Enjoyed Hospitality of Hamilton Automobile Club

ORPHANS IN

And Had a Day of Sports at Oaklands.

Happiness Supreme, Without a Mishap During Day.

Probably the most enjoyable outing ever experienced by the orphans of this city was tendered them yesterday afternoon by the Hamilton Automobile Club. Between 1.30 and 2 o'clock the children assembled at the Gore extension and the automobiles were soon on hand to convey them to Oaklands Park where they spent a very pleasant afternoon.

The spectacle presented when the happy crowd were preparing to start was a py crowd were preparing to start was a most impressive one. Many beautiful automobiles were drawn up to the side-walk just outside the post-office and westwards; then the children, who see little of the luxuries of life gleefully and joyfully climbing in to enjoy a treat which meant much to them, was a pleasant sight. Many citizens stopped and watched the scene and on all sides voices could be heard expressing approval of the kind and thoughtful act on the part of the Automobile Association in remembering the unfortunate ones.

The procession started at 2.30, and

membering the unfortunate ones.

The procession started at 2.30, and went by way of the Beach and around the bay to the park. Enough rain had fallen to lay the dust, but not enough to interfere with the wheels in travelling. Great care was exercised by the drivers, the cars being driven at a very moderate rate, and the trip was made without the semblance of a mishap. Some little difficulty was experienced in locating the grounds, and before they were reached the entire crowd landed at Bay View Park and had the pleasure of the trip back to Oaklands. The children looked upon this as a great joke on the looked upon this as a great joke on the

After reaching the park the commit-tee of management at once began to interest the children in sports and amusements. Several generous fellows threw up coins and had the boys soram-ble for them. The little fellows piled one on another, sometimes four deep, in their eagerness to clutch the coveted coins. The races and others. coins. The races and other games were most joyfully entered into by all the children, and heartily enjoyed, not a murmur nor a cross word was heard from one of them, which redounds greatly to the credit of the institutions in which they are being trained and cared for.

The following was the programme of

The following was the programme of the games:

After the games were over all sat down to an excellent lunch provided by Mr. George Crawford. The service rendered by the caterer was the very best, and the orderly way the children conducted themselves was worthy of praise. Too much praise cannot be given to all

ducted themselves was worthy of praise. Too much praise cannot be given to all concerned in the event.

Owing to the threatening rain not as many automobiles as were intended took the trip, all the closed ones available were occupied. The following is a list of the owners whose automobiles were used: Paul J. Myler, James Moodie, C. G. Milne, John Moodie, M. J. Overell, G. H. Rilett, R. M. Roy, Geo. W. Robinson, W. Southam, I. M. The trip home was by way of the high level bridge and Dundurn Park. After leaving there the procession broke up, and the children were conveyed to their spective institutions. The Association wishes to thank Mrs. Towns end, of the park, for so kindly giving them the use of the grounds.

LABORITES REBUKED

Again Raised Protest Against Czar's London Visit.

London, July 22.-The Labor member of the House of Commons to-day again raised their protest against the Czar's approaching visit to England, and drew upon themselves the unwontedly stern rebuke from Sir Edward Grev, secretary for Foreign Affairs, who dissented entirely from their biased statements. which, he said, were based upon utterances by Prince Peter Kurapotkin, and other Anarchists. Sir Edward cited the disapproval of the manifestations against the Czar expressed by the memagainst the Czar expressed by the members of the Douma, who were recently in London, affirming that the only persons in Russia approving of such attitude were the reactionaries. Among other things, Sir Edward said: "It is not our business even to know what passes in the internal affairs of other courties. Some of the abominable things Some of the abominable things which have been said on this subject can only be regarded as manifestations of futile folly."

THE CRY FOR WATER.

To the Editor of the Times:

To the Editor of the Times:

Sir,—Will you permit me to call the attention of Ald. Hopkins and Morris to the fact that their conduct in delaying the furnishing of a water supply to residents on the mountain is not likely to further the Mayoralty booms which these gentlemen are credited with diligently incubating? However eager they may be to commit the city to the dearer Hydro-Electric power, they should be able to see that causing delay in this matter is not likely to gain them popularity up here among the people who have to carry water long distances. Wake up, you aldermen! The Mountaineers are more concerned with getting a supply of drink than with the Hydro-Electric scheme or anything you may make out of it. If you have any Mayoralty aspirations, Messrs. Hopkins and Morris, hurry up the water for the mountain, or bank upon the hostile vote of the locality. If there is any money in it for you, in delaying our water supply to further the Hydro scheme, perhaps we can get up a subscription list and make the amount good for you. Anyway, delay is intolerable. Give us to drink! Mountaineer. or you. Anyway, delay is intolerablive us to drink! Mountaineer.

Came to Life in Coffin Mexico City, July 22.—While a wake was being held over the body of Teofilo Buenrostro, of Morelia, who was supposed to be dead, he suddenly came back to life and sprang from the coffin. The room was crowded with mourners, who were panic-tricken at the sight. An old woman was trampled to death and other persons injured by the crowd which attempted to flee.

day for a short noliday.

He hinted that the Admiralty is holding over the armor-plate contracts for the new Dreadnoughts until the results of the tests of his invention are known. London, Ont., July 22.—Harold A. Richardson, of this city, whose patent armor plate has been accepted by the British Admiralty, is a son of the Ven. Archdeacon Richardson, formerly rector of the Memorial Church, but now of Broughdale, London's new northern suburb, where he has established a church Archdeacon Richardson recently received a cablegram from his son at Portsmouth, England, confirming the report of his good fortune. Mr. Harold Richardson some time ago married a very wealthy English lady, and is now a resident of old London.

THE NARCISSUS.

THE NARCISSUS.

Once there was a young fairy who was very vain. He was beautiful, but selfish, for he loved no one but himself. One day as he was walking beside a little stream, whose waters were as clear as crystal, he saw a lovely face gazing up at him, and was charmed with its beauty. He did not know it was his own face, but thought it was a little water fairy, and promptly fell in love. Every day he went to the stream and smiled at the lovely image reflected there. He was very happy when the blue eyes and red lips smiled back at him

ture of armor plate, seen by the Canadian Associated Press at Hyde Park Hotel, said he had scored a great success in the tests of his plate by the naval authorities which culminated on Saturday at Whale Island. A six-inch plate was fired at from a distance of 120 feet by a 9.2-inch gun with armor-piercing capped shells, which was a very severe test. No impression was made on the plate, though the impact shattered the shell into a thousand fragments.

Mr. Richardson estimates his production as at least 25 per cent. better than the German plate, and says it should prove of inestimable value to the Admiralty, with whom he has been negotiating for some time. He intends giving the old country the sole benefits of his patent. He already has purchased a site here for a plant, and says he is backed by big men. He sails for Canada Saturday for a short holiday.

At last, after long watching, the heartbroken fairy lover sickened and died. But even death could not rob him of his beauty, for the fairy queen changed him into a graceful flower, with a sweet, delicate face.

BACK TO IRELAND.

Deportation For Ella Gingles; Her Protests Are Overruled.

Chicago, July 22.-Ella Gingles will be sent back to her home in Ireland, leaving Chicago next Wednesday, according to plans announced to-day. This decision was reached at a conference in the office of Patrick H. O'Donnell, her at-

office of Patrick H. O'Donnell, her attorney in the recent trial.
Vigorous opposition on the part of the girl threatened for a while to upset this plan, but she was overruled. She declared at first that she intended to remain in Chicago, and press her charges against her former accuser, Miss Agnes Barrette. Her friends argued that it was best for her to return to her mother's home. The girl protested that she could not return to Ireland, alleging that the Belfast newspapers had placed her in a false light at home. This argument was also overcome.

She is to be accompanied to Ireland y Mrs. Theodosia Bagshaw, of 4002 Lake avenue, who has been one of her and he told his story supporters throughout her trial. Mrs. Bagshaw will take her to her mother, Mrs. Thomas Gingles, in Larne, County

CARD SHARPERS ARRESTED.

Had Been Swindling by Wholesale in France.

France.

Paris, July 22.—Osborne Frank Kinsley, aged 46; James Brodies, alias Palmer, aged 36; Mullin St. Clair, aged 32, and George Hubbard, aged 30, all Americans, have been arrested at Dinard, accused of card swindling. Detectives have been tracking them for some time. The attention of the police was first called to the men at Vichy, where they made it a rule to pick acquaintance with compatriots around the gaming tables at the Casino. Their winnings ran from 6,000 to 30,000 francs in an evening.

Later they came to Paris. Afterward they went to Dinard, where they were arrested last night, where they had won 32,000 francs. Marked cards, small files and a complete outfit for card swindling were found in their possession.

GOOD SHORT STORIES

THE PROFESSOR'S MISTAKE. When Mrs. Sillersby went out for the afternoon she told her husband that she

hoped the children would not annoy him at his work—the husband being, of at his work—the husband being, or course, that famous Prof. Sillersby of whom so many stories are told. He was, as is well known, one of the pro-foundest scholars that America has pro-duced and little more than a baby in the affairs of everyday life.

the affairs of everyday life.

Mrs. Sillersby then expressed a hope that the children would not interrupt the professor's work, in saying which she showed herself a singularly sanguine woman. There were a lot of children, and they seemed to have no other mission in life that afternoon except to make work of any kind impossible. They began with hide and seek on the floor of the room where the professor was working, till he stopped that; then they slid down the staircase in bath-

NEW COINS NOT IN DEMAND. Mint Restricts Output of Silver and

Ottawa, July 22.—Owing to the lack of demand from the banks for new silver and copper coinage, the Royal Mint has been obliged of late to very considerably restrict the output of new coins. The normal output is about three tons of copper coins per week. At present the output is only half that amount, and no silver coins are being minted. The gold minted so far this year has consisted only of a small number of English sovereigns. No Canadian gold pieces have so far been minted. It is expected that the demand for a silver and copper currency will increase as soon as the crop movement begins.
