Springwood Park

Great Changes at the Park

We have been busy staking out roads, pulling down fences and barns, painting houses, and making everything ready for you to inspect the park and see for yourself how pleasant a spot it is. Come out and spend a cool afternoon with us. The Wellington street south car line takes you to within 300 yards of the property

An Office on the Property

We have opened an office on the property where Mr. D. H. Porter, our agent, will meet you and show you the park, explaining everything to you. The phone number is 2483.

City Conveniences

The city has already grown past Springwood Park; thus the park has city conveniences, with healthful, pure, fresh air—ci+y location at suburban prices—city possibilities without city objections.

It Has To Come

London has a population today of 50,000. The person lives who will see it two or three times its present size, with a population of from 100,000 to 200,000 and an area four or five times its present area. Where will the city limits extend to at that time? What price will be asked for land at present on the city limits?

What Will Happen

This is Canada's century. As Canada grows so must the chief distributing point for Western Ontario grow proportionately. London is the hub of Western Ontario-the Geographical centre, the Railroad centre, the Financial centre. Money invested in London Real Estate at present prices will multiply many times.

Choose Your Investment

Two hundred dollars placed in the bank earns you 3%. Some rainy day it is drawn to meet an unexpected

expense and is gone. Two hundred dollars invested in stocks in some cases pays you a dividend, and more often does not. The stock may go up a few points, but if it goes down you are invariably "wiped out."

Two hundred dollars invested in First-Class Real Estate in London would buy you only from 10 to 20 feet of land, which would be useless to you.

Two hundred dollars invested in Real Estate in "Springwood Park" will secure for you one of the first-class lots, varying on frontage from 30 feet to 260 feet, and upon two of which are situated solid brick residences. Any one of these lots will be worth while owning. Most of them are worth more than \$200; none less.

Let us mail you our booklet, which explains this more fully to you. Come out and see the park, and satisfy
