

MILLION WILL BE AT CHURCH FETE IN CHICAGO

Eucharistic Congress To
Draw Pilgrims From
Many Lands

CHICAGO, April 30.—What started back in 1873 simply as the pious ambition of a very devout French woman named Marie Tamisier, will on June 29-30 evolve itself here into one of the greatest religious spectacles ever witnessed in the United States.

On the days mentioned the twenty-eighth International Eucharistic Congress will convene in Chicago, and a million followers of the Roman Catholic church are expected to attend. Great numbers of the Catholic hierarchy are coming from across seas. More than 25 cardinals, scores of bishops and archbishops, representatives from all the Catholic religious orders, nuns, monks and some 8,000 secular priests will be on hand. Pope Pius XI will be represented by a personal legate, Cardinal Bonzano.

IMPRESSIVE PAGEANTS
The occasion will be marked by beautiful and impressive pageantry, miles-long processions and an open-air celebration of pontifical high mass in the huge amphitheatre at Chicago's lake front, with a chorus of 50,000 children's voices to sing the Te Deum and chant in reply to the beautiful Latin mass songs.

The only other Eucharistic Congress ever held on the North American continent was at Montreal in 1910. More than 150,000 attended.

The Chicago congress will be under personal supervision of George Cardinal Mundelein, who, as archbishop of the city, is sponsor for the event. The Rt. Rev. Thomas Heylan, Bishop of Nantux, is president of the permanent committee, and the Rt. Rev. E. F. Hoban, auxiliary bishop of Chicago, is president of the executive staff with Monsignor C. J. Quille acting as general secretary.

Every preparation has been made to house the vast crowds who will attend. Private homes will be thrown open to the visitors and steamships will anchor off the Municipal piers to

Grounds of the Catholic seminary at Mundelein, Ill. Thousands of worshippers will join in processions about the little lake, and the international Eucharist convention will be conducted with the seminary as headquarters.

OPEN-AIR MASS
Perhaps the most striking feature of the entire celebration will come on the concluding day of the festivities in the suburban town of Mundelein, Ill. There, amid the open parkways on the grounds of the archdiocesan seminary, some 100,000 attendants are expected to partake of holy communion which will be distributed by 6,000 priests following a pontifical high mass celebrated by the papal legate.

TARIFF SUGGESTED ON U. S. MAGAZINES ENTERING CANADA

Hocken Would Tax Papers
From Across Line 10 or
15 Cents a Pound

CHANCE FOR HOME PERIODICALS ASKED

Name of Coolidge Getting
More Familiar to Youth
Than That of King

OTTAWA, April 29.—A tariff of 10 or 15 cents a pound on American magazines coming to Canada was proposed in the House of Commons today during further discussion of the budget. The proposal was made by H. C. Hocken, Conservative, of Toronto West Centre, who declared that the tremendous importation of magazines made it impossible for Canadian magazines to live.

Over 25,000,000 pounds of advertising were being brought into the Dominion annually through the medium of United States publications. Mr. Hocken caused some amusement with the remark that the youth of Canada was becoming more familiar with the name of President Coolidge than that of Premier King.

In further debate, J. L. Brown, Progressive, Lisgar, said he believed that the public of Manitoba as a whole approved the cut in the automobile duties. Speeches were made also by J. F. Pouliot, Liberal of Temiscouata, Franklin Smiles, Conservative of Brant, and E. A. Lapierre, Liberal of Nipissing.

LAW STUDENTS ARE HAPPY, EXAMS. OVER

The happiest crowd of boys in town are the students of the University of New Brunswick Law School. Their examinations for the year are completed and the activities of the school, except for the conferring of degrees, which will be done at Fredericton, will end on Saturday when the U. N. B. club will entertain the law students at a luncheon in the Admiral Beatty.

REV. DR. DYDE RESIGNS.

KINGSTON, Ont., April 29.—Rev. Dr. S. W. Dyde, of Queen's Theological College, resigned as principal at the annual meeting of the Board of Management of the college held on Wednesday. A professor is also to be appointed to fill the position left vacant by the resignation of Rev. W. G. Jordan, professor in Hebrew and Oriental languages.

NO DECISION.

At a meeting of the Sunday school superintendents of the city, held last evening in Centenary church, following the meeting of the County Religious Education Council, no definite decision could be arrived at in the matter of having a uniform hour for the Sunday schools to assemble in the summer months. The advisability and the feasibility of having a uniform hour were discussed. The majority favored having the school assemble immediately after the morning church service but others held that 2:30 was the most desirable and suitable time.

The Capture!
THESE are the little demons that put your car into the hands of the wrecker—the Imps of Friction—and they are working every minute of the day on the chassis of your car. Every bearing is "meat" to them. Steering Knuckles and Rods, Steering Worm Housing, Spring Shackles and Bolts, Universal Joints, Drive Shaft, Brakes, Clutch Collar, Fan Assembly, Water Pump—between twenty and sixty bearings are crying out in protest against them.
You hear the squeaks and squeals of protest at every turn of the road; at every sway of the car. "There's a squeak from that front axle," you remark, and forget it for a day. Your neglect puts your car just that much nearer the junk heap.
Where one metal surface operates on another, particularly where bearings have to be closely fitted, it is absolutely necessary that an oil lubricant be used. Manufacturers of motor cars have recognized this and Alemite or Alemite-Zerk is now standard equipment on over 7,000,000 cars. This dust-resisting, easily charged fitting, enables you to force Alemite Lubricant into your bearings under one-ton pressure.
What does this mean? It means that every particle of old, caked, broken-down lubricant is forced out, leaving between the working parts a surface of solidified oil. That's what Alemite Lubricant is! All oil—no filler.
