SYSTEM IS SOUGHT FOR IN CITY'S RELIEF WORK

Associated Charities to Petition for New Arrangement in Hope of Reorganizing Present Methods.

A deputation from the Associated Charities will shortly come before the board of control, with a request that a portion of the city grant for out-door relief be put in the hands of the city relief officer, to be applied in cases of urgent need. A petition bearing the names of many prominent citizens will also be presented urging this course. At the present time the city relief department have not the means whereby they can give assistance, but merely have the power to direct the needy ones to places where aid may be secured. This has proven of late a cumbersome system. The money that the city would give the department, if it complies with the request, will be used only in extreme cases, and therefore small in proportion to that given other institutions. The Associated Charities could then do the investigating into the cases of applicants and the city relief department lend immediate aid, if [illegible]. In ordinary cases, the present course of sending the appliant to the various institutions provided for his assistance will be adhered to. As pointed out, the most natural place for mendicants to first apply is at the city hall. The headquarters of the Associated Charities is in the same office, and the intention is that it should work in conjunction with the relief office.

'Twill Be Economic.

Professor Goldwin Smith, who has been the chief means of reviving the Associated Charities, and who is now the main mover in the effort to secure the consent of the board of control to assist in making the present system of outdoor relief conserve to the better interests of our city's poor, has this to say in regard to it:

"Let me say first that the Associated Charities are not going to ask the city for any money for themselves. They hope to pay their own way by voluntary contributions. They may ask the city to transfer a moderate portion of the money now expended in doles to its own relief officer to be used by him in correspondence with the Associated Charities, for the relief of urgent cases. It is hoped, and experience indicates, that money will be saved to the community by the application of the principle of strict and expert investigation, combined with those of adjustment of relief to special need and regard for the self-respect of the poor.

"In the second place, let me assure you that there is no thought of encroaching on the field of any existing institution. The object is only to harmonize the action and economize the resources of them all. Every great city feels the need of some central organization of this kind to keep the several organs of charity, including parishes and pastorates, in touch with each other and prevent overlapping, waste and imposture, as well as to perform other functions which do not fall within the scope of special charities, such as that of keeping a register of cases, supplying information and advice, maintaining a labor bureau and setting the law in motion in certain cases, such as wife desertion or failure to support relatives, forwarding destitute wayfarers and certifying lodging houses for the poor.

May Avoid Pauperism.

"There are obviously urgent cases which our present system of doles, distributed during seven months of the year, must fail to meet. The artisan, disabled or thrown out of work for a time, without means to pay his rent, may lapse into pauperism, if not assisted with relief other than a dole.

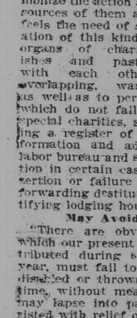
"We had for a series of years a conference of charities, under the excellent auspices of Mr. Pell, then secretary of the St. George's Society. It was attended, I believe, by delegates of all the principal charities, or of all excepting the House of Industry. It did good work in directions indicated by the present program. For myself, I was retiring from the work, after 30 years' connection; but I turned back to lend what help I could in setting on foot an organization which experience and the authority of the best judges have led me to regard as essential to the right treatment of the subject, evidently of serious importance to all great cities."

Would Revolutionize Salmon Fishing.

Victoria, B.C., Feb. 24.—It was reported here to-night that the Dominion government had at last agreed to allow the erection of fish traps at a point near Victoria. The incoming salmon from the sea to the Fraser strike a point in the Straits of Fuca, near Victoria, and could be taken there by fish traps in such numbers as to render useless the traps at the American station. The establishment of traps here would revolutionize the salmon canning industry of the northwest.

Pembroke Man Wins.

Boston, Feb. 24.—At the beuch show of the New England Kennel Club today, E. J. McGaughey of Pembroke, Ont., took first honors in every class of black and tan terriers, the ribbons going to Selwonk Imperial and Selwonk Pearl.



Many a child has been fooled by the story of the pot of gold which is to be found just at the foot of the rainbow, and has started out to gather riches full of happy dreams.

Many a man and woman have been deceived by the tale that there was health to be found out beyond the sunset, and they have started out dreaming of a healthful future, never to be realized.

People who have tried change of climate in vain for the cure of weak lungs have been perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It cures deep-seated coughs, bronchitis, bleeding lungs, emaciation, and other conditions which, if neglected or unskilfully treated, find a fatal end in consumption.

"Last spring I had a severe attack of pneumonia which left me with a very bad cough, and also left my lungs in a very bad condition," writes John M. Russell, Esq., of Brent, Cherokee Nat., Ind. Ter. "I had no appetite and was so weak I could scarcely walk. My breast was all sore with running sores. I got two bottles of Dr. Pierce's Golden Medical Discovery, which I believe saved my life. I cannot express my gratitude to you. I am able now to do very good work."

Any substitute offered as "just as good" as "Golden Medical Discovery" is a shadow of that medicine. There are cures behind every claim made for the "Discovery," which no "just as good" medicine can show.

The People's Common Sense Medical Adviser, a book containing 1008 pages, is given away. Send 21 one-cent stamps, for expense of customs and mailing *only*, for the book in paper covers, or 50 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

ALMOST AFRAID TO GO TO SLEEP FOR FEAR SHE WOULD NOT WAKE UP.

FLUTTERING OF THE HEART.

SHORTNESS OF BREATH.

FAINT AND DIZZY SPELLS.

Mrs. Wm. Bingley, Grand Tracadie, P.E.I., Has a Very Trying Experience, but Thanks to

MILBURN'S HEART AND NERVE PILLS.

She has been restored to perfect health.

She writes: "About seven months ago I was badly run down in health and became very weak. I was troubled with fluttering of the heart and shortness of breath. When lying down at night I was almost afraid to go to sleep for fear I would never wake up. When I arose in the morning I would feel a little better, but as soon as I started to work my heart would start fluttering, my head would become dizzy, faint weak spells would come over me and it seemed as if black objects were floating before my eyes. I was growing worse every day until I got a box of Milburn's Heart and Nerve Pills. When the box was half gone I could feel that they had done me good and by the time it was finished I was in excellent health and would advise all sufferers from heart and nerve troubles to try them."

Price 50 cts. per box, or 3 for $1.25, all dealers, or

MILITIA ORDERS.

F. F. Clarke Becomes a Captain of the York Rangers.

Ottawa, Feb. 24.—The following appointments are made in orders issued to-day: The governor-general's body guard—To be provisional lieutenants, Sergt. W. F. Wright and T. L. Kennedy, gentlemen, to complete establishment. Twelfth Regiment, "York Rangers"—To be captain, Lieut. F. F. Clarke, vice J. A. W. Allan, promoted; to be second lieutenant (supernumerary), S. A. Mitchell, gentleman. 48th Regiment, "Dufferin Rifles of Canada"—To be major, Capt. F. A. Howard, vice W. A. Wilkes retired; to be captain, Lieut. J. S. Breedon, vice F. A. Howard promoted. The Royal Canadian Regiment—Lieut. and Brevit Captain F. A. Lister, is second for duty, with the signalling Corps of Guides, to be major, Capt. A. C. Caldwell. Intelligence staff officer at headquarters; to be district intelligence officer, military district No. 12, Major W. A. Weeks, from the Charlottetown Engineer Co., with rank of Captain; to be district intelligence officers, military district No. 1—R. H. H. Ryan, gentleman with rank of provisional lieutenant; military district No. 2—Major T. H. Jones from the retired list with rank of Captain; Military District No. 11—To be sub-district intelligence officer, F. R. Glover, gentleman with rank of provisional lieutenant; R. Brittain, gentleman with rank of provisional lieutenant; Military District No. 8, Capt. W. Z. Earle, district intelligence officer, resigns his commission, and is permitted to retain honorary rank of captain on retirement.

SWEET CAPORAL GIRL WAS THERE.

She Made Fresh Conquest at the Hockey Match on Saturday Night in the Quebec Skating Rink.

The Sweet Caporal Girl was at the hockey match on Saturday night. Looking as dashing and bewitching as ever, she graced he exciting event by her presence and watched with smiling interest the Sweet Caporal team win out. She was as usual the centre of admiration and her rich costume attracted the attention of everybody. She was like a ray of sunlight, as she flashed hither and thither among the crowd of spectators who had gathered to see the match, and more than divided the honors with the hockey players. Inspired with the vision of their dashing Hussar leader, it was no wonder that the Sweet Caporal team won. They would have been decidedly ungallant to do otherwise. The Sweet Caporal Girl has now got to be a familiar figure at our public gatherings, and with her costly and handsome uniform, with its flashing gold lace and satin and silk, is a picture for the eye. She made fresh conquests at the rink on Saturday night, and everybody was pleased to see her.

Would Like to Sell Farm.

When William Grahame died in 1813; he left to the Church of Scotland, Newmarket, 40 acres of land. The revenue from this farm was to be given to the poor of the congregation. Since that time the rental of the farm has been used for the purpose, as intended by the testator. The congregation are now asking permission thru the legislature to sell the farm and build a manse with the proceeds, or invest the money in securities. Hon. E. J. Davis has introduced a bill to that effect.

Ex-Policeman Sues Fund.

Alfred W. Gummerson, an ex-policeman, is suing the police benefit fund trustees. He resigned September, 1903, when he was reported unfit for duty. He was injured some years ago. He is asking the courts to declare that he is entitled to be paid out of the fund a life pension equal to three-eighths of the salary he was receiving at the time of his resignation. If this suit fails, he will sue for the money he has paid into the fund.

Mortgage on St. Louis Fair.

Washington, Feb. 24.—A mortgage has been executed by the Louisiana Purchase Exposition Company to the United States government, to cover the loan of $4,000,000, authorized by congress to be made to the company. Repayment of the amount loaned will begin in June. In the event of failure promptly to repay the amount loaned, the government is to take charge of the fair.

Funeral of Capt. Adams.

A large concourse attended the public funeral service of the late Adjutant James Adams of the Salvation Army headquarters. Colonel Jacobs conducted the service, and the entire headquarters staff, the training college staff and cadets, and a large number of representatives from the various city corps took part.

Toronto Canoe Club.

The date of the annual dinner of the Toronto Canoe Club is Friday, the 26th inst. Members are reminded that it will be necessary to secure their ticks early, and to get to the club rooms at 8 o'clock sharp. Tickets may be obtained from any member of the house committee.

63 Accused Prisoners.

Kishineff, Russia, Feb. 24.—The proceedings to-day in the second trial of persons connected with the massacres here were devoted to hearing the charges against the prisoners accused of the murder of the Jewess, Koza. There are 63 accused persons. The trial is expected to conclude Feb. 26.

FIRE AND LIGHT COMMITTEE.

Request for Erection of Carriage Shop on Bleecker-Street Denied.

The fire and light committee yesterday were asked by Mr. Dixon, the carriage manufacturer on Temperance-street, to permit the erection of a twelve-foot workshop adjoining the walls of the Ontario Veterinary College. Building Inspector Copping opposed the request, unless the consent of the adjoining property owners was obtained. Controller Loudon, Ald. Ramsden and the inspector will look into the matter.

Commissioner Fleming reported adversely to the application of J. Graham of 967 Yonge-street, who wished to establish a carriage shop on the premises at 91 Bleecker-street. The locality is of a residential character and the committee did not consider the would improve it.

Ald. Jones asked for electric lights at the corner of Bloor and Major-streets, and on Huron-street north of Bernard, and also a fire alarm box at the corner of Barton and Bernard. Secretary McGowan is going over the city to ascertain its needs, and will consider the application of Ald. Jones.

Permission was granted A. J. Bowman to erect on his premises at 65 Fuller-street a six-horse-power boiler for heating purposes on the recommendation of the property commissioner.

Fire Chief Thompson officially notified the committee of the death of Arthur Potter and the serious illness of seven other firemen. The secretary was instructed to forward a resolution of condolence with the widow of the deceased fireman.

Industrial School Report.

The board of management of the Victoria Industrial School met at the city hall yesterday to receive the monthly report of the superintendent. The number in attendance on Feb. 1 was 174, five having been sent out during January, and the general health of the school had been good.

PROPERTY OWNERS SHOULD BEWARE

Indifference May Place Them in Power of Bell Co. for 20 Years.

At the meeting of the board of control yesterday the corporation counsel submitted an opinion on the rights acquired by the Bell Telephone Company in entering upon private property. Mr. Fullerton stated that the company, by attaching and maintaining its wires and apparatus without the consent of the owners, to private property and buildings, thereby acquired an easement over the property by user of twenty years. In case the owners or occupiers of the premises wished to prevent such user, they must take such steps either by interfering with the attachments or service so as to interrupt it for a period of at least one year, or to make an agreement with the company covering such user. The controllers considered that the people should be informed of the facts and the opinion was sent on to council.

Wm. Cottrell desired to introduce a common sense sewage plan based on the contention that the lake currents flow westward. He would locate the waterworks pumping station at Scarboro and the sewer outlet, west of Toronto. The matter will be dealt with by the city engineer.

The appointment of R. B. McGiffon as draughtsman in the office of City Architect McCallum was held over, as was also consideration of the board of works estimates.

FRANCE AND THE U.S.

Negotiations on Looking Toward an Arbitration Treaty.

Paris, Feb. 24.—It was confirmed in official circles in Paris to-day that negotiations were actually in progress between the United States and France for an arbitration treaty. The French parliamentary group, favoring international arbitration, is said, however, to be over-sanguine in the belief that a treaty will shortly be signed. It is pointed out here that the Russian-Japanese war tends to cause hesitation on the part of the negotiators.

The exchange between France and the United States, it is understood, occurred at Washington. Baron d'Estournelles de Contant, theleader of the parliamentary group favoring arbitration, has had several personal conversations with United States Ambassador Porter, in addition to interesting the authorities at Washington in the matter, by means of letters. But no official conversations on the subject are known to have occurred between Foreign Minister Delcasse and General Porter.

Officials say the exchanges have formed a base upon which a treaty at a more favorable opportunity can be consummated.

Disastrous Fire at Leamington.

Leamington, Feb. 24.—At an early hour this morning the new large brick block owned by William McSween was burned to the ground. The fire is supposed to have started in Norman and Dawson's drygoods store. The block is occupied by Cullen and Baneroft furniture store, Norman and Dawson drygoods, Mrs. Maycock, fur store. On the second floor by Leamington business college, the inland revenue and custom officer. Total loss is estimated at about $35,000.

Refused to Stop for Blank Shot.

Kingston, Ja., Feb. 24.—The German steamer Altenburg, Captain Kuhls, from Hamburg and West Indian ports, arrived here to-day, and reported that between San Domingo and San Chez, Santo Domingo, the Dominican gunboat Presidente hove in sight and fired a blank shot across her bows. Captain Kuhls, however, refused to stop, and no further interference with the Altenburg was attempted.

Invitation to 'Phone Co.

Ottawa, Feb. 24.—Ottawa City has invited the Bell Telephone Company to name its very best terms for an exclusive franchise. This action is taken before definitely deciding on the several offers received.

Lieut. Meredith, formerly of Toronto, has been appointed to command the Ottawa Engineer Corps. He takes the rank of major.

Royal Grenadiers.

The new fife and drum band will beat "tattoo" at the armories to-night, "first post" sounding at 8:30 and "last post" at 9:30. The band has much improved during the winter, and should give a good account of itself. The recruit classes for the spring season will also commence to-night, at 8 o'clock.

Died at Palmerston.

Palmerston, Feb. 24.—Mrs. William Nowry, for over 35 years a highly respected resident of this town, died suddenly this evening of apoplexy. A husband and 10 children, all grown up, survive her.

SUNLIGHT SOAP REDUCES EXPENSE

$5,000 Reward will be paid by Lever Brothers Limited, Toronto, to any person who can prove that this soap contains any form of adulteration whatsoever, or contains arly injurious chemicals.

Ask for the Octogon Bar. 215

Asked to Meet Here.

Ottawa, Feb. 24.—The railway commission has been asked to meet in Toronto on March 2 by the Dominion Grange, the Dominion Cattle Breeders' Association, the Ontario Fruit Growers' Association, the International Shippers' Association and the Live Stock Breeders' Association, to hear complaints regarding freight rates and service.

No Evidence Was Offered.

Brockville, Feb. 24.—James A. Hutcheson, K.C., who created a sensation about two weeks ago, by a confession of embezzlement and a voluntary surrender to justice, appeared before Judge Macdonald yesterday afternoon. No evidence was offered, and the case was dismissed.

5.20 p.m.

New York train leaves daily at above hour via C.P.R. and New York Central, arriving New York 7.50 following morning. Through sleeper to New York. Dining car to Buffalo. ed

Chaplain Barry is Dead.

Kingston, Feb. 24.—A message received here at noon announced the death of Rev. Y. W. Barry, a United States chaplain, at Fortress Monroe, Virginia. He had been 29 years in the army service. He was a Canadian, born at Kemptville, and was in the Anglican priesthood in Kingston, Ont., New York and Leavenworth, Kansas. He was married to a Kingstonian, a niece of the late Senator Thibaudeau of Montreal.

C.P.R. Earnings.

Montreal, Feb. 24.—The C.P.R. traffic for the week ending Feb. 21, $556,000; same week last year, $657,000.

Pill-Age.—Dr. Agnew's Liver Pills, 10 cents a vial, are planned after the most modern in medical science. They are as great an improvement over the 50 years old strong dose pill formulas as a bicycle is over an ox-cart in travel. They never gripe and they never fail. 40 doses, 10 cents.—125.

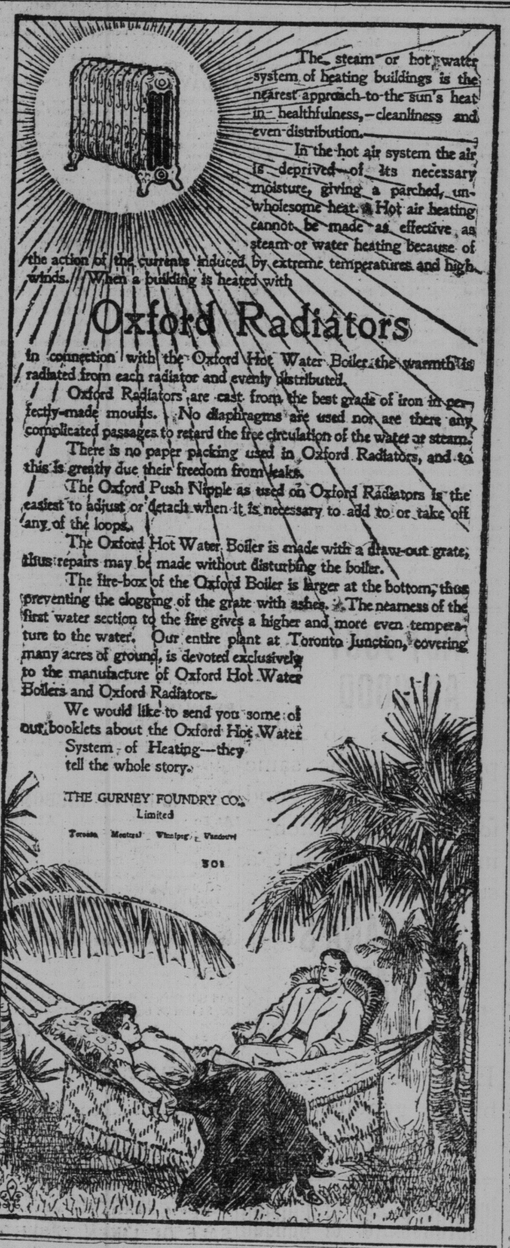
CITY HALL SQUARE



The steam or hot water system of heating buildings is the nearest approach to the sun's heat in healthfulness, cleanliness and even distribution.

In the hot air system the air is deprived of its necessary moisture, giving a parched, unwholesome heat. Hot air heating cannot be made as effective as steam or water heating because of the action of the currents induced by extreme temperatures and high winds. When a building is heated with

Oxford Radiators

in connection with the Oxford Hot Water Boiler the warmth is radiated from each radiator and evenly distributed.

Oxford Radiators are cast from the best grade of iron in perfectly-made moulds. No diaphragms are used nor are there any complicated passages to retard the free circulation of the water or steam.

There is no paper packing used in Oxford Radiators, and to this is greatly due their freedom from leaks.

The Oxford Push Nipple as used on Oxford Radiators is the easiest to adjust or detach when it is necessary to add to or take off any of the loops.

The Oxford Hot Water Boiler is made with a draw-out grate, thus repairs may be made without disturbing the boiler.

The fire-box of the Oxford Boiler is larger at the bottom, thus preventing the clogging of the grate with ashes. The nearness of the first water section to the fire gives a higher and more even temperature to the water. Our entire plant at Toronto Junction, covering many acres of ground, is devoted exclusively to the manufacture of Oxford Hot Water Boilers and Oxford Radiators.

We would like to send you some of our booklets about the Oxford Hot Water System of Heating—they tell the whole story.
