Whooping Cough.
"Is February our daughter had the whooping cough. Her mother, of Harris Brook, recommended Chamberlain's Cough Remedy and said it gave his customers the best of satisfaction. We found it as he said, and can recommend it to anyone having children troubled with whooping cough," says Mrs. A. Goss, of Durand, Mich. For sale by A. WARREN, BRIDGETOWN, W. WADE AND BEAR RIVER DRUG STORE, BEAR RIVER.

Belle Isle.
What is hoped to be an annual gathering was held in Belleisle Hall last Thursday evening. It was a congregation of "At Home" of the congregation of St. Mary's Church. It was to have been held in the winter but stress of weather then prevented, and on Thursday many were debarred from attending by sickness and other causes. Those, however, who were able to be present agreed that a very useful institution had been inaugurated. The gathering took the form of a good old-fashioned tea, followed by conversation and games. The whole affair was under the management of a splendid working committee, and tentacles never looked more daintily inviting than those that greeted the eye on this occasion. After ample justice was done to the good things thus provided, the company settled down to be really "at home" to one another. Each seemed related to the other by more than ordinary ties, and it was generally felt that such a gathering, as this once a year would do much to strengthen the bond of fellowship existing between the various members of the congregation. These sentiments were voiced by the Rector toward the close of the evening in a brief speech.
It might be mentioned in this connection that the new brass chandelier recently placed in the hall, not only looked very handsome but gave...

Tired nerves, with that "no ambition" feeling that is commonly felt in spring or early summer, can be easily and quickly altered by taking what is known to druggists everywhere as Dr. Shoop's Restorative. One will absolutely notice a changed feeling within 48 hours after beginning to take the Restorative. The bowels get sluggish in the winter time, the circulation often slows up, the kidneys are inactive, and even the Heart in many cases grows decidedly weaker. Dr. Shoop's Restorative is recognized everywhere as a genuine tonic to these vital organs. It builds up and strengthens the worn-out weakened nerves; it sharpens the failing appetite, and universally aids digestion. It always quickly brings renewed strength, life, vigor, and ambition. Try it and be convinced. Sold by ROYAL PHARMACY, BRIDGETOWN, BEAR RIVER DRUG STORE, BEAR RIVER.

EpIDEMIC OF TYPHOID IN BOSTON.
Boston, Mass., April 21.—The report of forty-two cases of typhoid fever in Boston today, with four deaths within the past twenty-four hours would seem to indicate that the epidemic which has swept over the city the past few weeks has not been as yet checked. In fact the authorities today announced that the sale of milk by one big contracting firm in East Boston had been stopped, as it was found the milk was coming from the same source that started the epidemic in Jamaica Plains last month. Up to tonight the total number of cases reported since January first was five hundred and ninety-nine, or twenty more cases than the number for the entire twelve months of last year. For the same period has been twenty-five typhoid fever deaths. Practically all the cases and deaths have occurred within the past two months, dating from an epidemic which started in Jamaica Plains about two weeks after the first cases were discovered. It was believed a milk...

CROP NEWS FAVORABLE.

Crop news continues most favorable and at present everything points to a large acreage and bumper crops of wheat, corn and cotton. The effect of good crops or bad crops will probably be more far reaching than usual. Good crops will have a good influence on every listed security. Traffic for railroads, purchasing power for individuals, and communities, work for manufacturing concerns, of every variety, are all largely dependent on the various products of the soil. The usual caution and fright due to the recent panic can be more quickly dissipated by good crops than in any other way so that developments in this respect will be watched with the greatest attention from now on.
