upper part of the beach. A great
majority of the senior officers were
either killed or wounded.
The Turks had turned the landing
places into death traps. There were
entanglements of barbed wire and
the whole length of the shore, with a supplementary
barbed wire network concealed beneath
the surface of the sea. Land mines
and sea mines were everywhere, and
machine guns, cunningly tucked away
in the cliffs, were able to converge
in holes in the cliffs, were able to con-
verge their fire on the wire entangle-
ments.

No Firer Feat of Arms.
"So strong, in fact, were the de-
fences," says the general, "that the
Turks may well have considered them
impregnable, and it is my firm con-
viction that no firer feat of arms has
ever been achieved by the British sol-
dier, or any other soldier, than the
storming of these trenches from open
boats on the morning of the 25th of
April."
Sir Ian Hamilton speaks of "long
lines of men being mowed down as by
a scythe." Of the endless chains of
wire entanglements, he writes:
"Again the heroic wire-cutters came
out. Thru the glasses they could be
seen quietly snipping away under the
hellish fire, as if they were pruning
a vineyard."

MEN OF ALL CLASSES
IN HOME GUARD DRILL
Old men and young men, the dis-
tinguished citizen and the man of
humble birth, turned out last night
with the Home Guards at their arma-
parade at the Pearl street armories.
Within the last two weeks 80 or 90
new recruits have been taken into
the regiment. There are about 18
men from the old city regiments tak-
ing the officers' training course.
Capt. H. V. Douglas was in com-
mand and directed the evening man-
oeuvres.

100 GOOD MEN WANTED.
Men who desire to join the perma-
nent force of Canada and make cer-
tain of a job at the termination of the
war should apply to Lieut. A. D. Co-
rbin, "G" Company, Royal Grenadiers,
from 9 a.m. to 5 p.m. at the armories
or Stanley Barracks. There are vacan-
cies for 100 more good men.

the federal and provincial govern-
ments, and the road's earnings, are
not such as would indicate, in the
opinion of experts, that the system
can easily meet its interest liabilities.
Can Interest Be Paid?
"Much of the bonded indebtedness
falls due toward the latter part of the
present month, and it is therefore
doubtful in railway and financial
circles whether the company will be able
to cope with these obligations. Defe-
rit in payment, it is said, would be dan-
gerous to the Dominion's credit, as
Canada is not in a position to borrow
so freely as she has done in the past.
The danger that the European investor
would be driven from the country if
such a failure came about, is a con-
siderable one. Provincial governments
could not assume their bond liability,
and the whole burden would fall upon the
federal treasury.

STATE OWNERSHIP
OF BIG RAILWAYS

Canada is Facing Grave Crisis
—Borden on Important
Mission.

(Continued from Page 1).
The Canadian Northern Railway,
it is alleged, is not in a much better
position, although it is thought that
the system can tide over the present
depression, its low capitalization and
the excellent territory it possesses.
The government is planning to launch a
new offensive in the west, their aim
being to duplicate their Galician tac-
tics and break thru to Calais at all
costs. Reports to this effect came
simultaneously from Zurich, Zurich,
London and Amsterdam. The Zurich
London papers give them prominence,
although how much is guesswork and how
much is based on facts it is impossible
to determine. According to the
Zurich report ten German army corps,
who have been recuperating in the
interior from the rigors of the Gal-
lician campaign, are now moving west-
ward.

AMES-HOLDEN PLANT
BUSY ON ARMY BOOTS
New Pattern Has Been Given Approval by Dominion Government.
Ames - Holden-McCreedy, Limited, report that their factories are busy on war orders for the Canadian soldiers. These orders are a portion of those recently placed with various Canadian manufacturers by the purchasing commission at Ottawa, for Canadian troops now being outfitted.
This company have submitted a new pattern of army boot to the government, which has been approved and accepted as being the most suitable in point of fitting, comfort and wearing qualities for the requirements of our Canadian soldiers. The boot in question is made of tan calfskin with double soles and Goodyear welt sewn and a steel plate on the heel.
It is expected that further orders will be placed at an early date, not only for the soldiers now being initiated in Canada, but also for Canadians at the front, who are requiring more boots, and who, it is understood, much prefer the Canadian boot for comfort and service. Such action on the part of the authorities will be much appreciated by Canadian labor.

ROYAL BANK GOES TO NEW QUARTERS
Will Occupy First and Twelfth Floors of Twenty-Storey Building.
MAKES MOVE MONDAY
Magnificent Offices Permit of Quick and Convenient Banking.
On Monday, July 12, the Royal Bank of Canada will move from the Traders Bank Building to new quarters in the 20-storey premises on the northeast corner of King and Yonge streets, known as the Royal Bank Building. The bank, finding that its vastly increased business necessitated larger quarters, leased the ground floor and a portion of the twelfth floor for a period of years.
The main entrance to the bank opens directly on King street, and there is also a public entrance from the main hall of the building. The Savings Bank department, with which there is a ladies' room in connection, is accessible directly from the general banking rotunda, as well as from the street.
The safety deposit vaults, including a silver safety-vault, have been constructed with the view to the greatest convenience of the bank's customers. The groundwork in connection with the counters and railings is finished to harmonize with the color scheme of the interior marble. The general lighting of the rooms is accomplished by concealed indirect reflectors, so arranged as to ensure the best architectural effect as well as the practical lighting of the premises.
Although the bank will be open to do business with its customers at the new address on Monday, the super-visor's offices and those of the executive staff will not be moved until later, awaiting the completion of their new quarters on the 12th floor.
A visit to the handsome new quarters of the bank will repay one passing at the corner of King and Yonge streets.

ARRANGE BIG EVENT FOR MILITARY DAY
Dr. J. O. Orr Goes to Ottawa in Reference to Soldier Camp at Exhibition.
Dr. J. O. Orr of the Canadian National Exhibition left last night for Ottawa to take up questions with the Government relating to the military camp at the fair, the transfer of several hundred men, horses, gips and equipment from various training camps, to Toronto for the period of the fair. A host of formalities have to be observed.
It is planned to hold a big review of the local militia, a small review of training, on Military Day, Sept. 2, and Dr. Orr hopes to induce the duke to preside.
SUNDAY SCHOOL PICNIC
The Canadian Pacific is running a special train today to accommodate the St. George's Sunday School excursion to Churchville. It leaves Toronto at 9.30 a.m., returning from Eldorado Park at 7 p.m.

An Easy Way to Increase Weight
Good Advice for Thin Folks
The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.
This is a remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This is called Sargol and has been termed the greatest "fat builder" ever discovered. Its regenerative, reconstructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to every part of your body. You can readily picture the result when this amazing transformer has taken place and you notice how your cheeks fill out, hollows under your neck, shoulders and bust disappear and you take on from 10 to 20 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficient results in overcoming nervous dyspepsia and general stomach troubles. It should not be taken by those who do not wish to gain ten pounds or more.

Youthful, Wrinkleless Skin Easy to Have
You who desire to regain a youthful appearance will do well to make the acquaintance of the two simple, but valuable, prescriptions here given.
To make an effective wrinkle remover, mix an ounce of powdered sorbitol with a half pint witch hazel. Bathe the face in the solution—immediately every wrinkle is affected. It acts wonderfully on sagging facial muscles, also, the lo-lation possessing remarkable astringent and tonic properties.
To get rid of an aged, faded, freckled or dried cream, erase this morning with soap and water. This will slowly absorb the undesirable surface skin, revealing the younger, brighter, healthier skin underneath. There's nothing to equal this treatment as a facial rejuvenator.

Recipe to Stop Dandruff
This Home Made Mixture Stops Dandruff and Falling Hair and Aids Its Growth.
To a half-pint of water add:
Bay Rum..... 1 oz.
Oreox Compound..... 1 oz.
Glycerine..... 1/2 oz.
These are all simple ingredients that you can buy from any druggist at very little cost, and mix them yourself. Apply to the scalp once a day for two weeks, then once every other week until all the mixture is used. A head of dandruff and kill the dandruff germs. It stops the hair from falling out and relieves itching and scalp diseases.
Although it is not dye, it acts upon the hair roots and will darken streaked, faded, gray hair in ten or fifteen days. It promotes the growth of the hair and makes harsh hair soft and glossy.
