

LOCAL INTELLIGENCE.

Tuesday, August 23.

SPRIOUS OFFENCE—Yesterday morning a Sergeant of Marines belonging to the U. S. steamer Saranac was shot through the thigh by a sentry belonging to the ship under the following circumstances: It appears that sentries had been posted round the wharf and the offender, who was stationed near the gate, having lost the use of his senses from drink, left his post and went into the street where he commenced jumping about and brandishing his loaded rifle in the air, using at the same time insulting language towards the service to which he belonged. He was spoken to by two of the officers but gave no heed to their remonstrances, and a Sergeant was thereupon sent to arrest him. The culprit however presented his bayonet at the Sergeant and refused to allow him to approach. The upshot of the affair was that the marine became incensed and rushed with his weapon at the Sergeant; the latter turned round to allude him when the marine fired wounding the Sergeant in the thigh. The injured man was at once conveyed on board his ship where his wound was dressed and the marine was arrested by officer Farrell. The U. S. Consul applied to the Governor to allow the man to be handed over to his own authorities, but we did not learn whether the request has yet been complied with or not.

LEACH RIVER—A miner named Sadler, who came to town on Saturday night, was yesterday exhibiting a fine nugget worth \$21 taken out at Leach river. He has been at work about two months, and we understand has about \$1,500 to the good. The Mountain Rose, two miles above the Forks, are reported to have washed out 36 ounces of gold to six hands last week with every prospect of doing much better.

A REFRATORY SEAMAN—William Smith appeared in the Police Court yesterday, charged by Capt. Archer, of the Philomela, with using threatening language towards him. A second charge of broaching cargo was also preferred against the sailor, and the accused was remanded for one day.

VAGRANTS—Andrew Hunter was charged before the Police Magistrate yesterday by acting Inspector Blake with being a vagrant, and Tom Sullivan, by special officer Barnett, with being a suspicious character. Both were remanded for one day.

DEBERTERS—Several seamen belonging to the U. S. S. Saranac have deserted since the arrival of that steamer in Esquimalt. Some of the number are represented by the officers of the ship to be worthless fellows.

THE U. S. S. SARANAC will proceed this morning in search of the Shenandoah. We hope she will succeed in putting an end to the depredations of this noted cruiser.

WEDNESDAY, August 22.
THE INJUNCTION CASE—The Chief Justice was engaged all day yesterday in hearing the affidavits and arguments of counsel on the injunction sought to be obtained by A. D. Bell against the proprietors and publishers of the Vancouver Times. The case was not concluded, and will be re-opened to-day.

SALT SPRING ISLAND—We learn from Mr. Begg, who has just returned from the above settlement, that the crops on the island are looking splendid—at least 50 per cent. better in quantity and quality than they were last year. Mr. Begg saw on one farm some wheat yielding 52 bushels to the acre.

BANK IMPROVEMENTS—The Bank of British Columbia now occupy the new and spacious premises erected in rear of the old office; the entrance being as formerly from Government street, corner of Bastion.

GIVEN UP—The man Collins, who shot the Sergeant of Marines, was yesterday handed over by our Government to the officers of the U. S. steamer Saranac.

THURSDAY, August 24.
BRITISH COLUMBIA GRAIN—We were yesterday shown by Mr. B. Griffin a splendid sample of wheat in the ear brought to this city yesterday by Mr. Patch of British Columbia. The grain was raised on Barrs' Ranch, two miles below Lillooet, from Salt Lake City seed. There are about 75 acres of wheat and a large quantity of barley growing on the farm in the finest order. Mr. Patch estimates that the immediate neighborhood of Lillooet will yield this season about 12,000 bushels, averaging probably as high as 35 bushels to the acre.

REAL ESTATE TAX—We understand that an opposition is being organized to the payment of the one-half of one per cent tax which Mr. W. J. McDonald has been authorized to collect, and money is being raised to defray whatever expenses may be incurred in resisting it.

PUNISHED—The seaman named James Smith, belonging to the Philomela, charged with refusing duty, was yesterday sentenced by the police magistrate to four weeks' imprisonment and to forfeit two days' pay.

THE TELEGRAPH—Communication has been opened between New Westminster and Hope, and in the course of another week it is expected that the connexion will extend to the regions of Soda Creek and Quenellemouth.

DISPATCH—The arrival of the Sierra Nevada at San Francisco yesterday morning was telegraphed to New Westminster and reached us by the Enterprise in the afternoon.

SEVERAL parties have been summoned for contravention of the act for the protection of the bridges.

Friday, August 25.
THE U. S. S. SUWANEE, Commander Paul Shirley, arrived in Esquimalt harbor yesterday afternoon, in the short space of three days and 12 hours from San Francisco, in search of the Shenandoah. She saluted the Admiral's flag, the compliment being acknowledged by the Sutlej and Clio. The Suwanee is a double-ender iron vessel, made to sail either way, 1030 tons burthen, 1000 horse power and carries 12 heavy guns. The following is her list of officers: Commander, Paul Shirley; Lieutenant, Louis Kempff; Asst. Paymaster, J. Appleton Berry; 1st Asst. Engineer, W. G. Buehler; Asst. Surgeon, D. Mack, Jr.; Acting Master, H. Lapham; Acting Ensigns, Jeremiah Potts, W. B. Atrants, R. B. Crapo, W. J. Herring; Gunner, C. W. Horner; 2nd Asst. Engineers, Thos. LaBlanc, D. W. Grafty, C. M. Van Tine; Acting 3d Asst. Engineers, W. H. Wingate, August Asbjornson; Commander's Clerk, F. Klapp; Paymaster's Clerk, J. J. Gilroy; Mates, S. H. Johnson, D. Ward, C. J. Murphy, R. H. Collins.

RIFLE SHOOTING—The following is a list of the members of the Rifle Corps who, after firing 20 rounds each at the butts, have been selected from the whole corps as the ten best shots to meet ten members of the Fleet: Messrs. Pearce, Vinter, Homfray, Thompson, Wrigglesworth, Newberry, Bowden, Wilson, Peele, Long and Alsopp. (The two latter being ties to shoot off.)

FROM NANAIMO—The steamer Diana arrived yesterday afternoon from Nanaimo by way of San Juan Island. She brought down Mr. Nicol, Manager of the V. I. Coal Co., Mr. C. W. Wallace, Capt. Bazalgette, and others. The Carlotta arrived from San Francisco on Thursday and was discharging ballast. The Isaac Jeans was loading.

FOR SKENNA RIVER—The stern-wheel steamer Union, Captain Coffin, has been chartered by the Collins Telegraph Company to proceed with Mr. Burrage and others to Skenna river, with a view of opening a trail for the conveyance of provisions and stores to Fort Babine.

FOR NANAIMO—The schooner Goldstream, Hewitt, sailed last evening for Nanaimo. Sergeant Blake went by her, having been detailed to act as police officer for that place.

FROM COWICHAN—The schooner Thornton arrived yesterday with twenty tons of hay from the farm of Mr. H. Mariner of Cowichan.

SAILED—The brig Brewster sailed yesterday morning for Bellingham Bay to load coal for San Francisco.

Saturday, August 26.
THE ALEXANDRA CASE—Mr. John Gastineau, Civil Engineer, desires us to correct the report of the Alexandra and Fidelity Admiralty suit published in yesterday's Colonist, in so far as it relates to his testimony. He says I am made to state that the plan made by me and produced in Court "was infinitely more correct than the Admiralty chart." What I stated was that the plan which was of only a small part of the coast was more correct than a plan on such a large scale (about eighteen times the size) would be, that it was from actual surveys, and all prominent parts were checked by observation on the ground. I much regret that this error has occurred as I consider it an insult to Captain Richards and other officers of the Surveying Department, the accuracy of whose work is unquestioned.

DEPARTURE OF OLD FRIENDS—The stmr. Orizaba yesterday took away Mr. and Mrs. G. M. Sproat, Mr. C. W. Wallace, Mr. E. G. Alston and the Misses Penrice, Mr. and Mrs. Cruickshank, Mr. A. Welsh, Capt. Henderson and others. A large number of friends were present to bid them adieu.

THE ORIZABA arrived yesterday morning at 6:30 a.m., and left Esquimalt harbor in the evening shortly before 7 o'clock for San Francisco direct.

EARTHQUAKE—At a quarter past nine o'clock last night two distinct shocks were felt oscillating from North to South. A few seconds intervened between the first and second shock.

Monday, August 28.
ARRIVAL OF THE ANN ADAMSON—MORTALITY AMONGST THE CREW.—News was received in town last evening from Mr. M. Muir, of Sooke, of the arrival of this long expected vessel from England. The Ann Adamson sailed on the 4th January, and has been nearly eight months on the passage. Her crew have suffered fearfully from scurvy, four of them having died within the last week, and the rest so much reduced that Captain Sutton was unable to navigate his vessel, and consequently anchored off Sooke Harbor, sending word to his agents, Messrs. Dickson, Campbell & Co., of this city, of his helpless condition and requesting the aid of a steamer. The Diana started last night for Sooke to tow her to port, taking the pilot boat with her. According to the account received the vessel was in such a helpless condition that the services of the female passengers on board were required to enable the master to reach anchorage. The ship's manifest is published under the proper head.

CALIFORNIA NEWS.

(From the Columbian.)

SAN FRANCISCO, August 23, 3 p. m.—Eastern line is down between here and Julesburg. It will probably be in working order to Omaha this evening or to-morrow morning. The Collector of Customs has received a communication from the Assistant Secretary of State, covering dispatch from U. S. Consul at Port Mahon, dated May 31st, in which he says that he has learned from various sources that the Russian plague is extending westward more extensively than is generally supposed. The Consul suggests that all vessels arriving in the United States from Russian and Turkish ports be subjected to a rigid scrutiny before landing, especially all articles of clothing, &c. The disease is said to be the same as that which visited London over a century ago. Major Coon has taken the necessary precautions to guard against the introduction of the Russian plague, and all other infectious diseases in this city; though so far as the plague is concerned little precaution is necessary, as further investigations have shown that the first reports regarding this disease were greatly exaggerated. The health officer has instructed the pilots to keep close watch for all diseases of an infectious character in vessels which they board, and as for vessels from Russia, there is not on the average more than one arrival in six months to this port.

William Millan, while driving from the Mission last evening, was thrown out of his wagon and very seriously injured. His thigh bone was fractured in several places, and protruded through the flesh.

John McCarthy has been arrested for falsely personating a police officer, and for assault and battery.

The deposits at the mint amount to 673 deposits, making 19,000 ounces, all in dust, equal to about \$285,000. A large portion of it came from the northern mines by the Sierra Nevada.

SAN FRANCISCO, August 24.—Thos. G. Loehrs, late clerk of State Prison, was arrested yesterday p. m., at Gautier House, where he has been concealed since his flight, when he first confessed his guilt to Gov. Machin. He pretended to make a clean breast of everything, and with tears and protestations declared the statement then made was full and correct in every particular. From circumstances which have come to light it seems that Loehrs must be one of the most confirmed hypocritical villains that ever lived.

Many of the friends and relatives of Captain DeWolf, of the Brother Jonathan, have recognized the man described in last night's Bulletin as having been found by Indians and buried by Lieut. Tuttle, 4 or 5 miles off Trinidad, as Captain DeWolf's body, beyond a reasonable doubt.—A man named Fitzpatrick, belonging to S. F. and Alameda R. R., fell from the platform of a car and was killed. Thos. Nesbit, brother of the late Jas. Nesbit, who was lost on the Jonathan, has received a letter from a gentleman at Crescent City, notifying him that among papers found upon the body of Jas. Nesbit was a will, written in lead pencil, and evidently written after the ship had struck. The will makes his brother sole executor. This is an unusual instance of self-possession and thoughtfulness in the hour of deadly peril.

A complimentary benefit has been tendered to Thomas Maguire by leading citizens. Mr. Maguire has lost about \$20,000 on the Italian Opera season, which will close to-morrow evening.

MARKETS.
Legal Tenders, 74 @ 74 1/2.
Candles, Knapps, 20c.

There has been a speculative movement in chemical materials used for mining purposes, and they have advanced within the last few days. 100 tons of blue vitriol have been sold, and the price has risen from 12 1/2c to 16c. It is supposed that the Nevada and Reese river quartz mills will require 500 tons this fall, which will take about all that is in the market, and what is on the way here.

Coal Oil—Sales to arrive, \$1 25.
Rum—New England, about \$1 50.
Sugar—Brisk, at full prices.
Flour continues dull; \$5 50 @ \$5 75 for extra; \$5 25 @ \$5 50, superfine.
Wheat—Receipts light, \$1 65 @ \$1 70.
Barley—\$1 @ \$1 02.
Oats—Dull, \$1 50 @ \$1 55. Sales, 530 sacks.
Hay—\$15 per ton.
Wool—12c @ 13c.
Sailed, August 24—Bark Vidette, for Puget Sound.

JACKSONVILLE, August 24.—The following is an extract from a letter to the Oregon Sentinel: Found near Crescent City, from August 17th to 20th: No. 42, a white woman about 45 years old, 5 ft. 8 in., rather fleshy, light brown hair, long, mixed with grey; dark woolen dress, bottom embroidered with red, black buttons, gold ring, mended with a piece of silver. No. 43, a white man, 35 to 40 years old, 5 ft. 4 in.; hair on face black, good teeth; had on purple pants, pegged boots, half-soled, one gold hunting watch with vest chain attached, 1 ladies' gold watch, with guard chain, 1 silver watch, 4 trunk checks, Nos. 5, 34, 81 and 84. Coin in pocket amounting to \$20-75c.; had on also a black vest and white overshirt.

FOUND FOUR MILES BELOW TRINIDAD.—The body of Isaac Weil, brother of David Weil, Portland. Also a young lady, supposed to be Miss N. Shiryser. Found at Gold Bluffs, a white man 6 ft. 2 in., weight about 180.—The supposed killing of a man near Klamath River, who came ashore on a piece of the Brother Jonathan, is untrue.

CRESCENT CITY, August 20.

I was witness to the finding of a body of one of the passengers of the Brother Jonathan on the 15th inst., near Chetkoe Creek, Oregon, a few miles above the boundary line. He was a full-sized athletic man, dark red hair, goatee and whiskers under chin, features large, round and rather heavy; wore only a knut pair of drawers and pants and a life-preserver. In his pockets we found a comb, a ten collar piece and two small papers, much worn and torn; we also took from his finger a gold ring, with the device of a double heart, and inside engraved the name S. Irwin. One of the papers was an invoice of mens' and womens' clothing on board the steamer Golden Rule, with the price of each article. The other paper contained the following: "John B. Ferguson, N. E. corner of Howard and Thompson streets, Philadelphia, to John Irwin"—the item for which Ferguson was indebted to Irwin did not appear—were torn off. (Signed) SHERMAN DAY, 57, Montgomery Block, San Francisco.

CHINA AND BOMBAY.

By the arrival of the bark Mermaid, 31 days from Shanghai, we have files of papers from that city to July 20th and Bombay advices to May 23d.

Chinese news presents no features of interest. The papers were calling attention to the necessity of preparing for the expected advent of the Russian plague by cleansing the city.

The Bombay Bazaar says losses in that city, consequent upon collapse of cotton bubble, amounts to not less than one hundred and fifty million dollars, and ruin is wide-spread and overwhelming.

Advices from Shanghai state that the American steamer Fox-Skin went ashore at the mouth of the river on the night of the 13th July, and was a total loss. Officers and crew saved.

MEXICO.

(Special Dispatches to the Columbian.)
NEW YORK, Aug. 6.—The Times' London correspondent says, the news from America is likely to make some stir across the channel. It is believed here that some thousands of Southern soldiers are already in the army of Maximilian, and that the Emperor Napoleon finding such a body of recruits at hand, will not be under the necessity of sending reinforcements across the Atlantic.

John C. Breckinridge was expected in London, July 25th, on his way to Paris, accompanied by several Confederate officers, whom it is supposed will volunteer for Mexico, sure of being joined by numbers of their late comrades.

DIVORCES—Frances Wysham was divorced from her husband, George W. Wysham, on Friday, 4th August, by Judge Dinwelle, of the Fifteenth District Court, San Francisco. Cause—desertion.

COMMERCIAL.

HOLLOWAY'S PILLS AND OINTMENT—Stomach and Kidneys. Between these two organs there exists a close and intimate relation which is demonstrated by the wasting which occurs in all diseases afflicting the kidneys. The disordered stomach is often the first index of renal irregularity. Holloway's remedies tend at that juncture would cut short many a serious and fatal attack. They act with wonderful efficacy on every organ of secretion, but especially do they regulate the stomach, liver and kidneys, in restoring their healthy functions, and causing out any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed, and greatly augments the purifying and salutary influence of the Pills.
