children in the house alone, and one of them in her absence was burned to such extent that she died shortly after. The testimony brought out that the prisoner is somewhat addicted to drink and has been known to be the victim of temporary fits of insanity. Mr. G. G. S. Lindsey defended the prisoner and Judge Macdougall took the case from the jury and entered a verdict of not guilty. Before discharging the prisoner he gave her some timely counsel to be warned by the calamity which had taken away one of her little ones and leave drink alone. Annie Heath of Portland states that her face was disfigured by eruptions, but she regained her former pure complexion by using Burdock Blood Bitters.

The jealeusy of the general practitioner of medicine in Toronto has been aroused by the success of the advertising specialists, and is the sole reason why they take the negative side of the question, "Is it right for doctors to advertise their specialities!" This question is wrong and can only be taken on purely selfish grounds, as any one with common sense knows that a specialist who makes particular diseases his special study will be more competent to deal with them than the general practitioner, who treats all the diseases known diseases his specialist who makes particular diseases his special study will be more competent to deal with them than the general practitioner, who treats all the diseases known to man. Below we give an illustration wherein a party was perfectly cured by an advertising specialist. Mr. John Stitt of No. 238 Ontario-street, had been for years treated by general petitioners of medicine, and had grown from bad to worse until his case was to him hopeless. He was so bad he had to abandon his work, but he noticed the advertisement of the Medical Institution for the cure of Catarrh, Dyspepsia and Chronic Diseases, located at 198 King-street west, and resolved to give them a trial. Mr. Stitt had chronic dyspepsia, his appetite was gone, he had nesty pains and burning sensations in his stomach, attended by occasional vomiting, was bloated had palpitation of the heart, headache, dizziness, pain in the back, felt worn out on the least exertion, had no ambition. After a short course of treatment he was entirely cured and is now a well and happy man. He can be seen by any one who wishes to call on him and will gladly tell his story.
