Baldwin Cabinet will Await the Meeting of Parliament.

British Communists Agressive--U.S. Experts will Co-operate Unofficially with Reparations Commission--Austria Isolated by Strike of Postal Officials

BALDWIN HOLDS ON. LONDON, Dec. 11. Premier Baldwin and cabinet will meet Parliament when it reconvenes and not resign in the interim, it was officially announced to-day.

BALDWIN WILL CARRY ON. LONDON, Dec. 11. The text of the communication containing the Baldwin cabinet's decision to carry on until Parliament meets, reads: "After careful consideration of constitutional precedents and their bearing on the situation which has arisen as a result of the general elections, the cabinet decided that it was their constitutional duty to meet Parliament at the earliest possible moment. Parliament therefore will re-assemble January 8th." One of the factors which is said to have influenced Premier Baldwin to remain at his post until Parliament assembles was his desire to clear up certain matters of foreign policy which were inaugurated by his Ministry, notably the treaty authorizing the American Government to confiscate contraband liquor in British ships beyond the 3 mile limit and the settlement of the Tangier dispute. These are pointed to as among the achievements of the present cabinet in the realm of international diplomacy, and Mr. Baldwin, who is represented as extremely anxious to see them through to completion. It is expected the special convention between Great Britain and the United States, extending to American officials the right of seizure of illicit spirits to an hour's sailing distance from the shore, will be signed sometime before January 8th, when the factual question will probably be settled in Parliament.

ANOTHER LIBERAL. LONDON, Dec. 11. In Orkney and Shetland, Scotland, Sir R. C. Hamilton, Liberal, was elected on December 6th. No change.

U.S. EXPERTS WILL PARTICIPATE. WASHINGTON, Dec. 11. The Washington Govt. "would throw with favor" the participation of United States experts in the Reparations Commission Inquiry Committee now under consideration, it was announced at the White House to-day. It was emphasized the Government itself could not participate in any official way, but it was said participation by American economic experts in their private capacity would be approved.

AUSTRIA ISOLATED. VIENNA, Dec. 11.—(By Courier and Budapest Wireless)—The communications tie-up caused by the strike throughout Austria of twenty-eight thousand Postal employees is complete; only physicians, the hospitals and ambulance stations are permitted to use the telephone. No mails are going forward nor any telegrams coming in or going out of the country. Austria thus remains ignorant of what is going on outside; the Vienna press confirming itself to local news. The postal employees went out yesterday afternoon failing to agree with the Government in their wage dispute.

BRITISH COMMUNISTS ON THE WARPAATH. LONDON, Dec. 11. Executives of the British Communists' movement, have issued a statement which the Daily Express says contains the following: "The Communist Party feels justified in adopting any methods to fight reactionary capitalist forces. Just as the Labor candidates in the past have been victimized, so have we, and now that we have the organization and the means, we are determined to adopt any methods of fighting. As a revolutionary party we must adopt revolutionary tactics."

Would it be Good Enough for Dad Now?

A salesman out in an Iowa town recently called on a storekeeper who had an old-fashioned store in a splendid location. The salesman was of the creative type and was urging the storekeeper to change his methods, and to adopt newer selling ideas. The reply of the storekeeper was: "Oh, these old methods were good enough for my Dad, and I guess they're good enough for me." The salesman answered, and he could make this answer because of his experience and familiarity with the situation: "Your Dad when he established this store, was the most progressive merchant of his time—that's why he won success. If he had been content with the methods of your grandfather, he would never have established any business at all. Your Dad, and I knew him well, never refused to consider new ideas; he adopted the things that had proved successful with other merchants. If he were alive to-day he would be the first one to recognize that the community your store is serving is greatly changed, and that new methods must be adopted to take advantage of new conditions."—Homer J. Buckley, in Forbes Magazine (N. Y.)

"Brass" a Masterpiece in Screen Entertainment

LAST SHOWING AT THE NICKEL THEATRE TO-NIGHT.

The producers of the motion picture "Brass" now at the Nickel, can quietly sit back confident that in the production they have contributed to the silver sheet a masterpiece—artistic and entertaining to a superlative degree. "Brass" is the best picture that has carried the Warner Bros. banner, Sidney Franklin, who directed the film, by the manner in which he took the characters from the famous book, injected real life into them and made them behave as real humans relating a story that is sure-fire and which will keep patrons interested from beginning to end. It is a powerful story, a story that dwells on ill-advised marriages and divorce, loveless marriages and hatred, good people going wrong and of bad people seeing the light, cleverly told in a convincingly entertaining fashion. The acting throughout is superb, effective and realistically human in the every move of each player. Monte Blue as Phillip Baldwin, the ambitious husband whose life is all but wrecked by a pleasure-loving, irresponsible wife, Marie Prevost, is seen at his best. Marry Myers makes of Wilbur Lansing a role that will not soon be forgotten. All the others of the cast do splendidly, but the bulk of the credit should go to Sidney Franklin's masterful direction. His is the work of a true artist. To-night is the last chance to see the film at the Nickel.

Her Industries Humming

FRANCE IS RAPIDLY COMING BACK

The remarkable recovery made by French industry since the conclusion of the war is one of the brightest spots in the European situation. Official French figures as of June 30th, 1923 show that 20,000 of the 22,000 factories destroyed have been rebuilt, 590,000 houses out of 741,993 demolished have been reconstructed, and 7,875,000 acres of land out of the 8,250,000 acres which had been ravaged have been restored to cultivation. France's trade in the first eight months 1923 showed a substantial increase in both exports and imports and a greater evenness. During the first eight months of this year her imports amounted to 19,938,324,000 francs, while exports of French products rose to 19,128,066,000 francs. Both imports and exports increased in value, compared to 1922, but the gain in the value of French exports was 850,000,000 francs greater than the increase in her imports. There was also an increase in her imports of raw materials and a large increase in her exports of manufactured articles. Her ports are being improved and amplified to care for more extensive commerce, for the French mercantile marine is estimated to have risen from fifth to third place among the commercial fleets of the world. In the matter of raw material resources France is also improving her position. She has raw resources in ore, coal, potash and oil, all of them valuable in contributing to her commercial advancement. The French coal industry now employs about 235,000 workers, and its estimated production for 1923 is placed at 36,000,000 tons, which is only 4,000,000 tons short of the pre-war output.—O. D. Foster, in Forbes Magazine (N. Y.)

Girls Flock to Movieland

BUT FEW CAN FIND PLACES.

HOLLYWOOD, Cal., Dec. 3 (A.P.)—Scores of young girls, movie-struck, arrive here every week, most of them with no recommendations beyond flattering notices in home-town papers, according to the Hollywood Chamber of Commerce, which has started a campaign to warn young persons throughout the country of the fallacy of finding screen jobs, unless they are qualified and have been encouraged to apply at the studios.

The Chamber of Commerce estimates the population of Hollywood at 85,000 of whom, it states, less than 15,000 are engaged in the film industry.
