shippers in Persia. "If the brethren civilized land, is given by all disinterwho seek to sectarianize Masonry would (he says) but extend their researches beyond the narrow confines of the 'moni- the Gospel.-N. Y. Catholic Review. tor,' a better idea of the character, scope and object of the institution could be had and clearer ideas prevail. The introduction of dogmatic tests is a canker worm at the vitals of Free Masonry."

Masonry itself, with its ritual and its profession of faith, is a sect; and so much so, that all the other creeds, Christian as well as Pagan, are the same to the good Mason.-Catholic Citizen.

The Oblates.

Two young Englishmen, Messrs. Somerset and Pollen, have published a book called "The Land of the Muskeg," in which they describe their hunting adventures in Athabasca in the far northwest of British Columbia. In one place, speaking of the missionaries of the Order of Mary Immaculate, they say: "These last fill a picturesque place in the history of the country. At almost every fort you will find the neat log house and church of the Roman Catholic Mission; and the priests themselves are all highly educated men, whilst the most of them are of good French, or French-Canadian families. Their influence with the Indians is immense. During the last rebellion the Canadian Government owed much to the missionaries' power for restraining incipient revolt, and every Hudson Bay Company's officer we met was loud and unqualified in their praise, though these officers were to a man alien to

their race and their creed." Similar testimony to the worth and influence of Catholic missionaries in every unested travellers. Our apostolic priests are themselves their best argument for

Diseases of the Chest and Lungs. These diseases are too well known to require any description. How many thousands are carried every year to the silent grave, by that dreadful scourge consumption, which always commences with a slight cough. Keep the blood pure and healthy by taking a few doses of Dr. Morse's Indian Root Pills each week, and disease of any kind is impossible. All medicine dealers sell Dr. Morse's Indian Root Pills.

Searle, the distinguished l'aulist and Professor of Mathematics and Astronomy in the Catholic University of America and Director of said University's Observatory. This book of 360 pages, which appeared only last Easter, has already reached its fiftieth thousand. It is a lucid statement and defence of Catholic belief Financially as well as controversially, it is the greatest success in the annals of English Catholic literature. It is as full of wisdom and wit and practical knowledge as an egg is of meat. The author, while wonderfully correct in doctrine, button-holes his reader in a way that is simply irresistible. His knack of apt illustration shows that the book is no mere result of wide reading, but the outcome of a series of personal experiences. Pay your subscription and get a copy of this admirable book as a gift from us.
