TORONTO.

Telephone 2180.

ADAMANT WALL PLASTER

The New, Cheap and Only Superior Substitute for Common Plaster.

It is very hard and very adhesive.

It does away with the warping and shrinking of doors and casings, and the building is not saturated with water as it necessarily must be when common plaster is used.

It costs originally but little more than lime plaster, and in the end its superior qualities make it immeasurably cheaper.

It saves waiting several weeks or months for the building to dry out.

It does not crack or fall off, even in the case of leakages.

It is applied easily by any good plasterer.

It is the only material with which repairing can be done neatly and "to stay."

ADAMANT MFG. CO.,
