Canadian Carpenters in Chicago Shorter Hours for Cabinetmakers.

CHICAGO, May 27.—A newspaper here says Treasury Agents Schlatz and Lester, who have been here looking into the matter of the alleged importation of foreigners under contract by the old Boss Carpenters' Association to take the places of strikers, have some sensational testimony to submit to the Joint Conference on Immigration and Naturalization, which began its session here yesterday. To learn the movements of the old bosses they, in conjunction with the union carpenters, put 500 union men at work for the old bosses. They are mostly French-Canadians. These 500 spies have for more than a week been mingling with the 500 imported men employed by the old bosses and sounding the relations they sustain to their employers. It is said the spies have gathered evidence, documentary and otherwise, showing that the Alien spies have gathered evidence, documentary and otherwise, showing that the Alien Labor Law has been violated in spirit and letter. It is intimated one spy was dispatched to Canada—a would-be employer of carpenters—with instructions to bring to Chicago 700 carpenters and guarantee them work at 30 cents per hour for six months. Yesterday merning a counsary of young people, with heavy provision backets and light hearts gathered at Massia's boat house and kired a number of boats in which they proceeded to Springbank for the purpose of spending the holiday in picknicking on the river bank near that popular resort. Among others in the party were Miss Ida Doberty, Miss E. Phillips and Messrs. Adam Johnston and Howard Shannon. They embarked together in a large rowboat, and all went well during the early part of the day. In the afternoon shortly after 2 o'clock the boat containing Howard and Johnston and the two girls was shoved out from the bank and the party enjoyed themselves in rowing about on the river just above the dam. The boys managed to turn the bow of the boat towards the left bank, but the current striking it broadside carried it over the dam to the horror of their companions, who were powerless to help. The boat went over with a plunge, and when it emerged from the foaming waters below young-Shannon and Miss Phillips were seen CLINGING TO ITS SIDE. CLINGING TO ITS SIDE.

CLINGING TO ITS SIDE.

They were taken out of the water about 300 yards below the dam by Mr. Thomas Lewis, of Hyde Park, with no greater injury than a wetting and a shock. The other two occupants of the boat were not seen afterwards. No time was lost by the men in the vicinity in grappling for the bodies and stationing watches along the bank, but as the missing ones did not appear the watchers arrived at the conclusion that they were lying at the bottom of the river near the dam, being held there by the strong undercurrent.

Mr. Thomas Lewis, to whose presence of mind the two survivors owe their rescue, mind the two survivors owe their rescue,
was interviewed by an ADVERTISER reporter, and modestly told the story of the
calamity and his rescue of the survivors.
He was sitting on the veranda of the

He felt that

SOMETHING WAS WRONG, e of g in and started for the river bank the when the boat was drawn toward the dam n of a second time, but before he could leave anothe cafe the craft had shot over the dam. Running as fast as he could to the bank below, he jumped into an old skimmer and pulled down the river to the excursionists' boat, to which Shannon and Miss Phillip's were clinging. The two had made a desperate struggle for life, and Shannon had his arm around the girl to strengthen her hold on the boat. Mr. Lewis cautioned them against attempting to climb into his light craft, and told them to hold on to the side. They followed his instructions, and were towed to the shore and landed safely.

They found it impossible to locate the ball and cannot state the probable result for 48 hours. The sufferings of the poor little fellow have been great. How the accident occurred is a complete mystery. The house is near the railroad track, but a high bank intervenes and the shot could not have been fired by anybody in that direction. From the position in which his son stood Mr. Fortnier believes the person who fired must have been directly in front of the house. Whether the unfortunate affair was an accident or not there is nothing to show, but the belief is that some boys were out shooting and that there is nothing to show, but the belief is that some boys were out shooting and that a stray shot hit the boy instead of some object which the inexperienced marksman aimed at.
