lies in the fact that we are Clothiers only. We handle nothing but Clothing for Men and Boys, and devote our time and energy to making the best. We do not carry Men's Furnishings, because we believe in the live and let live idea. We have dozens of calls every day for furnishings, but we send them to our friends and neighbors who do handle them, and we know that they in turn send us clothing customers, which is a sign of reciprocity and good fellowship. The season is here now for buying Fall and Winter Clothes. We have done our part to the letter by getting for your inspection garments that have real merit and are out of the ordinary in style, fit and fabrics. Another great factor in making our ALL - CLOTHING business so successful is that we are backed by the strongest and best clothing manufacturing firm on the American Continent. They are always on the alert and ready to make for us any new idea or kink of fashion, with the result that we are at all times ready to meet you with the ideas that are the most serviceable for your needs. You will be surprised at our immense showing of Suits and Overcoats for all ages -- and we can prove to you in a very few minutes that it's only a foolish man who leaves his order with a tailor in this modern age. It 's a game of chance, in a way. While with us you can tell in a few minutes just whether a garment suits you or not. We have a splendid selling staff, too, and we are strong on pleasing everyone who comes into our store. In fact, for an allround clothing store you'll find us hard to beat.

Quotations of prices do not illustrate like seeing, so come along and look at our handsome Suits from Ten to Thirty-Eight, our Overcoats in all weights from Ten to Fifty, and you'll get a modern education in clothing that will please and benefit you.

LLOYDS NOT WORRYING.

LONDON, Sept. 27.—(C. A. P.)—No anxiety is felt at Lloyds as to the pro-posed government subsidy in Canada. They don't view possible formation of a government department with any serious alarm. The experience of the government would in their opinion be the same as their own, that they would soon discover that at current rates, business didn't leave a great margin of profit. As a paying proposition it would be difficult to pull down Canadan rates.

The decision of Dr. G. H. Locke, chief librarian of the Toronto Public ibrary, to inaugurate a story-telling epartment for children in Toronto, brings to the fore the remarkably successful work done along these lines by the Runnymede Public Library. When seen by The World, Mr. H. M. Wodson, fournalist and author, and founder of the Runnymede library, expressed his satisfaction that the work done by Runnymede had inspired Dr. Locke.

"Statistics show that the children's story hour," inaugurated by the Runnymede Public Library over two years ago, as the result of reports made by Miss Spereman of the department of education, has achieved more success than those given in any small library in the Province of Ontario," said Mr. Wodson, "and it is most gratifying to find that our success has stirred the chief librarian to begin a branch of library work in Toronto which has been neglected too long. Our story hours out at Runnymede have been the means of increasing the interest of little people in literature to a remarkable extent and have brought requests for advice and guidance from several library enthusiasts in the province."

Mr. Wedson pointed out that the Runnymede Library story hours had received flattering tributes from the department of education on several occasions.

"As usual," he concluded, "Toronto rings to the fore the remarkably suc-

A movement is on foot among the many old boys of the old Annette street public school to obtain the big bell which formerly hung in the tower, and whose sound they once knew so well, in order to have it cast into small memorial medals. A new bell has been placed in the large new building, and the old bell is still the property of the education department. A petition, which has been largely signed by the many ward seven citizens, who in their boyhood days attended the Toronto Junction school, as it then was known, is being circulated, asking that the bell s being circulated, asking that the bell be given them for this purpose, as in the case of other schools thruout the city. A meeting for those interested in the movement will be called in the near future, and a committee appointed to make arrangements for an old boys'

### WORK AND WORRY WEAKEN WOMEN

New Realth and Strength Obtained by the Use of Dr. Williams' Pink Pills.

It is useless to tell a hard-working

woman to take life easily and not to worry. Every woman at the head of a home; every girl in olines, snops and factories, is subject to more or less worry. These cannot be avoided. But it is the duty of every woman and every girl to save her strength as much as possible and to build up her system to meet any unusual demands. Her future health depends them it. To guard against a breakupon it. To guard against a breakdown in health the blood must be kept-rich, red and pure. Nothing can keep the blood in this condition so well as Dr. Willams' Pink Pills. They strengthen the nerves, restore the appetite, bring the glow of health to pallid cheeks, and renewed energy to listless people. Women cannot always rest when they should, but they can keep their strength and keep disease away by the occasional use of Dr. Williams' Pink Pills. Or if a breakdown has come unexpectedly they can obtain new health through this same years I was almost a constant in-valid, unable to do my housework and spending much of my time in bed. My nerves seemed worn out and I was My nerves seemed worn out and I was so run down that all my friends thought I was in a hopeless decline. I was as pale as a corpse; I was so bloodless that if I cut my finger it would not bleed; my limbs were swollen far beyond their usual size. At the least exertion my heart would palpitate violently, and I frequently had fainting spells. I was under treatment by good doctors, but it did me no good. Then one day my husband brought home some Dr. Williams' Pink Pills and I began taking them. They seemed to go to the root of the trouble, and in the course of a tew weeks the improvement they were me no good. Then one day my husband brought home some Dr. Williams' Pink Pills and I began taking them. They seemed to go to the root of the trouble, and in the course of a tew weeks the improvement they were making was quite plain. Gradually as I continued taking the Pills the swelling of my limbs disappeared; the weak spells came less and less frequently; my appetite greatly improved, and finally I was completely cured and able to do my housework with ease. Later, my daughter Elma seemed to be troubled with anaemia, and we gave her the Pills with the same good results."

The Farmers' and Ladies' Institute annual meeting is to be held this year in November. This is earlier than usual, and no doubt will suit much better. The ladies and gentlemen will, as usual, have separate meetings in the afternoon, and a joint meeting in the evening. It is expected that this meeting will be held in Victoria Hall, as usual, and as this building has been so extensively remodeled, it will be so extensively remodeled, it will be much more convenient and comfortable. As these meetings are improving each year, a large turnout is expected.
