THE PARTY OF

An Opportunity

No City on the American Continent is in greater need of additional modern hotel facilities than Montreal, Canada.

With the Railway and Steamship lines bringing thousands of people into the City daily on business and pleasure, supplemented in the Summer season by an unusual motor traffic, immediate relief is needed in the way of increased hotel

To meet this demand "THE MOUNT ROYAL" is now being built. Upon completion it will be not only the largest firstclass hotel in Canada, but the largest in the British Empire, and will contribute in a great degree to Montreal's prestige as a Tourist City and business centre.

The 8% convertible debentures of The Mount Royal Hotel Company, Limited, carrying a 30% bonus of Common Stock, offer a rather unusual opportunity for a safe and profitable investment.

FOUND STOLEN AUTO

From the position of the car, whi was lying partly on its side in a ditch beside the G. T. R. track, near Brant-ford, it is believed that the automobile crashed through a fence on the em-bankment at the overhead bridge and aping through the air for 20 feet landed and then pursued its course for 75 feet farther before it was stopped. No damage was done other than the breaking of the fan. Single tracks, as of 4. man leaving the car, were noted leadhad with Mr. Young regarding the local situation was with reference to the former accepting a paid situation with the London Liberal camp for the election. He stated that Mr. Young asked his advice about this and he advised Mr. Somerville is not known, but it is freely hinted that something will be done shortly.

The advice which I W. Herry is said it when the accident occurred.
