

**PROSPECTUS OF THE SECOND VOLUME OF THE JOURNAL OF EDUCATION FOR UPPER CANADA.**

EDITED BY THE REV. EGBERT RYERSON, DD. CHIEF SUPERINTENDENT OF SCHOOLS. ASSISTED BY MR. J. GEO. HODGINS, THE CONDUCTOR OF THE JOURNAL OF EDUCATION. I propose to continue its publication for the year 1849. Its form will be quite similar to that of the first volume, but the subscribers to it will receive a paper of 16 pages in the place of a pamphlet.

In the first Volume the Conductors have had chiefly a fourfold object in view: 1. An exposition of the principles and provisions of the System of Common Schools in Upper Canada. 2. The qualifications, obligations and mutual relations of all the several Parents and School Teachers. 3. The importance of Normal School instruction for the elevation of Common Schools of the country. 4. The importance and great advantages of a Normal Christian, Common School education to the several classes of our industrious population. While the subjects which have given character to the first volume of this Journal will not be left without another leading object of the second volume will be SCHOOL ARCHITECTURE: for the elucidation of and improvement of which the Conductors have already procured several Engravings, and have taken steps to procure others; and in the course of the year they propose to give engravings of all the most suitable PLANS OF SCHOOL-HOUSES, (with accompanying explanations,) which are recommended by school authorities in the neighbouring States, and also, if possible, to give the series of plans of Common Schools which have been adopted and recommended by the Educational Committee of Her Majesty's Privy Council in England. The Engravings will extend in number the months of the year, and will themselves be worth the subscription price of the volume.

Another object of the second volume will be to explain any modifications which may be made in the School law in connexion with its present provisions. A third and prominent object of the second volume will be, the exposition of the means necessary for carrying into effect provisions which will doubtless shortly be made by the Legislature for the establishment of COMMON SCHOOL LIBRARIES; and on the section of books for that purpose by the Board of Education, short reviews and characteristic notices of them will be given in the Journal, together with the best and cheapest modes of procuring them. We hope also to find room in the second volume for notices and notices of the systems of public instruction and educational movements of other countries, both European and American, as well as for some articles of miscellaneous literature such as will be especially interesting and instructive to young persons. But the educational wants of Upper Canada will first command attention, and determine the character of the Journal.

The Conductors respectfully and earnestly solicit the continued and active co-operation of District Superintendents, Clergymen, and other School Masters and friends of Education, in procuring and forwarding subscriptions. No part of the subscriptions will be applied to remunerate the labour of editing the Journal, but the whole will be expended in defraying expenses incurred in connexion with its publication. Terms—Five shillings per annum, in advance; and no subscription for less than one year. District Councils ordering one copy for the Trustees of each School District in their District, or any number, not less than fifty, will be supplied at three shillings and nine pence per copy for the year. All communications to be addressed to Mr. Hodgins, Education Office, Toronto; and all letters not containing remittance, must be post-paid. \* \* \* Complete sets of the first volume will be furnished to parties wishing to obtain it, at Five Shillings per copy. EDUCATORS OFFICE, Toronto, December, 1848. 48

**THE GENESEE FARMER.**

A Monthly Journal of Agriculture, Horticulture and Rural Affairs. Volume 10. For 1849. THE PUBLISHER of the Farmer gratefully acknowledges the receipt of numerous lists of new subscribers, from all parts of the country, during the past month. The encouragement bestowed upon the enterprise, by its Patrons and the Press, since the publication of the January number, is most gratifying—and proves that the work is considered the cheapest and best Agricultural and Horticultural Magazine ever published in the American Republic. Post-Masters, Agents and other prominent Friends of Improvement, are entitled to special thanks for the generous and noble exercise of their influence in behalf of the work. If each of the scores of new subscribers that we are daily receiving will also lend their kind offices to extend its circulation, the Farmer will have Fifty Thousand Subscribers before the 1st of May next—which would enable us to make it, in every respect, the most valuable and interesting of its kind.

The January number is universally pronounced the most beautiful Farmer's Journal yet issued in this country—while its contents, in the least equal to those of any of its contemporaries. And the February number, already published, is certainly not inferior, and probably more interesting than the former. The two numbers are illustrated with about Forty Engravings, including a steel-plate Portrait. Each number of the Farmer will contain 31 Royal Octavo Pages, Title Page and Index at the close of the year—making a beautiful volume of several hundred pages, complete for the Library. TERMS—Invariably in Advance—single Copies, 50 Cts. Five Copies for \$3, and any greater number at the same rate, if directed to individuals.—If directed to one person, eight copies for three Dollars, and any additional number at the same rate. The entire volume sent to all subscribers. The work is so cheap, and contains so much valuable matter on all subjects connected with Agricultural Horticulture, Gardening, &c., that every farmer, mechanic and professional man who owns or cultivates a rod of ground can well afford to become a subscriber. The January and February numbers have been stereotyped, so that we can supply them at all new subscribers. We therefore hope that all disposed to aid in extending the usefulness of the Farmer will continue to receive and forward subscriptions—remitting according to our club terms. Subscription money, if properly enclosed and mailed, may be sent (post-paid or free) at the risk of the publisher. Addressed to D. T. MOORE, Rochester, Y. N.

**To All whom it may Concern.** ALL persons are hereby warned against purchasing a Promissory NOTE given by me to GAVIN HAMILTON, as I can prove that I never received any value for the same. JOHN FERGUSON. Witness—JOHN BURNETT. Goderich, 13th April, 1849. 2-10-31
