SHALLOW LAKE, ONT.

Our Celebrated **Samson Brand** has been before the public for many years, and has made hosts of friends among Contractors and Municipal Corporations until it has become one of the leading Cements on the market to-day, being excelled by none. This year we have decided to place the **Magnet** on the market, and respectfully ask consumers to give it a trial. It will, we think, do its own advertising.

The Oiling System of our engines consists of an oil reservoir, piped to a sight feed valve at each bearing, one valve controlling the supply to all bearings. The main bearing has self-oiling rings in addition to the sight feed valve. The crank pin is oiled automatically by oil from main bearing, and also by a sight feed valve on main bearing cap. All oil is caught in crank pit, and, after filtration, returned to oil reservoir.
