DR. HARPER TELES THE STORY OF HIS MINISTERIAL LIFE.

Long Circuits, Small Pay, Long Credit and Sixty-live Bundred Sermons-Important Reports Rend-Well-known Visitors Introduced, Among Them the Most Popular Preacher in Canada, The feature of yesterday morning's session of Some business was, however, de spatched. The report of Albert College was read and adopted. It stated that there are at present 200 attending the college, which is an increase of twenty per cent, over last year. The Committee churches wished to dispose of the whole or a part of their properties: Euclid-avenne, Dovercourt, St. Clarence-avenue, Ernest-avenue, Monkman Church and Forest Home Church. It was moved by Rev. W. T. Hieks, seconded by Rev. R. N. Burns, "That the hearty thanks of the conference be lendered to the Sabbath schools and young people's associations of Toronto for the very happy and enjoyable reception given to the members of the conference on Thursday, June II, and that we request the pastors of the several churches to convey to the parties concerned this expression of our appreciation."

A deputation from the Women's Foreign Missionary Society, composed of Mrs. Willimott, Mrs. 6fooderham and Mrs. Dr. Alkins, waited upon the conference, Mrs. Willmott, in a short address, described the work of the society. In a motion proposed by Warring Kennedy and seconded by Dr. Barrass, the conference expressed its approval.

motion proposed by Warring Kennedy and seconded by Dr. Barrass, the conference expressed it is approval.

Rev. W. T. Hicks presented the report of the Temperance Committee in the form of a resolution that read as follows: "Resolved, that this conference desires to express in the strongest manner possible the cordial approval of the prohibitory resolution now before the House of Commons, and calls upon the members of that body to support it and to discountenance and vote against any amendment that may be pioposed to the resolution as presented to the flouse. Resolved, that the president and secretary of the conference communicate to each member of the House of Commons whose constituency is within the foregoing resolution." Carried.

The roport of the Statistical Committee show. The roport of the Statistical Committee show there are 32,654 members, an increase of 1822 during the year, and the expenses are \$100,151, and increase of \$4548.

Dr. Harper was then called upon to address the conference. He quietly and medestly told of the work that he has done. He has preached for 50 years. During that time his sermons numbered 6500; to preach these conferences he land to travel 80,000 miles. Nowadays some men may have to fill perhaps three or four appointments and to cover 10 or 15 miles. His first circuit was 47 miles long, and in it were 11 stations. Now the means of traveling are good. Then the only means were on horseback or on foot. It is easy now to find material in volumes of sermons, numberless commentaries and books of travel. Then the pracher's only resources were the Bible and his own brains The decote concluded his hour's speech by stating that a few years ago the Ryersons were few. To-day, on account of the resources at hand, there are Ryersons altabut us.

Dr. Dewart, ha au aut speech, moved: "That this sected the search head with numer skits action the Bev."

the resources at hand, there are Ryersons all about us.

Dr. Dewart, in an apt speech, moved: "That this conference heard with inneh satisfaction the Rev. Dr. Harper's interesting retinitiscences of his 30 years' ministry in the Methodist Church. We thank 60d for the tokens of His presence and favor that have crowned the labors of the fathers who laid the foundations of Methodism in this country, and we earnestly pray that in his retirement from active work our venerable brother may continue to experience the presence and blessing of that 60d who has been his Guide and Helper through the years of his long and successful ministry." In seconding the motion Dr. Briggs said that he could testify to the influence for good that Dr. Harper has exerted. Dr. Harper has been a stay to the church, and while he was always ready for all commendable reform, he has stood with unswerving fidelity to the doctrines and the teachings of the church.

The following visitors were introduced to the Conference: Rev, Dr. Fawcett, Chicago: Rev. Wm. Patterson of Cooke Schurch (Presbyterian); Rev. Dr. Wild, Rev. S. Bond of the London Conference and Rev. R. W. Woodsworth and Mr. G. W. Calvert of the Niagara Conference.

ward to this holiday time of the year! Many are already speculating as to how and where
this time will be spent. Many of the robust
and healthy will go to the seaside, some to
quiet country retreats, and others to the best
fishing points, to enjoy a well-earned season
of rest and recreation.

The largest and finest picture on the continent;

fishing points, to enjoy a well-earned season of rest and recreation.

Hundreds of less fortunate mortals who have also the privilege of a vacation time are already in a condition of doubt and fear; they are anxious to use and improve their holiday time, but in their present state of health they know well that they cannot the recipity enjoy themselves.

They are brain weary, nervous, listless, languid, irritable and dyspeptic. In this condition these poor sufferers can never make themselves happy with a uncation time.

If immediate attention is given, and the proper means used for their restoration to health, there is every prospect of their being enabled to go forth to country or seaside quite as able to enjoy themselves as any others who may go there.

To this class of sufferers Paine's Celery Compound offers the perfect health so necessary for all pleasure-seekers. This grand preparation will make the nervous as steady as a rock; it will clear the clouded and waary brain; it will build them up in flosh, bone and muscle; it will give sweet sleep and give tone to the appetite and banish dyspepsa. Paine's Celery Compound is the only agent hat can accomplish this desired result and give to all the true pleasure and comfort they should enjoy in vacation time.

The handsome man always admires the beautiful woman. Then simply make yourself beautiful. Remove all blotches, pinples, "forked signs of turkey tracks" from your features, by the use of Dr. Pierce's Tavorite Prescription, a tonic to the nervous circulatory and procreative systems. Its use brings roses to the cheeks and sparkle to the eyes. Take it, and you will like the Indian matden, find a "red ear" in good health, an onen of ruture happiness. Guaranteed to give satisfaction in every case, or money paid for it refunded.

Editor World: It is really a scaudalous shame to see the numerous narrow escapes from seri ous accidents witnessed daily in the Queen-street subway. This death trap is sooner or later go-ing to be the scene of another fatal accident. There are hundreds of ladies who have to wheel There are hundreds of ladies who have to wheel their baby carriages through this dangerous subway, many of them having small children accompanying them on foot. Scarcely a day passes but some spirited horse becomes scared at the escaping scoam or noise of the passing locomotives. The nariowness of the roadway with a street car and vehicle passing at the same time and two or three baby carriages makes it a most dangerous place to be entrapped in. A little money spent in widening and the removal of the horrid steps would be a step in the right direction and will probably save the city many thousands of dollars danages and prevent the slaugh. tion and will probably and prevent the slaugh-ter of innocent bables and those in charge. The High Park entrance is another matter which needs the immediate attention of our members.
