

19th.

In Wages or Profit

health, sooner or later, shows its value. No man can expect to go very far or very fast toward success—no woman either—who suffers from the headaches, the sour stomach and poor digestion, the unpleasant breath and the good-for-nothing feelings which result from constipation and biliousness. But just learn for yourself what a difference will be made by a few doses of

BEECHAM'S PILLS

Tested through three generations—favorably known the world over this perfect vegetable and always efficient family remedy is universally accepted as the best preventive or corrective of disorders of the organs of digestion. Beecham's Pills regulate the bowels, stir the liver to natural activity—enable you to get all the nourishment and blood-making qualities from your food. Assures you try them you will know that—in your looks and in your increased vigor—Beecham's Pills

Pay Big Dividends

The directions with every box are very valuable—especially to women. Sold everywhere, in boxes, 25c.

Getting Better.

Mr. Walter Petrie, who was hurt yesterday by a fall yesterday over the stairs at the R. N. Co. machine shops, was much improved last night. When brought to the Hospital yesterday he regained consciousness for a short while and then relapsed into insensibility. He became conscious again during the afternoon and was quite rational last night. His father and mother with Rev. Dr. Greene visited him yesterday evening. The man is not suffering from concussion, as at first thought. It is feared that his nose is broken. He was badly hurt about the head. The hospital physicians think that he will be all right after a couple of weeks.

Carbonear Man Honored.

We learn that Mr. R. W. Boyle, son of Dr. A. D. Boyle, of Carbonear, and grandson of the late Robert Maddock, merchant of this city, has been appointed to the position of assistant Professor of Physics at McGill University. Mr. Boyle has had a brilliant career all through and his fellow townsmen are justly proud of him. He is a nephew of Mrs. F. R. Mat thews, of Wesley Parsonage, and we congratulate his parents and friends on the distinction he has attained.

C.L.B. vs. N.H.

The Nfld. Highlanders and C. L. B. will try conclusions in this evening's football match, and the game promise to be a good one. The players will be:

Highlanders—Goal, Mercer; backs LeGrove, Adams; halves, McKinley, Ledingham, Churchill; forwards, Morris, Rennie, Chancey, Auckinleck, Butler.

C. L. B.—Goal, Marshall; backs Highmore, F. Rendell; halves, Reid, Bradbury, Dicks; forwards, Hunt, Crocker, Shute, Winter, Andrews.

Holiday Events.

8.45 a.m.—Excursion train to Placentia and Carbonear.
1 p.m.—Cricket match, St. George's Field.
2.30 p.m.—Excursion train to points as far as Kelligrews.
2.30 p.m.—Matinees at Nickel and Star Halls.
7.30 p.m.—Performances in Nickel and Star Halls.

Fined \$100.

The case preferred against Kong Wha, a Chinaman, for keeping a house of ill-fame, and which has been occupying the attention of the Court for the past month, was concluded yesterday afternoon in the Magistrate's Court before Judge Knight. In closing the case Gibbs, K.C., made a strong plea on behalf of the defendant, but His Honor after summing up the evidence convicted the accused and imposed a fine of \$100 or 3 months' imprisonment. The fine was paid.

Bait Scarce.

Passengers who came in by last night's train say that there are now over 30 bankers awaiting bait between Placentia and Argenta. They are offering good money for a supply but little or none is to be had. Caplin were seen in the coves yesterday morning but in no great quantity. If these vessels were at Holyrood and Conception Hr. they would get all the caplin they required.

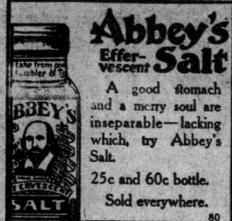

Vehicle Damaged

Last evening a horse attached to an express was coming at good speed down Freshwater Road, and while rounding a curve to enter Field Street met with mishap. The vehicle collided with the side of a house and was wrecked, one of the wheels being smashed in pieces.

Sluggish Liver Action

Causes indigestion, constipation and bilious headaches—Dr. Chase's Kidney-Liver Pills the cure.
"Sluggish liver has been my trouble," writes Mrs. I. P. Smith, Paris, Ont., "and I have been greatly benefited by using Dr. Chase's Kidney-Liver Pills. I have taken medicines from several good doctors, but none ever did me the same amount of good as Dr. Chase's Kidney-Liver Pills. I could not keep up and do my work if I did not use these pills when the bilious spells come on, and I have recommended them to many."
"Dr. Chase's medicines were about the only kind that came into my father's house 40 or 50 years ago, and they were always satisfactory."
Dr. Chase's Kidney-Liver Pills are prompt, definite and direct in their action on the liver, kidneys and bowels, and are therefore the most effective treatment obtainable for biliousness, indigestion and constipation. 25 cents a box, 5 for \$1.00, at all dealers, or Edmanson, Bates & Co., Toronto.

A good stomach and a merry soul are inseparable—lacking which, try Abbey's Salt.
25c and 60c bottle.
Sold everywhere.

Increased Taxation.

Editor Evening Telegram.
Dear Sir.—I was very pleased indeed to read in your excellently conducted Journal of Thursday last an article copied from "The People" relating to taxation and other kindred subjects. I have always regarded the shouts of the versatile and unreliable timeserver who controls the columns of the Chronicle as very misleading indeed, and the article copied from "The People" puts the matter in a very clear light and is very pertinent and opportune production. The public surely know that the increased cost of living—especially the cost of the class of goods consumed by the labouring classes of the Colony—the great body of taxpayers—brought about by a reckless and extravagant system of Government can mean nothing else but overwhelming debt and difficulty, with crushing effect to the working population, until a wiser and more economical Government takes the place of the present spendthrifts and cuts down the taxes in the same ratio in which they were reduced by Sir Robert Bond during his tenure of office.

A BOLD STROKE.

It was a bold stroke when Sir Robert struck the duty off of Flour, Kerosene Oil, Salt, Lines and Twines, etc., and people shook their heads with fear and hardly knew what the consequences would be, or how the Colony's finances would be affected by such a drastic move, but it worked out all right and saved the taxpayers of the country hundreds of thousands of dollars. That was the first great stroke to lighten the heavy burden of the people and they felt the uplift and seemed to breathe more freely and hopefully and enter into their varied occupations with greater vim than ever before. Sir Robert intended at that time to go on reducing taxation as circumstances with increasing revenues would permit, and he will resume that work of striking off taxes and lightening the burdens of the fishermen and other labourers just as soon as they place him in position to do so. First of all there must be a reduction of duty on tea sugar and various other items largely consumed by the average working classes who are

THE BONE AND SINEW OF THE COLONY.

I understand that it was a special pledge of the present Government that they would put tea, sugar and other items on the free list. Did they do it? That's the question. Did they do anything for the well-being of the people? No, emphatically no. Picnicking is a very mild name indeed for such gross and ruinous extravagance. Is it not as plain as plain can be that in every department of the present Government it has been grab, grab, grab, all the time since they assumed office, and it will be until they are kicked out of office, and heaven speed the time when this shall be done? What can the fishermen think of it all? Here they are scooping in thousands upon thousands of dollars into their own pockets and yet they have the conscience to offer poor old fishermen, at 75 years of age, what they call a

PENSION OF FIFTY DOLLARS A YEAR.

Talk about an increasing revenue! What has that to do with the country's prosperity if rioting on the country's resources continue as at the present time? That is only one side of the question. Tell me how the increasing revenue is being appropriated and expended. What would be the use of anybody earning a large salary if that salary were wasted in extravagance or squandered in excessive personal gratification, or in purchasing favour and friendships at an enormous cost? The unanimous demand at the present time is for reduced taxation and the duty of the people's representatives is to yield very respectfully to that demand and not to squander immense revenues in appropriations which are only calculated to bring back to themselves enormous bundles in the way of useless concessions and arbitrations in which a horde of political parasites stand ready to participate. It is now conceded by a very large majority of our people that the only hope for the country is to call Sir Robert Bond back to office and say to the present bootling crowd:

GET YOU, GONE, FOREVER. NATIVE.

Hr. Grace Notes.

Mr. W. H. Morrow, Manager of the Bank of Nova Scotia, Carbonear, left on Saturday for his home at Annapolis Royal, N. S., on hearing of the severe illness of his father. Mr. G. Bremner, Manager of the Bonavista Branch, will take charge at Carbonear during Mr. Morrow's absence.

Mr. John Davis, Principal of the Methodist Academy, who is shortly retiring from service, was on Friday last presented by his pupils with an address and a very nice fountain pen as a small token of their appreciation. Mr. Davis, although taken by surprise was very much touched by the thoughtfulness of his pupils. We take this opportunity of wishing Mr. Davis many years in which to enjoy the recompense for his valuable services.

Mr. John Cooney while engaged last week cutting clay near the R. C. Cemetery, noticed some soft material protruding from the bank and on investigation he drew forth first a lady's blouse, then an undershirt, and next a lady's silk dress. Mr. Cooney almost expected to see a lady following all this fancy, but in this he was disappointed. The material must have been there for a long time as it was very much decayed, but it will scarcely ever be known how long ago or by whom it was put there.

Miss M. Parsons and Miss M. Chafe went to St. John's on a visit to friends on Saturday morning. They expect to return to-night.

The church bell at St. Paul's is, we regret to say, broken, and will need to be re-cast. This bell has called people to worship for the past ten or eleven years, and its beautiful sound did much to fill the citizens with holy thoughts for Sundays. There is no music so attractive to some people as the church bells as they call people to their duties. We hope soon to hear a new bell at the old church.

Permit me to draw the attention of the Commissioner of Pook, and in fact His Excellency the Governor, as well as the general public to a most disgraceful condition of affairs allowed to exist in this community for years past and apparently not getting any better. I refer to the practice of putting old helpless people and young children, who are a burden on the Colony and kept out of the revenue, in the homes of very poor people, where \$2.00 per month is given for each. How can any poor person take a child much less an old person and do for them at \$2.00 per month. We know of cases where such unfortunate children have found good homes and are being taken care of; but we also know of cases where they are allowed to go hungry, cold and dirty. They are human beings and should not be treated thus. Our heart aches for such poor little children. At the

present time there is a poor, silly woman housed by the Relieving Officer in a home to the west of Cochrane St. This young woman is about 28 years of age, and her sex are ashamed to see her on the street semi-naked, dirty and scoffed at. What we want here in Harbor Grace is a poor Asylum where all these poor unfortunates could be kept and looked after. There are several other cases in my note book which I will refer to later. Cruelty to animals is punishable, what about cruelty to Christians?
CORRESPONDENT.
Harbor Grace, June 17, 1912.

Improvements in Gas.

The Old Year is closed, and in looking back, the advocates of Gas have no cause for complaint; indeed, it has been a year of great progress in this industry.

Each year Householders realize more and more what Gas (intelligently used) can do for them in Cooking Heating and Lighting.

A great improvement in gas appliances is shown in all directions and the growth of knowledge as to how Gas may be used to the best advantage is one of the most satisfactory features of the past year.

The Swimming Pool.

The Council's swimming pool at Quidi Vidi Lake this season will be in charge of Mr. Wm. Clance, who was appointed at last week's meeting as instructor and caretaker. We learn from those who know the newly appointed one that the Council have acted wisely in their selection. Mr. Clance is not alone an expert swimmer and a prize winner, but is an ardent devotee of this form of sport. Nothing gives him greater pleasure than instructing the youngsters, who are naturally timid whilst learning. All this should disappear the coming season amongst those who will frequent this safe and well protected pool. The instructor will personally give each child lessons, and will side by side with his pupils swim and wade through the enclosure. Parents can rest assured that their boys who will visit the pool provided by the Council are in charge of a good, capable instructor and will be well cared for. Whilst writing on this subject we may be permitted to suggest to His Honor the Mayor and Councilors that if they wish, and we know that they do, to make this safe resort for boys popular, there is one thing more to be added, which need not be costly, and that is the erection of a shed as a dressing room. Such a shed is necessary. We saw the want of a shed last season when we visited the place several times and bathed in its sparkling waters.
SWIMMER.
