And will the Council seriously consider such a proposal, and spend such a large amount of money for only a three years guarantee? It is quite true that up to now we have been dickering and wasting money in road making. And it is for this reason, no doubt, that the Commissioners are seeking some permanent road bed material.

"So God created man in his own image. . . . . . male and female created he them," and He gave them dominion over all the earth.

So it is stated in the Book of Genesis, and evidently woman was given dominion along with the man. Who then had the Right to take away from woman what God had given her? And how is it that the word "male" crept into the Constitution and "fe-

male" was left out? It is a long-ago story—this secondplace in which woman has been put, at least, as far as the Vote is concorned. It began long ago in brutality, when the man made the woman but I think it is bad enough, work for him or else clubbed her. The separation of man and voman by Clubs and organizations is nother outcome of the ancient falacy. The men probably will say that women have their "hen" parties and their "bridges." But I ask who started going out alone first? The man to his Club or the woman to her Club? The separation of the sexes by clubs and classes has been another blow at home life. W. T. Stead would seldom go anywhere where he could not bring his wife and it were better for the world if there were more like him. It were better for the children that they learn everything at home. If they are going to play cards let them learn at home. If they are going to drink better teach them temper ance in the home.
