

THE KINGSTON BURGLAR

MARSHALL TWITCHELL COMMITTED FOR TRIAL

Mr. Martin's Story of the Crime Told in Court

KINGSTON, Aug. 2.—Marshall Twitchell, charged with the recent burglary at Mr. Martin's house, was brought before the Police Magistrate this morning. Mrs. Martin testified that on the night of the burglary she was awakened suddenly, as if by something that had fallen. She then heard the servant call, "Mrs. Martin, please get up, a thief is in the house."

THE POET'S CORNER

Prayers I do not like.

I do not like to hear him pray, On bended knees about an hour, For grace to spend aright the day, Who knows his neighbor has no flour.

Much injury is done by the use of irritating, gripping compounds taken as purgatives. In Ayer's Pills, the patient can be most delicately treated as well as the most robust.

CHEAP CLOTHING.

Lives of Women Worn Out on Ready Made Suits.

What It Costs to Put "Bargain" Price Marks on Wearing Apparel. Managers of the "Slop Shop" Trade. A Business Neglecting Ventilation.

There are comparatively few clothing factories in New York. Most of what are called, such are simply shops where the cloth is cut. It then goes, each sort of garment separately, to the "tailors," so called, who have their shops all over the city, but chiefly in the most densely populated tenement house districts and in the very slums.

How to Prepare Calcimine. Some of our readers may wish to prepare their own calcimine, and we give these rules for the purpose of enabling them to do so.

Be on Your Guard. Don't allow a cold in the head to slowly and surely run into Catarrh, when you can be cured for 25c. by using Dr. Chase's Catarrh Cure.

Regulate the Liver and Bowels by the judicious use of National Pills, they are purely vegetable.

Mr. H. C. Priest, Wingham, has been secured as pastor of the Baptist Church there for three months, that is, till the opening of college. He is an able, popular and promising young man.

cook and sleep. Why, they use the clothes for bedding, even. If people could see the white holes in which the clothing is made up they'd never buy any of it. I wish they could see some of it when it comes here to have the buttons put in. It gets aired and cleaned before it is put up for sale.

"The way these people do is to get young girls to come and learn their business. They make them work six weeks for nothing, or, maybe, \$2 a week for their work, and they pack just as many of them as they can get into one room, along with the children and the cooking and all the rest. That way they make a little money for themselves at the expense of the girls, but it don't do them much good, for pretty quick the manufacturer grinds down the price another peg, and the more they grind the girls the more the manufacturer grinds them, until nobody is making more than a bare living. The people that take the work into the country to make their money as bad as the tenement house people for prices, but, of course, they're cleaner. If it wasn't for them prices, would be a good deal higher in the city. New York is the worst city in the country for sewing women, in Philadelphia, even, they pay them a good deal better. It's all on account of this tenement house work, and it'll never be any better till they pass laws making it illegal for more than one machine to be put in an ordinary living room."

"There's another thing," said David Leidesdorff, a brother, "and if cholera or any such disease ever gets a start in this city people will find it out mighty quick. These tenement house factories would spread the disease through the whole country. I've always said that if cholera ever got a start in New York I'd drop this business and get out right away, and I'd do it, too. They have a board of health and laws enough here, but I've never been in a city yet, and I've been all over the world, where they allowed such things as they do here. Only last winter, at a place in a street right near here, the children in a family were sick of smallpox in the same room where the clothing was being made up and I sent out every day. These people don't have any more regard for the laws or for other people's health than they do for their own health, and if you have ever been in any of these holes where they live and work you know how little that is. This whole business of the manufacture of cheap clothing needs a showing up."
