EXTREME DULLNESS IS FEATURE OF TRADING IN NEW YORK

London Is Heavy Seller; Reading in Good Demand, Showing Most Strength

New York, June 17.—The uncertain course was followed today by the stock market, which was dull to the point of stagnation most of the time. The close of the day found prices of many representative stocks well above yesterday's final figures, although below the highest quotations of the session. Foreign selling was a large factor in the decline of the market at the opening, and London disposed of about 20,000 shares here on balance. In spite of the pressure from abroad, and renewed selling by traders who sought to extend yesterday's decline, the market quickly rallied from the opening, and the short interest here was largely over-extended. Reading was in especially good demand, displaying most strength of the leaders.

The Harriman shares were helped by reports that a dissolution plan had been worked out to the satisfaction of all parties at interest. Interboro Mel. Preferred, which has developed marked strength recently, rose nearly four points to the excitement of gossip concerning prospects of a dividend payment. One reason ascribed for the increasing dullness of the market was the disposition of traders to hold off until currency legislation is read and defined. The word is received regarding the attitude of the courts toward the latest plans for segregation of the Harriman roads.

Bonds were firm. Total sales, par value, \$1,441,000.
