Correspondence.

North Esk, 23 Jan., 1880.

In looking over your valuable atmosphere which seems to pervade journal this week, I notice that small bass are still taken here, by poachers the Legislative Chambers when the and perhaps honest fishermen. This cold weather ceases, and we have no will exist as long as the present system of appointing Wardens for political purposes is recognized. Abolish that system and give the control to one re- speak only when it is necessarysponsible head, and then when a guard when they can do so with benefit to s appointed by this head, if the duty their constituents and the Province, is not performed he knows his fate, until this system is introduced, protection to the young bass is impossible. Another vexed question ought to be cure an attentive hearing. With resettled which is this,-the extension ference to the approaching session of time to 17th March. Long nights we shall have something more to say of toil in midwinter without results next week. for the poor fishermen who are honest, ought to be rewarded with this extension for all time to come, and I firmly believe if this were allowed there would be less poaching in our bass
