"Everything set for a good trip—the car running smooth as velvet—plenty of Imperial Polarine in the crank case and more available wherever we stop. With Imperial Premier Gasoline for fuel, we'll have a most enjoyable vacation."

Imperial Polarine Available Everywhere

WHEREVER you tour, throughout the length and breadth of Canada, you can secure the grade of Imperial Polarine you now use for lubrication—exactly the same uniform grades are sold by dealers everywhere from Halifax to Vancouver.

Imperial Polarine reduces your greatest expense—depreciation—yet costs less than storage, tires, repairs or gasoline. It reduces friction to a minimum, maintains a piston-tight seal under heaviest engine heat, helps the engine extract the last ounce of power out of gasoline.

Imperial Polarine holds its body, maintains compression—keeps the motor running smoothly and quietly. The Imperial Chart of Recommendations shows the grade recommended for your car. Ask to see it when you stop for oil.

Imperial Polarine is sold by good dealers everywhere in sealed one-gallon and four-gallon cans, half-barrels and barrels, also in 12½-gallon steel kegs, the handy size for the home garage. Buy the larger sizes to save money.

Thus far while there has been some hail in Alberta the total losses from that cause have been very light. The season is not yet very far advanced and there is danger of heavy loss to come, but it is hoped we have seen the worst of our hail weather for this season. We can not afford heavy hail losses this year.

Saskatchewan is reported to have lost not less than 50,000,000 bushels of crop this season through drought. Last year Alberta was the chief sufferer from this cause. It is an odd year when the vast expanse of Agricultural land in Western Canada is entirely blessed.

VISIT THE LAND OF THE MIDNIGHT SUN

From Vancouver to Skagway, Alaska, is a thousand miles through the entrancing inland channel widening between islands and the mainland as through a fairyland. The journey is made on the palatial yacht-like "Princess" steamers of the Canadian Pacific Railway.

Scarcely has one left Vancouver than there dawns the feeling that a new life is opening out. Nowhere is the scene the same barely even similar, though everywhere it is composed of mountains rising abruptly from the sea. The observant has a view of two totem poles at Alert Bay, the first port of call, and has an opportunity of examining them at close range, in all their weirdness of design.

This trip to Alaska makes an excellent 10-day side trip in connection with the summer Tourist fares which are now on sale to Vancouver, Victoria, Seattle and other Pacific Coast points.

The Canadian Pacific have issued some very beautiful pamphlets describing these trips, which may be had on application to any Canadian Pacific Agent.

A motorist touring in a western state got stalled in a tenacious mudhole. While making a vain attempt to escape, a boy appeared with a team of horses.

"Haul you out, mister?"

"How much do you want?"

"Three dollars."

After a long and fruitless argument the motorist was pulled to dry land.

After handing over the money the motorist said:

"Do you haul many cars out in a day?"

"I have pulled out twelve today."

"Do you work nights too?"

"Yes, at night I haul the water for the mudhole."

The date for the Cardston and District first annual School Fair is Wednesday, Sept. 8th. The lists have been issued and offer competition in Garden Products, Grain, Livestock, Nature Study, Manual Training, Art, Writing, Domestic Science, and Athletics. The citizens of the district should keep this date open and make a big effort to take the fair in. There will be many attractions and the best fair in Southern Alberta is looked for.
