THE CANADIAN ANNUAL DIGEST. (1896). By Charles H. Masters, Reporter of the Supreme Court of Canada, and Charles Morse, LL.B., Reporter of the Exchequer Court of Canada. Toronto. Canada. Law Journal, 1897. Exchequer Court of Canada, Poronto, Canada Law Journal, 1897.

In speaking of the inception of this undertaking The Canada Law Journal of April last described it as "an important forward movement in the unification of the laws in the various provinces of the Dominion." It declares, furthermore, that from this point of view, "it will be the most important law book that has yet been arnounced in this country." The premier volume is now at hand, and shows that the compilers have gone a long way towards realizing the very large claim made for their undertaking by The Journal. Greetings From Lody Henry Somerset.

Lady Henry Somerset sends personal greetings and greetings from the British Woman's Temperance Association. She writes: "I am glad to have the opportunity of saying how much I believe such international conventions bring to our national work in all lands. Nothing, perhaps, has brought the women of the world Tearer to each other than this bond of comradeship and the tie of working for the welfare of humanity; nothing breaks down prejudicenational, religious and social—so effectually as this meeting-ground for a common purpose. In England we are looking forward to the convention in Toronto with hope and expectation, and we believe that our prayers and wishes 'or its success will be fulfilled. We have every reason to feel sure of the welcome which will be extended to us by our Canadian sisters.'

New York, Sept. 11.—The Evening Post financial says: The two hours of business on the stock exchange to-day developed great activity, with the guiding influences much the same as yesterday. The granger shares moved again on an extremely heavy outside demand, and this again in spite of steady realizing. Outside this group or securities, however, the market was extremely irregular, and there were not a few declines. Some stocks were sold by professional speculators, who endeavored to urge the yellow fever developments and the Lebigh riots as an argument for misgiving. It is doubtful if this news had any special influence. It would have broken prices heavily at a time of general despondency, but the average outsider seems just now to treat bad news with entire indifference.
