FINE COLLECTION OF BIRD PICTURES

J. Ross Robertson Makes Splendid Contribution to Natural History Records

POPE COLOR DRAWINGS

Artist Spent Many Years Gathering Material for Remarkable Sketches.

son presented to the trustees of the

library the collection of water color drawings by William Pope. There are 236 pictures in the collection, which convists mostly of drawings of Canadian birds. There is a small collection of British birds which Mr. Pope brought nit from England with him. The drawings will rank among the best work ofthis class ever done. The coloration of the plurrage in most of them is remarkable for its accuracy and the attitude of the subject is in all cases natural and characteristic of the species delineated. The pictures should appeal to naturalists and children interested in the life of birds. They portray the birds and sufficient of the natural habitat of each species to show whore it may be expected to be found in life.

Mr. Robertson said: "When I was informed by experts that it would be a crime to have this collection of drawings leave the country, I made up my mind to see that they were obtained for the people of Canada: The collections will remain forever representing Ontario when it was a forest and full of birds."

N. G. Nach, chairman of the library board, precided, and in instroducing Mr. Robertson referred to him as a familiar figure around the library. "He is not here very often," he continued, "but when he is he leaves traces of his appearance which are of great benefit to the citizens of Toronto." On behalf of the library board and the citizens he thanked the donor for his sift to the city.

Birds Need Protection. of the subject is in all cases natural

the fibrary board and the citizens he thanked the denor for his sift to the city.

Birds Need Protection.

C. W. Nash of the Provvincial Museum stated that Mr. Rebentson was one of the very few men in Ontario who devoted both time and money to sert. He told of the need for protection of birds, owing to the great scarcity, and warned those present to persuade thoughtless people from destroying birds. Dr. Clarke paid a high tribute to Mr. Robentson for the many ant collections which he has domated to the library, and in conclusion said that in many instances the pictures were remarkable from an artistic point of view.

The portrait of Wm. Pope, the artist, is also in the collection. He was born in Maidstone, Kent. Eths.; educated there and at Sevenoaks, Kent. In 1834 he made his first voyage to America, traveled extensively in the States. He remained in western Ontario for a short time, then returning to the old country. Returning to Canada in 1842, Mr. Pope made several visits to England up to 1859, when he determined to settle, permanently here, and for more than 40 years lived near Poort Ryerse, in Nordolk Country. He took no active interest in public affairs, but remained a persistent student of nature. The greater part of his work consisted of a combination of pen and ink and water Color, the pen being used chiefly to outline the detail in the plumage of the bird or hair of the animal. bird or hair of the animal.

MRS. A. E. GOODERHAM BACK FROM ENGLAND

Has Been Busily Engaged in War Work for Many Months.

To cross the ocean under war con-citions would for some women be as heroic an act as for men to face the

heroic an act as for men to face the dangers of the trench or parapet. Others go back and forth just as duty or business take them, and with as much coolness as if they were just taking a trip across the lake.

Mrs. A. E. Gooderham, who has just returned from overseas after a stay of six months in England, is of this order. Since war broke out she has soveral times braved the elements and the dangers that might furk in the air or under the water, and fortunately she has always come off unscathed. In her position of president of the In her position of president of the Daughters of the Empire for Canada, Mrs. Gooderham is known from coast to coast, and beyond these boundaries

the has many friends.

During her absence Mrs. Gooder-ham proved a very vital link between things Canadian and the motherland.

It will be recalled that a very warm It will be recalled that a very warm discussion arose some time ago as to the better method of keeping our Caradian soldiers in hospitals, whether they should be segregated or sent to British hospitals, where they would mix with the men from various parts of the empire. Mrs. Gooderham was decidedly in favor of the latter method, as was also Lady Drummond, another Canadian who is doing big things in England for our men overseas.

It is easy to believe that Sir Alfred Keogh's report and the decision made later that Canadian soldiers should not be placed apart was good news to Mrs. Gooderham and the other Canadian women who felt the matter so

Reenly.

Doubtless the inspiration which Mrs.

Gooderham has gained from her six months overseas will give an impetus
to the many interests in which she is engaged on this side of the water.

RENTS WILL INCREASE

Scarcity of Houses and Expiring of Old Leases Given as Reasons.

Rents are almost certain to be increased ten per cent, this spring, is the opinion of real estate agents who make a study of the housing conditions. The causes are summed up by them as follows: The decrease in house building during the past three years and the consequent lack of nouses; leases made at the beginning of the war at low prices are now expiring and the wage earners are earning more money. A slight increase in returns was noticeable September, and now it has become general all over the city. Owners of

for rent, and that number has been de-creased to twenty-five. The ones The 204th is an all-Toronto unit which lying idle now are large houses and nsuitable for ordinary family use. A six-roomed house is almost imposnand is ever apparent. In the early days of the war a six-roomed house would have stood vacant at \$20 a month, bu now the same place will ent at \$25 and even \$30.

Constance Boulton Surprises Members of N.Y. Canadian Club

In her address before the Men's Canadian Club of New York, Miss Constance Boulton surprised her audi-nce over and over again when she told of the things women were doing accepted. in Canada for the war. It is reported that the Belgian Relief expressed asonishment when they learned that Canadians had given 40 or 50 cents a head, while in proportion the United nent in military sports, winning the States had only given a fourth or fifth baseball and lacrosse championships States had only given a fourth or fifth

of that amount. Miss Boulton pointed out that the 700 branches of the Red Cross were practically financed and engineered by women, and the information she gave regarding the work of the women's institutes, the Daughters of the Empire and other patriotic workers seems to have come as an illuminating wave for which many were far from being

WEARY OF NOTES

Gustave Lansom Leaves Columbia University for Trip in Canada.

SUPPORTED GERMANY

Says Wilson's Last Effort Was Clearly in Favor of the Enemy.

ient Wilson's note, we Frenchmen know The answer of the allies, he thought, had done a great deal of good, and had,

"Whatever motives were behind Presi-

reminded Americans of the causes of the war, the violation of Belgium and other matters that were being forgotten by the United States. The American press, barring the German section, were strongly impressed by the reply, and gave it very

impressed by the reply, and gave it very favorable comment.

Prof. Lansom is one of the best-known French scholars, and holds a position in the academic world that is somewhat of a cross between that held by Sir Walter Raleigh of Oxford and Sir Adolphus Ward, head of Peterhouse, Cambridge.

On leave for a year from the University of Paris, he has taken charge of the department of French language and literature at Columbia University, New York. Wherever he goes, he is simply idolized by his students. His only son was killed in action.

So tired has he become of the Wilsonian element in the United States that he has refused to speak at various gatherings there, but comes to Canada, on account of the stand it has taken and of the bonds existing between France and Canada.

the bonds existing between France and Canada.

Canada and France.

Canada and France.

No part of the British Empire, he feels, is united to France with the close bonds that exist in the case of Canada. Before the war there was the French-Canadians tie of race, and the admiration with which France has seen the English-Canadians in battle has endeared them equally with the French-Canadians. The admirable attitude of England has also won the deep respect of France for the way in which she took up arms in defence of right and liberty. The unanimous effort of all parts of the empire, which at one and the same time showed their loyalty and determination, has also made a deep impression.

France was determined to fight to the

and determination, has also made a deep impression.

France was determined to fight to the end. Frenchmen no longer asked when this would be or questioned the terms of peace. With a wonderful unanimity. France was fighting on, determined of final victory. The kaiser's peace message was regarded as so many words, and with a smile Frenchmen realized it was not a victorious Germany that addressed this message to the allies. While a few voices might be heard inthe French Parliament and in the press advocating peace, they were without authority and without support among the nation.

Prof. Lansom is in Toronto for a few days, and will speak in French tomorrow night in the physics building of the university on "The Characteristics of the French Mind as They Appear in Literature and History."

Leonard J. Wookey, 40 St. Joseph street, volunteered to give a pint and a half of his blood to save the life of Rev. A. S. Grant, one of the leading cruiting on March 14, and on that day people stood in line to sign up with worker in the St. Andrew's Institute people stood in line to sign up with what was called "Everybody's" battalion.

A feature of the 204th recruiting campaign was the ward system of organizing. In the first month of recruiting 555 men were signed on. At the end of two months this total had climbed to 850. By June 14 its strength was 1,040. Altogether the 204th sent up over 3,000 men to the

Under these conditions you will ap-

preciate the restorative upbuilding

effects of Dr. Chase's Nerve Food. As Mrs. Brown says in her letter, "it makes a person feel young and full

of life."

MISSION TO THE JEWS MEETS OPPOSITION

AND PEACE TALK But Many Conversions Are Reported Among the Jews of

This City.

Opposition during the last year by Jews against the Christian faith. as taught by Henry Singer, missionary, of the Jewish mission, Teraulay street, took various forms, according to Mr. Singer's report before the annual meeting of the Toronto Jewish Mission at 110 College street last night. His report showed that 391 meetings

"We might just as well have our page of business in the Township of York as on St. Clair avenue in the City of Toron to." said a manufacturer of toys, whose place of business is on West St. Chiravenue, in the "outside express delivery limits," in an interview with a reporte for The World yesterday. "We are working up a very good trade in manufacturing up a very good trade in manufacturing to the same manner as our neighbors to the south of Bloor street. If the Dominion railway board withholds its decision much longer we shall remove our plant into the fewnship," he said. His report showed that 391 meetings had been held and that the work of Christianizing the Jews was gaining headway among children, women and men. Mrs. White, the secretary, also presented her report showing the results accomplished during the year were great considering the means at the disposal of the workers. She said more Jews had accepted the Christian faith in the past year than any other it was, as an actual fact, in support of Germany," said Gustave Lansom of the University of Paris, when seen by a reporter for The World at the King Edward Hotel last night.

The answer of the allies he theretains the workers. J. O. Anderson, treasurer de-clared that receipts and expenditures for the year were \$791.18 and that the balance in the special legacy and build-ing fund was \$1229.55.

The principal speaker was Rev. F. S.

Weston of Toronto, who quoting frequently from the scriptures, showed quently from the scriptures, showed that the Jewish race was God's chosen people and that the they had been cast aside, were yet to be used to fulfil His purpose. The speaker said the Jews as a race were the football of the world, that they were despised in every country but they were intellectutally above all other peoples, and that authorities recognized that the Jws to repeat the entertainments of the management to repeat the entertainments. authorities recognized that the 'Jws for average ability and brain power ranked highest of all races. In reference to conditions in Poland where 3.000.000 Jews. he said, were being defeated to the conditions of the conditions of the conditions in the conditions in Poland where 3.000.000 Jews. he said, were being defeated the conditions of the condition spoiled, the situation was far worse than that in Belgium or Serbia. Rev. Weston furnished statistics showing that there are now 250,000 Christian Jews in the world, 28,000 of whom are in Great Britain, and 15,000 in America. Eight hundred Christian Jews were in

the ministry, he said. The new officers elected were: Presdent, S. H. Chapman; vice-presidents, C. J. Spencer and Miss Watson; treas., J. O. Anderson and secretary, Mrs.

TRAVEL CLUB MEETS. Fine Collection of Dutch and Belgian Views Taken Just Before the war Are Shown.

The first open meeting of the To-ron'to Travel Club was held last even-ing in St. James' Parish Hail, which took the form of a travelogue and musicale. Interesting views were shown of Holland and Belgium, by Lyman B. Jackes, who took them when on a walking tour in July, 1914, on the eye of the war. One view of excepeve of the war. One view of excep-tional interest was the exterior and interior of "The Place de Charteau." where the treaty of Chent was signed in 1814, it being the only view this side of the water. Another view which was of interest was that of the old History."

Was of interest was that to the east of listory."

Was of interest was that to the east of listory."
