GARRISON OF 40,000 TO MAINTAIN ORDER THROUGH IRELAND

Provisional Government Outlined by Lord Lansdowne.

COMMISSION IS NAMED

Lord Castletown, Sir David Harrell and Three Justices Appointed.

LONDON, July 11.—8:15 p.m.—In the course of a discussion in the House of Lords today on the report of Baron Haldane, head of the commission which investigated the Irish rebellion, and in which several members urged that Augustine Birrell, former secretary for Ireland, ought to have been named as the only responsible person for the Sinn Féin outbreak, Lord Lansdowne outlined a system for the provisional Government of Ireland, when a new law is abolished there and until a new government can be established.

An Irish secretary, with a capable military adviser, would be appointed. There would be a new chief of the Royal Irish Constabulary, who would be a well-known soldier.

Garrison to Maintain Order. Nobody would be allowed to carry arms without a permit, and there would be no reprisals. A garrison would be maintained in Ireland strong enough to preserve order and special safeguards would be created for the loyalists in the south and west.

Lord Lansdowne said he understood the Sinn Féin movement was waning and that he had anticipated the possibility of a bill embodying the settlement would occupy considerable time.

Gen. Maxwell in Charge. Lord Lansdowne thought that with 40,000 troops in Ireland, under the command of General Maxwell, in whom the Government had unabated confidence, there was no fear of the situation getting out of hand. The Government would give General Maxwell all the support to which he was entitled and was quite prepared to extend his powers to meet any emergency.

The Official Gazette tonight announces that Lord Castletown and Sir David Harrell, former under-secretary for Ireland, with Justices Cherry, Wylie and Fynn of the supreme court of Ireland, had been appointed to form a commission to inquire into the Irish situation during the vacancy in the office of the lord lieutenant. The appointments are understood to mean that the lord lieutenant's powers are being placed in the hands of a commission until a new government is established in Ireland.

BRITISH LINE NOW CONNECTED UP WITH THE MAMETZ WOOD

Germans Continue Shelling Their Old Trenches.

GOOD INDIVIDUAL WORK

Britishers Do Spectacular Sniping in Clearing Wood of Foe.

PRESS CAMP, British army in France, July 11.—6 p.m.—Via London. July 11.—8:35 a.m.—At headquarters this afternoon the Associated Press correspondents were shown a map with correspondence from the front. The German line was shown as having been broken in several places. The evening reports show the British line established beyond Contalmaison and connected up with the north edge of Mametz wood.

The Germans continued shelling Contalmaison today, and all their communications trenches, grid-ironing the British positions which might give the British success.

Prisoners taken at Contalmaison speak of being under artillery fire so thick and persistently maintained that it shut off all food and water supplies, and say that when the fire lifted the survivors were too dazed for anything but to crouch.

The capture of Contalmaison was the result of a series of attacks. The British line was pushed forward by the use of gas, and the German line was broken in several places.

The continued drive weather increases the dust clouds raised by the bursting shells, adding to the obscurity as to the exact positions of the combatants from hour to hour.

Another bit of shell-mailed farm land has been won by the tireless guns, which helped the men to hold it.

WOULD BEGIN TO PREPARE FOR THE NEXT STRUGGLE

Sir Rider Haggard Says Germany Will Try To Crush Britain.

EDMONTON, July 11.—Sir R. Haggard addressed an audience here last night on the question of settlement of the war. He said that the British Empire would be the end of the war. He believed, Germany would rebuild and strengthen with one great object in view—crushing finally of the British Empire. The only way to be prepared for this was by keeping every possible man within the Empire, and seeing that none, as in the past, drifted away to foreign countries.

There can be seen from the station at McBride, on the Grand Trunk Pacific, a peak 8,000 feet high. In honor of Sir Rider Haggard, who passed this route from Vancouver to Edmonton, this peak is to be named after him, at the suggestion of Grand Trunk Pacific officials, and application has been made to the geographical board to have the name confirmed.
