earl Erwin and Bea Scott, honors, and Lizzie Cameron and Harold Ryebriff, passed.

You May Need It

Ask your doctor about the wisdom of your keeping Ayer's Cherry Fectoral in the house ready for colds, coughs, croup, bronchitis. If he says it's all right, then get a bottle of it at once. Why not show a little foresight in such matters? Early treatment, early cure.

We have no secret! We publish the formulae of all our preparations.

J. C. Ayer & Co., Lowell, Mass.

DISTRICT

KENT BRIDGE.

Misses Fernie Arnold and Emma Lee, of Chatham, spent Monday with the former's grandparents here.

Miss Scurrell returned to Florence Thursday.

The instruments for the Kent Bridge band came last week. The boys expect to become proficient players under the leadership of Dr. DeGow.

Mrs. Wm. Gray, of Toronto, left Saturday for western points.

Mr. Henry Duffus, of Chatham, was in the village Friday.

Mrs. Riggs, of Essex, returned to her home last Saturday.

The Mission Band held a very successful social on Mr. Ed. Worth's lawn Friday evening. Ice cream and

cake was served and a neat sum realized.

Miss Lill Gregory is spending a few days in Chatham this week.

Misses Kate Hughes and Mabel Allison are holidaying in Detroit for a couple of weeks.

Mrs. Klaus and daughters, who have been guests of her sister, Mrs. Barclay, returned home Saturday.

School re-opened Monday with Mr. Dodson as teacher.

Mrs. Leech and children, of Glencoe, are guests of Mrs. Hughes this week.

Miss Edith Brewer, accompanied by Miss Hattie Brewer, has returned to Sarnia.

The funeral of the late Archie Murphy was conducted Monday by Rev. John L. McInnis, of Thamesville, in the absence of Rev. A. W. Hare, the regular pastor.

Mr. Jack Harrington, of Chatham, spent Tuesday in the village.

To Keep Lemons Fresh.

It is said that lemons will keep fresh for weeks if placed in a bag of cornmeal or kept in cold water, changing it once a week.

Candles burn better and more slowly if they have been stored in a dry place six or seven weeks before they are used.

If a glass is desired on linen, add a teaspoonful of salt to the starch when making.

TO CLEAN LACE AND CHIFFON

Souse the Lace in a Bowl Half Filled With Gasoline.

The best method for cleaning lace at home is with gasoline. Souse the lace up and down in a bowl half filled with gasoline to remove the first and worst grime; have a second bowl ready and immediately rinse the lace in fresh gasoline. Then, before it has time to dry, wrap it carefully about some round object like a rolling pin or the roller used for the kitchen towel. The longer the roller the better. The points of the lace must be carefully picked and fastened down with pins.

The run of the chiffon veil and scarf adds another item to the summer girl's cleaning bill. For ordinary dust and dinginess use fuller's earth, rubbing the powder in with the hands and patting the folds of chiffon together between the hands as a laundress does clear starching. If the scarf or veil has been spotted in the rain, it can be washed in gasoline. For this use some receptacle with a tight fitting lid, such as a glass jar and tin milk shaker or even a tin pail. Have this half full of gasoline, drop in your veil or scarf and shake it rapidly. Pour out the dirty gasoline, rinse in fresh, and, holding the veil or scarf lightly between your thumbs or fingers, shake it in a breeze until perfectly dry.

Remember that gasoline is highly inflammable, so do the work in daylight for fear of accident.

White chiffon veils, if of good quality and the mesh is unimpaired, can be made to do duty again and again if they are dyed. The process is very simple. Directions are printed on the little packages for home dyeing to be found in any chemist's shop. The dyes are prepared for silks and woolsens, and the directions differ slightly. That meant for silk would be better for chiffon. Good quality white chiffon takes exquisite shades of blue, pink or lavender. A good black is more difficult to obtain for any material, and the novice should keep to light colors. Lace also may be satisfactorily dyed at home. Tea or coffee will give many beautiful shades from ecru to brown, according to the strength of the infusion and the number of times the lace is dipped. It should be dried after each dipping.

AN OLD RECIPE.

How the Housekeepers of 1754 Made Currant Jelly.

Young housewives, listen and receive. What goodly hints the muse will give; It matters not which fits, to tell ye. Suppose it is her who best loves jelly—Of currants read the better sort, Well picked four pounds, of white a quart.

A quart of ale, moreover, madams. The better sort, we think, is Adam's; Four pounds of sugar, good as any, (A. S.) of sugar seven-penny.

Then mix, and boil in pan of copper Till currants shrunk proclaim it proper To have recourse to famous sieve; Or tam'd Hippocrates the sieve.

That done—let pan refilled shine, Be the boiling juice from scum refine, And when the weaker parts are flown, When none remain but what is 'mown.

In words more plain—when jelly's done; With curious finger, light as vapour, Sweep o'er its surface, writing paper; Be pots well dried, in order next, Fit to receive the glistening sweet; And to preserve it—this the way, Wet paper dry'd on surface lay.

On that extend another cover, Of what you please, ty'd tightly, over—And on't let this inscription tell ye, The very best red currant jelly.

NEEDLEWORK NOTES.

The girl who can sketch in colors can make an attractive screen by covering the frame with green denim and suggesting an impressionist landscape, letting the denim itself constitute the necessary green tones.

The best method of putting on fasteners is to sew them strongly to a stout piece of silk tape, hemming these strips of tape closely to opening after the pressing is done. The fasteners are apt to make shiny places when pressing is done after they are in place.

To finish the edges of dollies or other buttonhole edges cut the goods a little distance from the line where the buttonhole is to go and hem it back to that line. Then buttonhole the folded edge. This prevents the frayed looking edge so often seen after washing and gives it a padded appearance.

Prevent Moths.

Get a large dry goods box. Make cover of top by putting on hinges and line with heavy carpet or tar paper. Tack paper so that there will be no chance for moths to get in, lining lid also. Pack away winter clothing with plenty of moth balls and newspapers. Set box on bricks or pieces of wood to raise it from floor. It will not get musty if left in basement or attic, and you will have no trouble with moths or dust. In winter it can be used to pack away the summer clothing.

To Clean a Silver Teapot.

Twice a week, after using, fill the pot with hot soda water and let it stand for a couple of hours and then rinse in plenty of warm water. When the teapot is cleaned outside with plate powder, it should also be polished inside and well rinsed before using. Any silver teapot which is not constantly soaked this will acquire a sediment on the inside from the tea which is most unwholesome.

Did You Ever?

If you'd thread the lace on embroidered beading quickly after it comes from the laundry tack a narrow tape to the ribbon before it is drawn out and then pull the ribbon out and the tape in. When the garment returns from the laundry, tack the ribbon to the tape and pull it in as the tape goes out.

LITTLE POCKET PHYSICIAN

Hyomei is Guaranteed by C. H. Gunn & Co. To Cure Catarrh.

Thousands who have been cured by Hyomei call the inhaler that comes with every outfit the "Little Pocket Physician," as it is so small that it can be carried in the pocket or purse.

There is really no excuse whatever for anyone having catarrh now that Hyomei is so readily obtainable. If you have any doubt about its value, C. H. Gunn & Co. will let you have a complete outfit, with the understanding that unless it cures catarrh, it will not cost you a cent.

Do not delay longer the use of Hyomei if you suffer with catarrh. This is a purely local disease, and Hyomei goes right to the spot where the catarrh germs are present, destroys them, soothes and heals all inflammation and makes a permanent and lasting cure.

The complete Hyomei outfit consists of the "Little Pocket Physician" and a box of Hyomei, and costs only \$1.00, making it the most economical as well as the only guaranteed treatment for the cure of catarrh. Remember that Hyomei cures catarrh without stomach dosing, applying the medication and healing where the disease germs are present.

WOMEN DEFEATED AGAIN.

New Zealand Council Throws Out Bill For Upper House.

Wellington, N. Z., Aug. 21.—The women politicians whose cause was championed by the House of Representatives of New Zealand received scant consideration from the Legislative Council, which yesterday, without a division, rejected the bill providing for the election of an Upper House by the House of Representatives. According to one of the clauses women electors were to be eligible as members of the Upper House.

The Legislative Council of New Zealand, or Upper House of the General Assembly, now consists of forty-four appointed members, some of whom are life members. The House of Representatives or Lower House is composed of eighty members, elected by the people for terms of three years.

GET A GOOD START

Right now is the best time to start taking something to get your Kidneys and System in shape to withstand the sudden changes of Fall and Winter, which bring on Rheumatism and other Kidney disorders.

Bu-Ju

is the remedy to take. "Bu-Ju" is guaranteed to give you money back if it fails. 50c at Drug Store or by Mail. 89 The CLAFIN CHEMICAL CO. LIMITED, WINDSOR, ONT.

London Has Second Bishop.

"Prof." Grossi, an Italian who has created something of a sensation in India and South Africa, and who gave a private demonstration of experiments in telepathy and auto-suggestion at the Savoy hotel recently, describes himself as "The Marve."

The dramatic feature of the entertainment was an effective "robbery and murder." Mr. Pruger, manager of the Savoy, was "robbed" of valuable by a hitherto respectable person, who proceeded to "murder" another gentleman with four of the best Savoy table knives.

The "professor" entered the room blindfolded, followed by a witness of the tragedy, and at once pounced on the "murderer," discovered the "victim" behind a curtain, and quickly transferred the body from the "thief's" pocket to Mr. Pruger's.

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of *Dr. J. C. Watson*

Summer Needlework.

For those who do not "bridge," a piece of embroidery will help to while away odd moments on the club or hotel piazza during the summer days. Let this be a source for a fine cambric petticoat. Scallop the edge or work about it some pretty zig-zag or conventional wreath or bow-knot. The work grows rapidly, and the result is sure to be satisfactory. If not a beautiful specimen of hand work there is the knowledge that it will not be too closely viewed. An effective pattern should be chosen. Vogue.

Simple Insecticide.

Hot alum water is the best insect destroyer known. Put the alum into hot water, let it boil until it is all dissolved and apply with a brush to all cracks in beds or other places where any insects are found. Ants, bedbugs, cockroaches, etc., are killed by it, while it has no danger of poisoning the family or injuring any property.

OPPOSE BOTHA'S PRESENT.

Purchase of Cullinane Gem Not Oppertune—Transvaal Loan Bill.

London, Aug. 21.—The plan of Premier Botha of the Transvaal to present the Cullinane diamond to King Edward means with much criticism both in England and the Transvaal.

The finances of the colony are in bad condition, and many persons think that the expense of purchase (\$100,000), is unnecessary. Moreover, the magnates of the Premier Diamond Mining Co. have found the Cullinane diamond to be a white elephant. There is no market for such huge stones. The Premier people are political supporters of Gen. Botha's party and critics say that if the stone belonged to the De Beers Co., which is an opponent of Gen. Botha, there would have been no thought of presenting the diamond to the King, adding that the Botha party wants to use the credit for a petiole act, while putting money from the treasury in the pockets of their friends at a time when the colony can ill afford such luxuries.

Mr. Asquith, replying in the House of Commons to the allegation that the Transvaal loan bill is an inviolable form of colonial preference, said no communication had reached the Government from any responsible statesman through the Empire in protest, or even criticism, of the loan.

The truth was, the self-governing colonies regarded the matter strictly from the point of view of a Government guarantee.

The loan was inevitable through unforeseen consequences of the war, wherein they played so conspicuous and honorable a part, and as a necessary incident of the completion of the settlement, which settlement, as all know from the language of Sir Wilfrid Laurier had been ratified by practically the unanimous sentiment of the self-governing colonies of the Empire. The second reading of the bill carried by a majority of 137.

BORDEN BEGINS TOUR.

Public Ownership Forms Big Part of Party Program.

Halifax, Aug. 21.—R. L. Borden, K. C., M. P., last night began his continental tour at a largely attended meeting held under the auspices of the local Conservative associations. Mr. Borden was given a gratifying reception.

As befitting the occasion, the leader of the Conservative party announced the policy which would be followed in the next election campaign.

It was noticed and remarked upon that public ownership forms a big part of the party program.

C. P. R. Operators May Strike. Montreal, Aug. 21.—It looks as if the C. P. R. operators would go out to-day. They had an interview yesterday with Vice-President McNeil.

It is understood that the men will see Sir Thomas Shaughnessy this morning and failing to come to a satisfactory agreement they will stop work this afternoon.

New York, Aug. 21.—Officials of the two big telegraph companies stated yesterday that business is moving normally and that, as far as they are concerned, the strike is over. The strikers deny this statement. Harry Behnken, an operator, became insane in the Western Union operation; rooms, yesterday from overwork and was removed to Bellevue Hospital.

Farmer's Wife Murdered. Camden, N. J., Aug. 21.—While Edward Horner, a farmer, was trying early yesterday to extinguish a fire thought to have been kindled in his barn for the apparent purpose of drawing him from his home, at Merchantville, a few miles from this city, an Italian servant, who probably went to the rescue of her mistress, the servant died a short time later in a hospital in this city.

A negro named Charles Gibson was arrested on suspicion. He had two pawn tickets for watches, which, when located, were found to bear the name of "Horner."

Mysterious Death. St. Catharines, Aug. 21.—A boy of about 17, who gave his name as Lavern Adams, charged with stealing a horse and buggy from A. H. Pettit, fruit grower, of Winona. He stole the horse one night last week, and drove it so hard that it fell dead at Athercliff. Then he sold the buggy and harness for \$21, and proceeded to this city on foot.

Explosion Kills One Hundred. Berlin, Aug. 21.—The directors of the Shantung Mining Co. yesterday received a cable message from Tientsin, announcing that an explosion of dynamite had occurred underground in the Fantagie Mine, killing two Germans and 110 Chinamen.

Small Wreck at Guelph. Guelph, Aug. 21.—A collision on the Grand Trunk at Guelph Junction yesterday evening resulted in a refrigerator car being smashed by the engine on the passenger train from Sarnia to Toronto. No one was injured.

Circus Employee Killed. Brockville, Aug. 21.—John Metcalfe, a Grand Trunk brakeman, had his leg cut off by his train yesterday morning.

Brakeman Loses Leg. St. Catharines, Aug. 21.—John Metcalfe, a Grand Trunk brakeman, had his leg cut off by his train yesterday morning.

Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John T. Pierce, of the Editorial Staff of The Eclectic Medical Review says of Unicorn root (Helonias Divina) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterus invigorator & makes for normal activity of the entire reproductive system." He continues "In Helonias we have a medicine which more fully answers the above purposes than any other drug with which I am acquainted. (this blood) has the tendency to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. T. Pierce further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhoea; stonic (weak) condition of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weak condition of the reproductive system; amenorrhoea (suppression) or absent monthly periods, failing from or accompanying an abnormal condition of the digestive organs; and, finally, (this blood) has the tendency to women it is seldom that a case is seen which does not present some indication for this remedial agent."

"If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which is most faithfully represented."

"It is an important remedy in disorders of the womb. In all catarrhal conditions, and general enervation, it is useful."

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions, and general enervation, it is useful."

"In relation to its general effects on the system, it is now known to be one of the most valuable general tonics of modern times. It is uniformly regarded as the tonic useful in all debilitated states."

Prof. R. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding), and congestive dysmenorrhoea (painful menstruation)."

"Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended."

The Thoughtless Majority. "Many men, many minds," is a saying all recall. Yet how often now one finds Many with no minds at all. —Philadelphia Press.
