

An exchange says: "Two workmen were discussing serious subjects. Quoth the younger, 'I say, Bill, what are these here stock companies?' 'Well, I'll explain it to yer. You an' Jim an' arf-a-dozen more of your mates put up a penny each and buys two ounces of 'bacca and a clay, then I calls myself the managing director, and I sits down and smokes the pipe and 'bacca. D'ye see?' 'Yes, but where do we come in?' 'On! you're the shareholders; look on and spit.'"

Above all Competitors

COAL is money, why not save it by using the . . .

T. J. C. INJECTOR

the most economical boiler feeder in the world.

20 per cent.

saved in coal over any other make. Absolutely automatic. Easily attached. Applicable to all kinds of boilers.

NOT EXPENSIVE

Will outwear any other make and is simple in construction. It is easy to operate, and is the most powerful feeder in the world.

The T. J. C. Injector

is the best because you cannot possibly go wrong with it. With high or low steam the result is equally satisfactory. It combines the utmost simplicity with perfect efficiency, and any boy can operate it.

THE PARMENTER PATENT DRY KILN

For Drying LUMBER
Staves, Heading, Shingles, &c.

The Latest
The Cheapest
And Best

CHATHAM, ONT., June 19th, 1896.

JAS. S. PARMENTER, Flushing, N. Y.
DEAR SIR: We take very great pleasure in being able to say from nearly one year's use of your Patent Dry Kiln, we find it away ahead of anything we ever yet tried for thoroughly drying lumber without injuring it in the least. So far we have found exhaust steam alone sufficient for our purpose, so that it absolutely costs us nothing to run it. We thoroughly dry white oak, rock elm, balm and other hardwood lumber in less time than we ever did with a blast kiln, and especially find it a splendid kiln for drying white oak hubs. It does its work so naturally that neither hubs nor lumber are injured by it.
