Front street to provide proper fire protection to the lower part of the city. Mr. Keating estimates the cost of converting the 800,000 gallon engine at the main pumping station into a high duty engine at \$25,000. The effect of the change would be to increase the capacity of the engine.

Dr. Patterson, provincial health officer, and Major Ruttan, C. E., have made a report to the provincial health department on the Assiniboine river as the source of Winnipeg's water supply. It is recommended that a settling basin be constructed at the waterworks and the supply pumped from it after the sedimentary substances in the water have been allowed to settle.

HOUSES.

A bulk contract has been awarded Schultz Bros. to erect a dwelling house on Dufferin ave., at Brantford, from plans by Hewitt & MacLaren, architects.
