

WINNIPEG PRICES CURRENT

The report circulated by Toronto papers to the effect that only Ontario horses would be purchased for the use of the new Canadian force for South Africa, owing to the unsatisfactory character of the Western horses purchased heretofore, is believed to be a fabrication, and all officials concerned deny the statements that western horses are not suitable. The purchasing orders will be placed this time wherever good horses can be obtained.

A wire from West Superior, Wis., on Tuesday said: Navigation at the head of the lakes has ceased. The last boats have left the harbor. One, the Norwegian, loaded with lumber, and the other, the Sacramento, with a cargo of grain for Buffalo. Several more steel built boats are expected to arrive to-morrow with cargoes of coal. These will be the last and they will winter here, making a fleet of about thirty boats that will spend the winter in the slips at the wharves.

It is a matter of not unreasonable surprise in Great Britain that England has practically monopolized the manufacture of Union Jacks. This is sarcasm with a sting, but the sting is not yet. It has come to light that the enterprising Teuton has gone into the coronation medal business, and is already shipping large quantities to all parts of the British empire for the historic event of 1902. The old time Birmingham medallist is left in the cold, as he cannot compete with German prices. These facts are bones in the throat that cannot be swallowed. The question suggests itself as to how it is that the Briton can be so cleverly outwitted even in his own backyard. If "Made in Germany" is becoming a national nightmare, it is time for the sleeper to wake up.—The Age of Steel.
