TORONTO LETTER.

TORONTO, Monday, Sept. 15.

The Globe's financial review says: The stringency continues to be felt in local securities, especially with holders of securities. Early in the week there was a large loan on prime collateral at 6 per cent. while the general rate was 6 1/2 per cent.

Saturday good borrowers had to pay 6 1/2 and others 7 per cent. There is little prospect of easy money in the near future, but on the contrary firmer rates must be established before we will get much relief. The grain harvest has been larger than usual in this Province and the market is comparatively high. The dealings on the stock exchange show an increase as compared with the preceding week. The market, however, was weaker, the money stringency apparently proving the money effect. Some holders of the larger securities have been forced to part with their shares, and the consequence is a lower range of values. The decline, however, is of a lower range of values.

Mr. E. B. Ryckman, of Toronto, was on Saturday awarded the gold medal of the Keesler was also called to the bar, Mr. A. J. Keeler was also called to the bar, after having passed a most creditable examination.

Mr. Oiler was unfortunately detained at the Assize Court and the matter was not pressed.

Dr. John McConnell was on Saturday found guilty of assault, causing actual bodily harm to Mrs. O'Leary, a tenant of his, from whom he tried to take the key of the house. Bail was taken for his appearance for sentence.

This Mayor Must Be an Old Bachelor.

FORT DODGE, Sept. 15.—The Mayor of Algona, Iowa, has just issued a proclamation forbidding the use of baby carriages on the sidewalks of the city. The Mayor says a perambulator has no more right on a sidewalk than a lumber wagon or any vehicle. The edict has caused a sensation among the mothers of Algona, and it will probably be disregarded.

Keys & Lamphorn's broom and straw mill and cheese box factory building was also carried away. The tannery part of Campbell's mill also fell over the stream.

Bird, a traveling man, at 21 West Fourth street. Mrs. Bird returned from a visit at Mount Gales at noon and found the couple lying on a bed with their clothes on, as if they had lain down for a short rest.

The Rectory Proximity Movement.

WATERBURY, Sept. 15.—It has been reported that a large majority of the members of the House of Representatives of both parties favor reciprocity in some shape.

The demonstration of the fact has been made in a series of interviews. The agricultural sections in the west and south strongly favor a system which will widen the market for farm products, and in those regions the questions wholly transcend party. Only the land owners, who are the producers of the far West and the sugar districts of the Southwest are dissatisfied with the prospect for reciprocity relations with Latin America.

Congressman Hitt, of Illinois, speaking of the general subject of reciprocity for the Aldrich amendment for a text, says: "I have been interested in this subject of reciprocity for some time. The amendment introduced by Mr. Sherman in the Senate was my amendment. The only change in it was that of inserting the words 'or partial' in addition to the word 'complete'.

The failure of our treaty with Canada in 1854 was because the reciprocity was jeopardized. I have always believed that we should have some sort of comprehension for the great advantages which we gave to other American nations.

Benjamin Butterworth, of Ohio, says: "I think that reciprocity can be properly utilized to extend our trade and commerce both north and south. It is thoroughly consistent with the protective policy as any two principles can possibly be. It must be remembered that our protective system, as known in Whig and Republican teachings, and practice, was never intended to destroy competition, but to render it equal and humane. In the presence of these conditions we can beat the world. We cannot have reciprocity with any nation unless it is mutually beneficial."

Important Changes in Court Procedure.

TORONTO, Sept. 15.—A meeting of the judges of the court of Oyer and Terminer, in Osgoode Hall Saturday forenoon to consider certain anomalies in the rules of procedure. Chief Justice Hagarty presided, and they were present: Sir Thomas Galt, Chancellor Boyd and Mr. Justice Oiler, Mr. Justice Rose, Mr. Justice Ferguson and Mr. Justice MacMahon.

Rule 217 was amended so as to read: "The Divisional Court of Oyer and Terminer shall hold sittings commencing on the first Monday in December and the third Thursday in February of each year."

This resolution was passed: "Whereas, under rule 101 it is provided that the investment of money in court by the Treasury, and the company shall be subject to the approval of the official guardian of the High Court of Justice for Ontario and whereas the said official guardian has expressed his desire to relieve the duty in question pursuant to sections 11 and 12 of the Statute in B. C. Oiler, Q.C., the registrar of the Queen Bench Division of the High Court of Justice, be appointed in place of the said official guardian and discharge the said duty, and that the said Toronto General Trusts Company be authorized to execute the said duty, and that he certify the same to the court before checks are for each investment, and the said company are to pay into court to the credit of the surplus interest funds the fee heretofore paid to the said official guardian by the said company in respect of said services."

It was further decided that no order for the administration of an infant estate shall be made until such infant is represented by the official guardian of the High Court of Justice, who shall be duly notified of the intended application.

A Week's Failures.

BRADSTREET'S review, Sept. 13, says: Business failures reported to Bradstreet's number 162 in the United States this week, against 141 last week and 190 this week last year. Canada had 22 this week, against 25 last week. The total number of failures in the United States from Jan. 1 to date is 7,100, against 7,938 in a like portion of 1889.

How to Combat Socialism.

BERLIN, Sept. 15.—Emperor William made an important speech at a banquet at Breslau Saturday night. He said he hoped other provinces would imitate Silesia in its opposition to the German Socialists. He agreed with the Liberals, who declared that State coercion was not the right way to oppose social democracy, and that society must help itself. Social reforms, he said, could only be introduced by the citizens themselves. He trusted the people would awaken from their lethargy and not leave it to the State to struggle against perverse opinions.

Traffic in Human Flesh.

LONDON, Sept. 15.—The Zanzibar correspondent of the Times says European circles are confident the Berlin Government will countermand the German proclamation at Bagamoyo, but even this will fail to remedy the irreparable harm already done. The object of the Germans is to attract wealthy Arabs to the German coast line. A German official recently presided at an auction sale of slaves. Serious difficulties are certain on the British coast line, and probably the Arabs will attempt to coerce the Sultan.

A Tea Party Poisoned.

LONDON, Sept. 15.—Miss White, a benevolent lady residing at Fulham, on Wednesday evening gave a supper to 100 laborers who were out of work. The meal finished when the entire company was taken ill, many suffering intense pain. Doctors found the whole party had been poisoned. The cause of the poisoning was not ascertained, but it is believed that three persons had died and others still in critical condition. The poison has been traced to a corrosive deposit in the interior of the tea tins, which had not been properly cleaned by the servants.

The Pelican Club a Nuisance.

LONDON, Sept. 14.—An injunction has been applied for to restrain the Pelican Club, which has been the scene of Smith-Jackson and Dixon-Wallace fights, from giving entertainments of a character likely to cause annoyance to the residents of the neighborhood. The club, which has been the scene of many fights and smoking concerts. A big glove fight causes crowds of roughs to gather outside the club house, where for hours the street is blocked by a shouting mob. The Marquis of Queensberry, Lord Caledon, a number of police officials and others declared that the Pelican Club was a nuisance to the neighborhood.

After the statements of both parties the hearing was adjourned by the judge.

111 Years Old.

PARIS, Sept. 15.—A remarkable case of longevity has been reported from the town of Bergerac, in the Department of the Dordogne. The 111th birthday of Mme. Couderc was the occasion of the entire town appearing in gala attire and the suspension of all business. Mme. Couderc is still bright, witty, and agreeable company. She distinctly remembered the great Napoleon and his first wife. The Reign of Terror is as fresh in her memory as the day it occurred. She has lived through the Franco-Prussian war, and all the events that the past three generations know only from reading she knows from living experience. Her husband was a cooper and owned a few acres of land which he planted with vines. Mme. Couderc avers that the wine made from the product of these vines was the elixir that gave to her husband 80 years of life and to herself 111.

Mr. Moriarty a Bride.

LONDON, Sept. 15.—Miss Mary Lynch has reached the age of 17, and is the daughter of the wealthy Mrs. Lynch, a widow, who resides at Clare Castle, Ireland. Some time ago John Moriarty applied for a position as a laborer on the estate, and being a tall, strong man he obtained employment. In addition to his fine physique he is a rather handsome fellow, and his looks attracted the attention of Miss Lynch when first she had occasion to give him some instructions. He assiduously pleased her, and his beauty was a great recommendation. Mrs. Lynch was captivated, and she promised forthwith to marry him; but Mrs. Lynch, who was to hear of the meetings between her daughter and the laborer. She accordingly took measures to prevent their meetings. At last she succeeded, and she congratulated herself on the fact. In a very short time Miss Lynch and Mr. Moriarty were in communication again, and this time they agreed to flee from the hateful restrictions. Clara Castle implored them. The plan was carried to a successful issue, and they eloped, and got so far as Foyne, intending to take the first steamer from Queenstown and go to America.

But Mrs. Lynch determined not to relinquish her daughter to the tender care of her former servant without a struggle; so she obtained a warrant and followed the couple to Foyne, where she ran them to earth and duly arrested them. Now she has found them everybody is asking this question: What will she do with them?

THE METHODISTS.

Itinerary—Proposed Extension of the Pastoral Term to Five Years.

MONTREAL, Sept. 15.—Saturday was largely a holiday to the delegates to the Methodist General Conference. In the afternoon a number of delegates visited the Wesleyan Theological College and McGill College, where they were warmly welcomed and much interested in the work.

Yesterday the Conference delegates took possession of the evangelical pulpits of the city. They preached in all the Methodist churches, and to many Presbyterian, Congregational and other congregations. In the Conference church, St. James', Rev. Dr. McMullin, delegate from British and Irish Methodism, preached in the morning, and Rev. Dr. Fyfe, former pastor, in the evening. Dr. McMullin's sermon was a masterly argument in favor of continuing to walk in the old paths, as the Bible enjoins. He met, too, confessional Roman Catholics and representative Anglicans to the effect that these churches had a monopoly of the old paths. Antiquity, he argued, was not the only thing needed, but they must show goodness as well as piety.

Committee reports may be expected to begin to come before the Conference early in the week. It is almost certain the Committee on Itinerary will report in favor of an extension of the pastoral term to five years. The general impression is that the Conference will not be able to prorogue on Friday, Sept. 20.

A number of delegates attended the Jesuit Church, and heard the prominent Jesuit, Father Drummond, preach on the Resemblances of the Roman Catholic Religion. The sermon took the ground that it is more reasonable to have the Bible interpreted by holy church than by diverse consciences of individuals.

[Special to ADVERTISER.]

MONTREAL, One, Sept. 15.—This morning was devoted entirely to committee work, and Dr. Carman says reports will pour into the conference this afternoon. The morning session was lengthy and important. Among other things it says stipends have been far below a desirable minimum. The report says a reasonable amount is expended upon missions well able to support their ministers, and others are able to double or largely increase their contributions. This would startle anyone inquiring into the facts. This comes out of the meager stipends of the men on purely missionary grounds. On the other hand, the report mentions Hon. Mr. Dewdney's letter refusing to help Protestant Indians. It is the duty of the church to stand by them, and it is the duty of the Government to have a test case to finally decide in the courts. Principal Douglas is presiding over the Education Committee, which strongly advocates advanced steps to poor students repayable at the earliest possible moment. The report states that despite the interview with Sir John, not the least step has been taken to place any Indian institute under Methodist care.

Mrs. Langtry is in Paris quite restored to health.

On the basis of S. Government's September reports the winter wheat crop will be 395,000,000 bushels against 412,000,000 last report; corn, 1,600,000 against 1,600,000 last report.

Joe Harris, one of the three Indians struck by a N. Y. C. train near the Suspension Bridge Saturday night, has since died. He falls from Onondaga, and was resident of the Grand River Reserve.

The Bishop of Limerick has received the thanks of the Pope for the part he has taken in his late controversy with John Dillon, the sentiments put forth by the Bishop being fully endorsed by His Holiness.

CAIRNCROSS & LAWRENCE DISPENSING CHEMISTS, 236 DUNDAS STREET, LONDON, ONT.

It is probable that the time has come when the petroleum should be found. Mr. McConnell will recommend the Government to expend \$20,000 or \$30,000 in sinking wells. He is quite confident it is there, and is also probable that it is the time when it can be put to some commercial use for pavements, or mixed with lignite for fuel. Calgary and Edmonton Railway, upon its completion, will be within 80 miles of the Athabasca River. Only in the event of petroleum being found has the Athabasca country a future, in Mr. McConnell's opinion. The river is lined with stunted fir trees, and the country is a barren waste. Its only inhabitants are Indians. Some of them cultivate a few potatoes and other roots, which seem to grow well.

AN EDITORIAL EYE-OPENER.

Bengough, the Canadian Cartoonist, at the New York Fellewcraft Club.

New York, Ont. Sept. 15.—W. Bengough, the cartoonist of the Toronto Grip, was the guest last night of the Fellewcraft Club, an organization of working journalists and literary people here of the brightest sort. The president is Mr. R. W. Gilder, editor of the Century Magazine, who had specially invited Mr. Bengough. The toast master was Mr. John Ford, editor of Harper's Weekly. The audience was perhaps the most critical assembly that Mr. Bengough ever appeared before, but he completely captured the club with his keen wit and deftly executed crayons. Picture after picture appeared before them of prominent citizens and well-known characters, and not a little educational work was done toward familiarizing the leading men of the daily press as to the Canadian question of better trade relations.

Mr. Wiman, at whose suggestion the entertainment was afforded, testified to the power of Mr. Bengough's pencil all over Canada.

Mr. Bengough was warmly complimented on his performance—elected an honorary member of the club and urged to accept its hospitality at once, that the influential members of the press here should keep pace with what is going on in Canada.

Both Horses Killed.

BRANTFORD, Ont., Sept. 15.—Mr. Bond, of Brantford, with Misses Dolly Taylor and Bessie Taylor, also of Brantford, were driving home from Brantford Friday evening, and when passing through West Brantford the traces got loose and the team ran away, throwing the occupants out, the buggy passing over and seriously hurting Miss Bessie Taylor. The team was found in a ditch a little distance from town, both horses killed.

Mr. Benwell is apparently about 23 or 24 years of age, intelligent looking and cultured. He is firm in his determination not to talk as to the nature of the testimony he will give.
