ANY FACE

Even if the prevailing style calls for a large or a small rimmed hat there are always some medium styles made to suit the face of the wearer.

The test of a good hat stock is the variety of designs and sizes carried.

Dineen's stock not only embraces every design and size, but by a variety of makers in the United States, England, France, Germany and Italy.

This is the most dangerous crossing on the west side of the township, and we think the council are perfectly justified in going ahead are perfectly justified in going ahead with this subway. When the C. P. R. went before the railway commission with their plans they led them to believe they were only going to raise the new track five feet above the old roadbed. The track, as it is now, shows an elevation of seven feet above the old one. This is the way the corporations approached the commission, figuring their plans away below/what it really was, when they knew well that such a thing could not be done. The council
