LESS "BOOZE"; MORE AUTOS

Coincident with the recent increase in the expenditures of national income for automobiles, there has been tremen dous release of expenditures from drink In 1911 when there were only 199,500 passenger cars produced, there were 2,170,000,000 gallons of wines and liquors med in the United States. In 1920 when there were 1,883,000 passenger car produced, there were only 326,000,000 gallons of wines and liquors consumed Car production increased in the ratio of 9.1-2 to one; liquor consumption decreas-ed in the ratio of 6.1-2 to one.

Many a man who once drank more than the full price of a medium priced car each year can now apply those funds to the purchase of a car and its cost of operation

In 1918 the wholesale value of pa ger cars produced was about \$800,000, 000; in that year the total revenue taxes collected on booze amounted to \$444,000,-000 and, of course, the expenditures of dipleare area and the second sec drinkers were far above the sum. In and the wholesale value of passenger cars produced was over a billion dollars, and the booze tax bill less than \$100,000. 000

If prohibition has done nothing else for the folk in the United States, it has at least released funds in many a family budget for paying off automobile installments and gasoline bills, instead of liquor tribute and "gold cure" bills. Forbes Magazine.

TWO SILVER KEYS

In the castle of Smiles there are two closed doors, Behind which, waiting there.

Are beautiful gifts for every child, Useful, lovely, and fair.

But the two closed doors are locked quite tight, Each with a silver key,

As each little lad and each little lass Can very plainly see.

And no matter how hard they tug and pull,

The doors will not unclose Without the two little silver keys, As every good child knows.

So if these beautiful gifts you wish, You must carry the silve keys That unlo k the doors to the castle of

NOVA SCOTIA SCHOOL BOOKS

A writer in a Halifax paper says: The rising generation of Nova Scotia going regularit to school, in many in-stances provided with necessaries by ceaseless struggle and self-sacrifice of parents who are under pain of heavy our present methods of taxation as veza

fines for neglect, is likely to emerge from tious and prejudicial to business, the "halls of learning" with some this he is correct. We have, as a m the "halls of learning" with some this he is correct. We have, as a matter very remarkable ideas and archate know-of fact, no definite, scientific method of taxino at all. The war developed a sudden and enormous demand for money, text books, n the purchase of which the avery send that and the source that archate the sudden and enormous demand for money.

text books, n the purchase of wh ch the unfortunate parents are forced to sink a considerable portion of their hard earned apital, are curiosities. The Geography in the in the public schools of the province, for example, before the young and plastic mind, methods. But the Dominion taxation methods are still a before-noder of incom-

puts before the young and plastic mind, pictures and information concerning the world in general and the Dominion of sistency, unnecessary inconvenience Canada in particular not as they exist today, but as they possibly existed in the early history of the country. The city of Winnipeg is shown as a little prairie town of shacks and plank sidewalks. In not a single instance does any vehicle The tariff needs adjustment. The in ss and the country generally

more uptodate than a horsedrawn tram-way car appear on the streets of any city pictured in the book. In the information come tax is right in princ ple but ner simplification. It should not be ma to hamper industry and should be given regarding Cape Breton there is no applied only to the part of the inco mention of the great industrial enterthat actually reaches the pocket of th and steel works. But there is an illustrate are not yet upon a sound basis and the tion of the Bras d'Or Lakes picturesque-ly dotted with Indian tepees. These are only a few items of the wonderful conannoying and picayune stamp taxes ought to be abolished entirely. The whole field of taxation ought to

ncome taxes one to the Dominion, the In a speech at Wingham, Ont., Mr.

Nova Scotia the rapacity of the local I government reaches the climax. sorts of bothersome taxes are imposed on the people, and the perquisites of the municipalities are filehed from them in a shameful manner.

The Dominion government might well appoint a parliamentary committee to survey the whole field of possible taxation and then recommend to parliament some well thought out scheme for th collection of 'necessary revenues.
