

THE HAMILTON TIMES

THURSDAY, APRIL 15, 1909.

COATS OFF, NOW!

The Greater Hamilton's Business Men's Association, the organization of which was completed last night, has in it the promise of much good to the city.

Important to the success of the association's work in advancing the interests of a city like ours is a well managed campaign of publicity.

What is now required is, not only that every member of the association should work as if its success depended upon him, but that every citizen, whether he be engaged in a professional, commercial or manufacturing capacity—

WHO PAYS THE TAX?

In the discussion of the Payne tariff bill there have been some fearful and wonderful "political economy" talkers by the advocates of enriching people by taxing their purchases.

Brazil imposes a coffee import tax. It must be paid by the exporter. He, of course, adds it to the price of the coffee, and in the ultimate the consumer who purchases it pays it, along with all other charges and profits.

We have just seen that we were paying that export duty toward the support of the Brazilian Government through the price paid by our consumers, but it seems now that the little joker is not under that thumb.

Beats the performance of the fair-ground thimble-rigger out of sight! As our contemporary remarks, when there is no United States import tax, the United States consumer pays the Brazilian export tax.

But still there are some who fail to see the thing in that light. Somebody pays—and pays both duties. That somebody is the consumer.

ON SLANDER BENT.

The Opposition in the Commons last night indicated the purpose of the recent Hazon commission report reflecting upon Hon. Mr. Pugsley by beginning an attack upon that gentleman on the floor of the House.

Dr. Daniel, however, did not seem willing to accept these conditions. He declined absolutely to make a charge, and his party went on record admitting that there was nothing in the document, introduced with so much theatrical flourish, that reflected upon the Minister of Public Works.

In the course of the discussion Dr. Daniel made the statement that he was reading from the original affidavit. Hon. R. F. Sutherland, the former Speaker, pointed out that the original affidavit clearly made a charge against Hon. Mr. Pugsley; but now the date was changed from 1907 to 1905, to a time when Dr. Pugsley was not a member of the House.

LIBERTY UNVALUED.

Within a very short period the Canadian public has made great departures from the basic principles which reason and experience have proved to be the sheet anchors of a free society which looks to permanency and justice, and has taken vast strides in the direction of a socialistic tyranny greater than that of the most arbitrary despot.

Goldwin Smith calls attention to the rapidity with which we are succumbing to this form of tyranny when he says: "The principles of confiscation and denial of justice practically proclaimed by the Provincial Government and Legislature in their effect. We have now in a leading newspaper an editorial article proclaiming that a man has no right to any property beyond his lifetime, and that all he leaves and bequeaths ought to go to the State."

EDITORIAL NOTES.

Well, does that broker's failure take any of your hard earned wealth, or deprive you of prospective profits?

A company has been incorporated to promote travel by airship across the Atlantic. How many of the promoters will be in the rush for tickets for the first "flight"?

Perhaps Hon. Dr. Pyne might patch up his Education Department so as to "improve" it some more by adding two or three additional "expert heads." Ask the High School teachers.

Past Conservative Governments acted very foolishly at times, no doubt.—Spectator.

That approaches blasphemy. But, of course, it assumes that present and future Tory politicians are incapable of such weakness or error.

The uprising in Constantinople appears to have spent itself in 48 hours of disorder, during which the mutineers held the city at their mercy. It is now said to have been inspired largely by Mohammedan Hadjis and priests.

And to think that neither the people of the United Kingdom nor of Canada had the slightest suspicion that it was Col. Denison, almost entirely by his unaided personal efforts, who saved Canada to the Empire—may, saved the Empire itself from going to everlasting smash—until he modestly imparted the information himself to an astonished and adoring public!

But the public would hardly thank Mayor McLaren or anyone else for any action calculated to destroy the Art School and deprive Hamilton of its advantages. Should the effort to kill the school succeed our people may have reason to regret driving another educational institution to Toronto.

So Borden is to call "a party caucus" to determine what shall be the Tory attitude toward Hon. Mr. Pugsley's funny, isn't it? Of course the attitude will be one of unwavering hostility. But why, if the Tory Provincial Government of New Brunswick has so strong a case against Pugsley as the organs allege, does it not institute criminal proceedings against him, instead of calling names and using hard language?

If Col. Denison takes his own statements in his recent book seriously, he ought to order a wide nickel-plated halo and a bronze statue of himself to commemorate his self-sacrificing heroism which saved Canada from being snuffed out, and warded off grave peril to the Empire—a service that an ungrateful people have failed to recognize, much less to reward. Surely it should at least be enacted that henceforth whenever his name is mentioned, heads should be bowed, and that when it is printed special type should be used! But perhaps the colonel sees the joke himself.

Hon. Mr. Pugsley has decided to do nothing unless circumstances force him to in respect of that Royal Commission report. Is anyone surprised?—Spectator.

Not likely—unless it may be the party slander managers who hoped to profit by that report, while refraining from following it up with a criminal prosecution, as they are in duty bound to do, if it is an honest report. Their duty is to "force" Pugsley; and if they do not do so, but instead resort to wordy attacks in the House and press, the public will be justified in suspecting them of playing a very dirty kind of "politics."

Hon. Dr. Pyne is still talking about federal aid for technical education. We would have no objection to the Minister would only give us some evidence of his intention to do some real work for the same cause, regardless of what the federal Government may or may not do.—Spectator.

From the squandering of millions that is going on by the Ontario Government, one would hardly deduce the idea that the Province is so near bankruptcy that Whitney could not afford to do his duty in the matter of education, but must needs apply to the Dominion.

The Ontario Educational Association disposed of the question of military drill in Public Schools by giving it the sixth month's hoist. This was not done, however, until it was made manifest that there is a very strong body of opinion opposed to compulsory military drill of the school children.

details of the various courses prescribed. In the discussion of the resolution some vigorous statements were made which must have led Hon. Dr. Pyne to doubt even his own assumed infallibility.

CUR EXCHANGES A PROTECTION. (Toronto News.) Air ships should be a great protection against earthquakes.

OR HAMILTON! (Galt Reformer.) What have you done towards making Galt grow greater?

LONDON WANTS ONE. (London Free Press.) Hamilton is to have a union station. London will never be satisfied with less.

GOT USED TO THEM. (Toronto Star.) After one gets accustomed to the new hats they do not look so bad on the pretty girls.

DISHONOR. (Kingston Whig.) The main thing, in the Cobalt Lake deal, is that the Province made a million dollars. There is such a thing as success without honor.

HAD TO TAKE IT. (Toronto Telegram.) And William Mackenzie tried to escape the acceptance of that £200,000-acre subsidy, but Sir James Whitney forced it on him, begosh.

ARBOR DAY. (Stratford Beacon.) Noticing in American exchanges that Friday, April 30, is Arbor Day in the United States, or in some of them, is a reminder that the first Friday in May, which this year will fall on the 7th, is Arbor Day in Ontario.

DAN REED. (Toronto World.) D. Reed, South Wentworth, has surprised everyone by the vigor and independence of his criticism. Of the old members of the Opposition, he seemed specially to realize his responsibility, and, though fettered by party conceptions, and particularly by that of the virtue of mere opposition, he made the most of small opportunities.

GRAND OPERA. To the Editor of the Times: Sir,—With reference to "William Tell" letter of Saturday last, your correspondent writes a good letter in favor of better operative productions in this city. One or two points, however, I would like to add my comments on. He said, "It did not always do to tamely tolerate," thereby implying that grand opera is a tedious operation. This seems to be the opinion of many of our theatre-goers.

It will, as "William Tell" points out, be a great thing for Hamilton if these operatic periods are established. With regard to the already announced return of the Royal Italian Grand Opera Company, I am glad to see that such an interest is being taken in its return. This goes to show in itself that our citizens are not without operatic taste, and it is pleasant to hope that in future we may be enabled to see and hear operas, highly beneficial musically and morally. Enormous capital has been expended, as "William Tell" says, in trumpet shells, and it is only to be hoped that this money will in the future be spent more to educate, cultivate and elevate the people by first-class operatic productions, instead of demoralizing them by the sale of low quality goods.

FRIDAY HOUR SALES. Many Wonderful Offerings Tomorrow at Right House.

To-morrow will be bargain day again at the Right House. Six great hour sales will at once command your attention. These hour sales are most extraordinary events. Hundreds of people attend and profit by the wonderful underpricing.

LIFE SAVING. On Tuesday evening Chief Smith and twenty or thirty of the local police force very much enjoyed an address by Mr. T. W. Sheffield on the subject of "Life Saving." The meeting highly appreciated the manner in which the subject was presented, and enthusiastically decided to take up the methods of life saving as laid down by the Royal Life Saving Society.

FOR THE LEPERS. Rev. William P. Byers, whose work amongst the lepers in India is known all over the world, will give a lecture in Centenary school room next Monday evening. He and Mrs. Byers will sing some of the Punjab revival hymns, which have held many audiences spellbound. A silver collection will be taken up in aid of the Hamilton leper mission, which seldom comes before the public asking for money.

BABY FELL ON THE STOVE.

Mrs. T. S. Dougall, of 623 Flora avenue, Winnipeg, says: "My baby girl was arranging some of her doll's washing on a clothes-rack beside the stove, when she fell, and her hand, being thrown out to try and save herself, came in contact with the hot stove. She sustained a serious burn, and her cries and screams were terrific.

"I sent out to the druggist for the best remedy he had to use on a burn. He said there was nothing to equal Zam-Buk, and sent back a supply. I applied this, and soothed the pain so quickly that the child laughed through her tears. I bound up the hand in Zam-Buk, and each day applied Zam-Buk frequently and liberally, until the burn was quite cured. The little one was soon able to go on with her play, and we had no trouble with her during the time the burn was being healed. I feel very grateful for this cure, and would recommend all mothers to keep Zam-Buk handy for emergencies like this.

THE 91ST Will Not Go to Toronto on Victoria Day.

The "Kilties" held their second parade last night, and although not quite equal to the previous one, the attendance was quite satisfactory, there being a turnout of 422. Lieut. Jack Moodie acted as adjutant, in the absence of Captain Bell, whose father died last evening. No decision has yet been made in regard to Victoria Day, but the Times was informed that the regiment would not attend the Canadian games in Toronto.

MEDICAL MEN Appoint a Representative on Greater Hamilton Association.

The regular meeting of the Hamilton Medical Association was held last evening in the Public Library building, and was well attended. Dr. Mullen was in the chair, and the speakers of the evening were Dr. Clark and Dr. Jones, both of Toronto, who read papers on mental diseases. A communication was received from Mr. C. Murton, Secretary of the Business Men's Association, asking that the medical men send a representative to the Greater Hamilton meeting, that will be held shortly. Dr. Mullen was appointed.

ASTRONOMICAL Fine Address by Prof. Rosa of Niagara Falls.

The Hamilton centre of the Royal Astronomical Society held its general meeting in the Board of Trade last evening, and the attendance was large. Mr. G. Parry Jenkins, F. R. A. S., President of the society, acted as chairman, and Mr. E. H. Darling, secretary.

The chairman, in making his remarks, said he was glad to notice among those present, Mr. J. R. Collins, of Toronto, general secretary of the Royal Astronomical Society, and asked that he say a few words. Mr. Collins made a short speech and said he would be glad to welcome any of the members of the local association to the meetings of the Toronto Society.

The chairman gave an illustrated talk and among the pictures shown on the canvas were thirteen slides, taken at the Canadian Observatory, of the Moorehouse comet, and the moon. They compared favorably with those taken by Americans. He said the students of astronomy have been spurred on to pay more attention to this science as there is nothing more elevating. As all these vast areas are studied man is apt at times to be overcome with the idea that he is insignificant. In the observatory at Ottawa is to be seen the largest telescope in Canada, manufactured by the same company as Dr. Marshall's.

Sorrow's Crown of Sorrow. Reporter (happening around after the tornado had passed)—You occupy the top flat, eh? And the wind carried away the roof as slick as a whistle, but without hurting anybody. Well, it might have been worse, sir; a great deal worse. After the storm had gone by I could hear the photograph on the floor below still grinding away.
